James,2018-08-20 Using deposits recently excavated from the Panayia Field this volume substantially revises the absolute chronology of Corinthian Hellenistic pottery as established by G Roger Edwards in Corinth VII 3 1975 This new research based on quantitative analysis of over 50 deposits demonstrates that the date range for most fine ware shapes should be lowered by 50 100 years Contrary to previous assumptions it is now possible to argue that local ceramic production continued in Corinth during the interim period between the destruction of the city in 146 B C and when it was refounded as a Roman colony in 44 B C This volume includes detailed shape studies and a comprehensive catalogue With its presentation of this revised Panayia Field chronology Corinth VII 7 is a long awaited and much needed addition to the Corinth series *Hellenistic Pottery and Terracottas* Homer A.
