In this combination of diligent science reporting moving patient success stories and surprising self discovery journalist Julia Hotz helps us discover the lasting and life changing power of social prescribing Traditionally when we get sick health care professionals ask What's the matter with you But around the world teams of doctors nurses therapists and social workers have started to flip the script asking What matters to you Instead of solely pharmaceutical prescriptions they offer social prescriptions referrals to community activities and resources like photography classes gardening groups and volunteering gigs The results speak for themselves Science shows that social prescribing is effective for treating symptoms of the modern world's most common ailments depression ADHD addiction

trauma anxiety chronic pain dementia diabetes and loneliness As health care's de facto cycle of diagnose treat repeat reaches a breaking point social prescribing has also proven to reduce patient wait times lower hospitalization rates save money and reverse health worker burnout And as a general sense of unwellness plagues more of us social prescriptions can help us feel healthier than we've felt in years As the first book on social prescribing *The Connection Cure* empowers you to find experience and implement this revolutionary medicine in your own community While touring the globe to investigate the spread of social prescribing to over thirty countries Hotz meets people personifying its revolutionary potential an aspiring novelist whose art workshop helps her cope with trauma symptoms and rediscover her joy a policy researcher whose swimming course helps her taper off antidepressants and feel excited to wake up in the morning an army vet whose phone conversations help him form his only true friendship and dozens more The success stories she finds bring a long known theory to life if we can change our environment we can change our health By reconnecting to what matters to us we can all start to feel better

**The Rumi Prescription** Melody Moezzi, 2021-03-02 A powerful personal journey to find meaning and life lessons in the words of a wildly popular 13th century poet Rumi's inspiring and deceptively simple poems have been called ecstatic mystical and devotional To writer and activist Melody Moezzi they became a lifeline In *The Rumi Prescription* we follow her path of discovery as she translates Rumi's works for herself to gain wisdom and insight in the face of a creative and spiritual roadblock With the help of her father who is a lifelong fan of Rumi's poetry she immerses herself in this rich body of work and discovers a 13th century prescription for modern life Addressing isolation distraction depression fear and other everyday challenges we face the book offers a roadmap for living with intention and ease and embracing love at every turn despite our deeply divided and chaotic times Most of all it presents a vivid reminder that we already have the answers we seek if we can just slow down to honor them You went out in search of gold far and wide but all along you were gold on the inside Become the sky and the clouds that create the rain not the gutter that carries it to the drain You already own all the sustenance you seek If only you'd wake up and take a peek Quit being a drop Make yourself an ocean

**Reading Literature and Chronic Pain** Josie Billington, 2025-05-15 This valuable and insightful study into chronic pain and its treatment advances a striking analysis of the complex phenomenon of chronic pain also attesting to the importance of the medical humanities in addressing urgent questions that medical science alone cannot resolve The primary purpose of this book is twofold First to demonstrate empirically against a conceptual background drawn from multiple disciplines and knowledge bases historical medical neurobiological psychological socio anthropological how an apparently soft intervention such as literary reading can effectively combat symptoms of a condition as intractable as chronic pain Second to explore what this evidence tells us about pain as a lived experience as well as a condition in urgent need of new treatment options and about literature and the reading of fiction and poetry as therapeutic influences in contemporary health and healthcare most particularly in alleviating the often severe mental health difficulties with which chronic pain is almost universally

associated Based on unique empirical research with people who are living with chronic pain this book is the first of its kind to demonstrate the value of literature and literary reading both as a discourse for understanding and finding pain and as an intervention in its treatment
