Jewish Slavery in Antiquity Catherine Hezser, 2005-12-22 This book is the first comprehensive analysis of Jewish attitudes towards slavery in Hellenistic and Roman times Against the traditional opinion that after the Babylonian Exile Jews refrained from employing slaves Catherine Hezser shows that slavery remained a significant phenomenon of ancient Jewish everyday life and generated a discourse which resembled Graeco Roman and early Christian views while at the same time preserving specifically Jewish nuances Hezser examines the impact of domestic slavery on the ancient Jewish household and on family relationships She discusses the perceived advantages of slaves over other types of labor and evaluates their role within the ancient Jewish economy The ancient Jewish experience of slavery seems to have been so pervasive that slave images also entered theological discourse Like their Graeco Roman and Christian counterparts ancient Jewish intellectuals did not advocate the abolition of slavery but they used the biblical tradition and their own judgements to ameliorate the status quo

Children in the Ancient Near Eastern Household Kristine Garroway, 2014-10-21 Children were an important part of the ancient Near Eastern household This idea seems straightforward but it can be understood in many ways On a basic level children are necessary for the perpetuation of a household On a deeper level the definitions of child and member of the household are far from categorical This book begins to explore the multiple definitions of child and the way the child fits within a household It examines what membership in the household looks like for children and what factors contribute to it A study addressing what a child is and how a child's gender and social status affect her place in the household is vital to a proper understanding of the ancient Near Eastern household Despite their importance children have long been marginalized in discussions of ancient societies Only recently has this trend begun to change within biblical and ancient Near Eastern scholarship A recent wave of studies especially in relation to the Hebrew Bible has started to address children in their own right In light of the current state of scholarship on children the purpose of this book is threefold First Garroway continues to fill out the picture of the child in the ancient Near East by compiling child centric texts and

archaeological realia In analyzing these materials she surveys the relationship between children and ancient Near Eastern society by examining the extent to which structuring forces in a community such as social status and gender contribute to the process of a child's becoming a member of his household and society Finally this information provides a base for future research for example a cross cultural study of children in the ancient Near East in *Classical Antiquity* *Popular*

Photography, 1996-01 **Popular Photography**, 1995-10 *Popular Photography*, 1995-11 *Quantitative History and Uncharted People* Johan Fourie, 2023-08-10 One of the biggest challenges in the study of history is the unreliable nature of traditional archival sources which omit histories of marginalised groups This book makes the case that quantitative history offers a way to fill these gaps in the archive Showcasing 13 case studies from the South African past it applies quantitative sources tools and methods to social histories from below to uncover the experiences of unchartered peoples Examining the occupations of slaves victims of the Spanish flu health of schoolchildren and more it shows how quantitative tools can be particularly powerful in regions where historical records are preserved but questions of bias and prejudice pervade Applying methods such as GIS mapping network analysis and algorithmic matching techniques it explores histories of indigenous peoples women enslaved peoples and other groups marginalised in South African history Connecting quantitative sources and new forms of data interpretation with a narrative social history this book offers a fresh approach to quantitative methods and shows how they can be used to achieve a more complete picture of the past *Virginia Reports*, 1901 *The Syriac Legal Documents of the 3rd Century CE* John Francis Healey, 2025-09-25 This book provides a re edition and translation of the Syriac legal parchments of the mid 3rd century CE from Upper Mesopotamia along with extensive commentary These documents constitute our earliest significant evidence of the Syriac language and script since only short epigraphs on stone and in mosaics survive otherwise The texts are reproduced in Syriac script and in transliteration while plates of the documents and script charts are also included along with chapters devoted to script and language in the context of the development of the later Classical Syriac forms and to law in the context of the adaptation of Aramaic law to Romanization

The Domesticity of Their Darkness Iain Ferris, 2025-10-23 This book explores how Roman art depicted enslaved individuals emphasizing fragmented non linear snapshots rather than a full narrative It highlights the unsettling presence of the enslaved in domestic scenes revealing tensions between visibility and erasure and aims to bring the overlooked background into focus *Roman Social History* Tim Parkin, Arthur Pomeroy, 2007-10-17 This Sourcebook contains a comprehensive collection of sources on the topic of the social history of the Roman world during the late Republic and the first two centuries AD Designed to form the basis for courses in Roman social history this excellent resource covers original translations from sources such as inscriptions papyri and legal texts Topics include social inequality and class games gladiators and attitudes to violence the role of slaves in Roman society economy and taxation the Roman legal system the Roman family and gender roles Including extensive explanatory notes maps and bibliographies this Sourcebook is the ideal

resource for all students and teachers embarking on a course in Roman social history *Plautus and Roman Slavery*
Roberta Stewart, 2012-04-25 This book studies a crucial phase in the history of Roman slavery beginning with the transition to chattel slavery in the third century bce and ending with antiquity's first large scale slave rebellion in the 130s bce Slavery is a relationship of power and to study slavery and not simply masters or slaves we need to see the interactions of individuals who speak to each other a rare kind of evidence from the ancient world Plautus comedies could be our most reliable source for reconstructing the lives of slaves in ancient Rome By reading literature alongside the historical record we can conjure a thickly contextualized picture of slavery in the late third and early second centuries bce the earliest period for which we have such evidence The book discusses how slaves were captured and sold their treatment by the master and the community the growth of the conception of the slave as other than human and as chattel and the problem of freedom for both slaves and society
