In the Beginning was the Deed Harry Redner,2018-08-14 Now that the collective death of mankind has become a possibility no other thought can remain unimpaired Harry Redner traces historically the onset of this acute state of Nihilism from what might be called the Faustian revolution symbolized by Faust s pronouncement In the beginning was the Deed Redner reflects on the passage of the three main Faustus from Marlowe s to Goethe s to Thomas Mann s and this reflection serves as the dramatic metaphor for a review of the relationship of Progress to Nihilism in modern civilization Starting with an exposition of the key Faustian thinkers Marx Nietzsche Wittgenstein and Heidegger the book proceeds by examining the dominant modern ideas on Man Time and Nihilism with reference to Foucault Derrida and Althusser It focuses on Language which is a key preoccupation of all these thinkers but has not yet been taken far enough to afford a basis for the explanation of fundamental changes in civilization Language in its creative and destructive functions as constituting both the conscious and unconscious of a culture is reconceived so as to account for the hidden link between Progress and Nihilism The author then explores sociologically the dominant aspects of Progress in terms of the ideas of Weber Adorno and Marcuse on Technology Subjectivity and Activism Finally an extensive literary study of the three main Faustus concludes with a coda on the future of music In the Beginning Was the Deed is lucid and direct tinged with wry humor Redner represent Man in the nuclear age and reflects on that representation seeking to comprehend our era draw ethical and political conclusions and explore action as a response to the threat of annihilation This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982

Windows of the Soul Martin Porter,2005-09-29 In late fifteenth century Florence Renaissance humanists rediscovered a secret natural language hidden in the visual wisdom of the proverb the eyes are the windows of the soul Through its magical prism the language of eyes faces voices laughs walks even stones plants and animals all became windows into the souls of other people of oneself of nature and ultimately of God Some saw in

its words the perfect hieroglyphic language by which Adam had first named nature which when combined with the art of memory could bring about a form of inner writing or mystical self transformation Yet many others dismissed it as a collection of arbitrary conventions superstitious enigmas or gypsy riddles Embroiled in the religious persecution of the Reformation rejected as a science during the Scientific Revolution in the age of Enlightenment physiognomy came to be seen as nothing more than an amusing entertainment But with the dawn of Romanticism be it in the realms of science religion or poetry some began to see that physiognomy was no game and the flame of serious interest in physiognomy was once again rekindled Combining book history and visual history Dr Porter reconstructs this physiognomical eye interprets the way in which books on physiognomy were read and traces the wider intellectual social and cultural changes that contributed to the metamorphosis of this way of beholding oneself and the natural world from the Renaissance to the dawn of Romanticism
