Renner Ph. D., 2012-10 From her early childhood episodes to her most recent encounters she depicts how the Whispers have provided inspiration insight strength and courage as she attempts to shape her existence The text provides not only a step by step process but memoirs that allow the process and application to unfold as historic events The author's purpose is to leave a legacy of wonder about how these historic events establish maintain and sustain an on going dialectic which ultimately determines one's destiny This text is the completion of a trilogy The author revisits the substance of the dialectic in the prior texts so there is no need to have read those texts to follow the process events and outcomes depicted in the text The Whispers were introduced in the first text *Called by Many Names* The nature of the conversation involves mental discourse listening reflection and contemplation For many her relationship with the Whispers may appear to be unique but what makes this text unique is the way and means used by the author to present her experiences She glides effortlessly through the literary elements and genre styles as she captures one's interest     Slender is the Thread Harry M.
