This book will reveal the reasons why some of the most indulgent people are also the happiest and the healthiest and help readers learn how to indulge themselves thin. The book includes well researched and fun to read information on the following: Why science is the indulgent dieter's best friend. Why red pepper in spicy foods, the flavonoids in chocolate, the endothelin 1 in red wine and more all help you lose weight and keep it off. Why hot sex is good for your heart. How to eat fat and be skinny. Why massage might be better than running for decreasing the appearance of cellulite. When to say no to a salad and yes to another glass of red wine. **The Ultimate Fat**

Devotional Fitness Martin Radermacher, 2017-01-05

This book examines evangelical dieting and fitness programs and provides a systematic approach of this diverse field with its wide variety of programs. When evangelical Christians engage in fitness and dieting classes in order to glorify God, they often face skepticism. This book approaches devotional fitness culture in North America from a religious studies perspective, outlining the basic structures, ideas, and practices of the field. Starting with the historical backgrounds of this current, the book approaches both practice and ideology, highlighting how devotional fitness programs construe their identity in the face of various competing offers in religious and non-religious sectors of society. The book suggests a nuanced and complex understanding of the relationship between sports and religion beyond simple functional equivalency. It provides insights into the formation of secular and religious body ideals and the way these body ideals are sacralized in the frame of an evangelical worldview.
