philistines have been wrong on everything from Stalinism to Iraq to low carb diets Beware of complicated solutions that someone was paid to find A simple barbell can build muscle better than expensive new machines True religion is commitment not just faith How much you believe in something is manifested only by what you re willing to risk for it The phrase skin in the game is one we have often heard but rarely stopped to truly dissect It is the backbone of risk management but it s also an astonishingly rich worldview that as Taleb shows in this book applies to all aspects of our lives As Taleb says The symmetry of skin in the game is a simple rule that s necessary for fairness and justice and the ultimate BS buster and Never trust anyone who doesn t have skin in the game Without it fools and crooks will benefit and their mistakes will never come back to haunt them
