fortune Men tough guys who had character traveled by foot riverboat and dog team through a land where few could survive much less thrive It wasn't just the adventure it was the grandeur of Alaska the deep woods the open tundra and the rugged mountains And it was also the life that meant so much The fellowship of friends sitting around a campfire talking of things simple but important things of the deep woods where the wolves howled and the northern lights danced across a clear black star studded sky This same life these people and the husky sled dogs were found along the Iditarod race trail during the 1980s Burt describes the life in a small wilderness cabin the comradery of friends around a campfire the dogs the characters and the great Alaska wilderness It brings back fond memories for us who lived it and tells in detail of these great times for others who want to know what it was really like

Marking the Land investigates how hunter gatherers use physical landscape markers and environmental management to impose meaning on the spaces they occupy The land is full of meaning for hunter gatherers Much of that meaning is inherent in natural phenomena but some of it comes from modifications to the landscape that hunter gatherers themselves make Such alterations may be intentional or unintentional temporary or permanent and they can carry multiple layers of meaning ranging from practical signs that provide guidance and information through to less direct indications of identity or abstract highly symbolic signs of sacred or ceremonial significance This volume investigates the conditions which determine the investment of time and effort in physical landscape marking by hunter gatherers and the factors which determine the extent to which these modifications are symbolically charged Considering hunter gatherer groups of varying sociocultural complexity and scale Marking the Land provides a systematic consideration of this neglected aspect of hunter gatherer adaptation and the varied environments within which they live
