examination of the effectiveness of various participatory processes and proposes practical solutions for public participation through two new instruments the Practices Evaluation Tool and the Participatory Methods Ladder These instruments calibrate participation methods according to certain criteria in order to improve their ability to extract local knowledge and incorporate it into planning deliverables These new instruments correspond to and elaborate on Arnstein s ladder the 1969 theoretical landmark for participatory planning Both academics and practitioners in the area of urban and regional planning will find this book to be an invaluable resource given the way it develops both theoretical and practical cutting edge outcomes

My God! Our God? Dianne H. Timmering,E. Joseph Steier III,2011-08-19 This book is about one man s spiritual journey walking and breathing the living Bible during his pilgrimage to the Holy Land Israel This amazing journey flushed out doctrinal confusion man s secular spin on religion while cleansing painful personal mistakes for a spiritual transformation It started in September 2004 when God divinely healed his son Luke During this miracle the author transformed through God s full interaction and with the power of constant prayer swirling around him he committed to a covenant with the Lord He decided to go to Israel in May 2006 for his fortieth birthday as a mid life spiritual pilgrimage that forced him to go back to his earliest beginnings to fully understand his childhood to stop blaming organized religion for his own mistakes to see God as He really was and to understand and commit to God s plan for his life This new covenant was about personal forgiveness a new kind of intimacy with the Lord bringing God into the workplace and business decisions and finally having the confidence to tell others all about Him
