Strong Men, Weak Men Leonard E. LeSourd, 1994-06 Beschrijving van de verschillende tijdperken in het leven van de man vanuit christelijk perspectief

Strong Men, Weak Men Leonard E. LeSourd, 1990 Playing for God Annie Blazer, 2015-07-24 When sports ministry first emerged in the 1950s and 1960s its founders imagined male celebrity athletes as powerful salespeople who could deliver a message of Christian strength If athletes can endorse shaving cream razor blades and cigarettes surely they can endorse the Lord too reasoned Fellowship of Christian Athletes founder Don McClanen But combining evangelicalism and sport did much more than serve as an advertisement for religion it gave athletes the opportunity to think about the embodied experiences of sport as a way to experience intimate connection with the divine As sports ministry developed it focused on individual religious experiences and downplayed celebrity sales power opening the door for female Christian athletes to join and eventually dominate sports ministry Today women are the majority of participants in sports ministry in the United States In *Playing for God* Annie Blazer offers an exploration of the history and religious lives of Christian athletes showing that evangelical engagement with popular culture can carry unintended consequences When sport became an avenue for embodied worship it forced a reckoning with evangelical teachings about the body Female Christian athletes increasingly turned to their own bodies to understand their religious identity and in so doing came to question evangelical mainstays on gender and sexuality What was once a male dominated masculinist project of sports engagement became a female dominated movement that challenged evangelical ideas on femininity marriage hierarchy and the sinfulness of homosexuality Though evangelicalism has not changed sporting culture for those involved in sports ministry sport has changed evangelicalism

Dying to be Men L. Stephanie Cobb, 2008 At once brave and athletic virtuous and modest female martyrs in the second and third centuries were depicted as self possessed gladiators who at the same time exhibited the quintessentially womanly qualities of modesty fertility and beauty L Stephanie Cobb explores the double embodiment of male and female gender ideals in these figures connecting them to Greco Roman virtues and the construction of Christian group identities Both male and female martyrs conducted their battles in the amphitheater a masculine environment that enabled the divine combatants to showcase their strength virility and volition These Christian martyr accounts also illustrated masculinity through the language of justice resistance to persuasion and more subtly but most effectively the juxtaposition of unmanly individuals usually slaves the old or the young with those at the height of male maturity and accomplishment such as the governor or the proconsul Imbuing female martyrs with the same strengths as their male counterparts served a vital function in Christian communities Faced with the possibility of persecution Christians sought to inspire both men and women to be braver than pagan and Jewish men Yet within the community itself traditional gender roles had to be maintained and despite the call to be manly Christian women were expected to remain womanly in relation to the men of their faith Complicating our understanding of the social freedoms enjoyed by early Christian women

Cobb's investigation reveals the dual function of gendered language in martyr texts and its importance in laying claim to social power

The Toxic War on Masculinity Nancy R. Pearcey, 2023-06-27 Why Can't We Hate Men asks a headline in the Washington Post. A trendy hashtag is KillAllMen. Books are sold titled I Hate Men, The End of Men, and Are Men Necessary? How did the idea arise that masculinity is dangerous and destructive? Bestselling author Nancy Pearcey leads you on a fascinating excursion through American history to discover why the script for masculinity turned toxic and how to fix it. Pearcey then turns to surprising findings from sociology. Religion is often cast as a cause of domestic abuse. But research shows that authentically committed Christian men test out as the most loving and engaged husbands and fathers. They have the lowest rates of divorce and domestic violence of any group in America. Yes, domestic abuse is an urgent issue, and Pearcey does not mince words in addressing it. But the sociological facts explode the negative stereotypes and show that Christianity has the power to overcome toxic behavior in men and reconcile the sexes, an unexpected finding that has stood up to rigorous empirical testing.

All three want his life, and a government investigation puts a bullseye on him. Who will win?

Religious Men and Masculine Identity in the Middle Ages P. H. Cullum, Katherine J. Lewis, 2013 Essays offering new approaches to the changing forms of medieval religious masculinity. The complex relationship between masculinity and religion as experienced in both the secular and ecclesiastical worlds forms the focus for this volume, whose range encompasses the rabbis of the Babylonian and Palestinian Talmud and moves via Carolingian and Norman France, Siena, Antioch, and high and late medieval England to the eve of the Reformation. Chapters investigate the creation and reconstitution of different expressions of masculine identity from the clerical enthusiasts for marriage to the lay practitioners of chastity, from crusading bishops to holy kings. They also consider the extent to which lay and clerical understandings of masculinity existed in an unstable dialectical relationship at times sharing similar features, at others pointedly different, co-opting and rejecting features of the other. The articles show this interplay to be more far more complicated than a simple linear narrative of either increasing divergence or of clerical colonization of lay masculinity. They also challenge conventional historiographies of the adoption of clerical celibacy, of the decline of monasticism, and the gendered nature of piety.
