The Herdsmans:

The Herdsman's Song Jakob Niklas Ahlström, 1850 **The herdsman's song** Waldemar Thrane, 1850 **Hirten Frühlings Gesang. The Herdsman's Spring Song ... Swiss Air ... Words by W. Ball, the Swiss Melody arranged&partly Composed with Symphonies&Accompaniments for the Harp or Piano Forte, by F. Stockhausen, etc** Franz Stockhausen, 1835 **The Herdsman's Book** Kenneth N. Russell, Stephen Williams, 1974 The Herdsman's Mountain Home Franz Abt, 1856 **The Herdsman's Daughter** Bernard P. Chahilu, 1974 Idylls Theocritus, 2003

Eucritus and I and pretty Amyntas turned aside To the farm of Phrasidamus where we sank down With pleasure on deep piled couches of sweet rushes And vine leaves freshly stripped from the bush The Greek poet Theocritus of Syracuse first half of the third century BC was the inventor of bucolic poetry These vignettes of country life centred on competitions in song and love are the foundational poems of the western pastoral tradition They were the principal model for Virgil in the Eclogues and their influence can be seen in the work of Petrarch and Milton Although it is the pastoral poems for which he is chiefly famous Theocritus also wrote hymns to the gods brilliant mime depictions of everyday life short narrative epics epigrams and encomia of the powerful The great variety of his poems illustrates the rich and flourishing poetic culture of what was a golden age for Greek poetry Storied and Supernatural Places Ülo Valk, Daniel Sävborg, 2018-05-09 This book addresses the narrative construction of places the relationship between tradition communities and their environments the supernatural dimensions of cultural landscapes and wilderness as they are manifested in European folklore and in early literary sources such as the Old Norse sagas The first section Explorations in Place Lore discusses cursed and sacred places churches graveyards haunted houses cemeteries grave mounds hill forts and other tradition dominants in the micro geography of the Nordic and Baltic countries both retrospectively and from synchronous perspectives The supernaturalisation of places appears as a socially embedded set of practices that involves storytelling and ritual behaviour Articles show how places accumulate meanings as they are layered by stories and how this shared knowledge about environments can actualise in personal experiences Articles in the second section Regional Variation Environment and Spatial Dimensions address ecotypes milieu morphological adaptation in Nordic and Baltic Finnic folklores and the active role of tradition bearers in shaping beliefs about nature as well as attitudes towards the environment The meaning of places and spatial distance as the marker of otherness and sacrality in Old Norse sagas is also discussed here The third section of the book Traditions and Histories Reconsidered addresses major developments within the European social histories and mentalities It scrutinizes the history of folkloristics its geopolitical dimensions and its connection with nation building as well as looking at constructions of the concepts Baltic Nordic and Celtic It also sheds light on the social base of folklore and examines vernacular views toward legendry and the supernatural **The Shamanic Themes in Chechen Folktales** Michael Berman, 2009-03-26 All intellectuals driven by nationalist sentiments directly or indirectly are always preoccupied with searching for the most

ancient roots of their budding nations in order to ground their compatriots in particular soil and to make them more indigenous Znamenski 2007 p 28 In Chechnya as in the neighbouring countries of Georgia and Armenia these roots lie in shamanism and the stories in this collection clearly show this to be the case The history of the Nokhchii the name the Chechens have given themselves and their land is filled with rich and colourful stories which have survived for thousands of years through oral traditions that have been passed down generation by generation through clan elders However legends have blended with actual events so that the true history is difficult to write The 1994 1996 war destroyed most of Chechnya's treasured archaeological and historical sites though fortunately ancient burial sites architectural monuments and several prehistoric cave petroglyphs still remain in the mountains These valuable relics coupled with the histories and stories of the elders provide the people with virtually the only remaining evidence of who their ancient ancestors were This book contains both the texts of some of the tales and commentaries on them focusing in particular on their shamanic elements

Constructing Authors and Readers in the Appendices Vergiliana, Tibulliana, and Ovidiana Tristan E.

Franklinos, Laurel Fulkerson, 2020-08-27 The Augustan period in Rome was a golden age for poetry and also the age in which the cult of the author began in the west By examining some early poetic understandings of what it might have meant to be Vergil Ovid and Tibullus *Constructing Authors and Readers in the Appendices Vergiliana Tibulliana and Ovidiana* explores what those authors meant to near contemporaries and what the construction of authorship they were a part of meant to the later western tradition *Constructing Authors and Readers in the Appendices Vergiliana Tibulliana and Ovidiana* takes its starting point from the Appendices attached to three major Augustan poets exploring how their different conditions of production and the differences between their authorising authors result in different notions of what an appendical text ought to contain So for instance Vergil's biography leaves ample room for juvenilia while Ovid's does not the Tibullan appendix explicitly engages with a wider poetic community Moving beyond questions of forgery and deception some chapters ask how we would be able to know the difference between texts of genuine and of disputed authorship given that most of the stylistic features that distinguish authors are replicable Other chapters make the case for re-evaluation of poems that have been neglected or disparaged and still others make sense of individual works in their likely context of composition The volume is the first to treat in conjunction the majority of the appendical works ascribed to Vergil Ovid and Tibullus and to draw connections across corpora
