Structure and Conflict in Nigeria Kenneth William John Post, Michael Vickers, 1973 *Structure and Conflict in Nigeria, 1960-1966* Ken Post, Michael Vickers, 1973 **A History of Nigeria** Toyin Falola, Matthew M. Heaton, 2008-04-24 Nigeria is Africa's most populous country and the world's eighth largest oil producer but its success has been undermined in recent decades by ethnic and religious conflict, political instability, rampant official corruption and an ailing economy. Toyin Falola, a leading historian intimately acquainted with the region, and Matthew Heaton, who has worked extensively on African science and culture, combine their expertise to explain the context to Nigeria's recent troubles through an exploration of its pre-colonial and colonial past and its journey from independence to statehood. By examining key themes such as colonialism, religion, slavery, nationalism and the economy, the authors show how Nigeria's history has been swayed by the vicissitudes of the world around it and how Nigerians have adapted to meet these challenges. This book offers a unique portrayal of a resilient people living in a country with immense but unrealized potential. **Structure and Conflict in Nigeria**

Public Choice Essays in Honor of a Maverick Scholar: Gordon Tullock Price V. Fishback, Gary D. Libecap, Edward Zajac, 2012-12-06 In May 1999 over 50 distinguished scholars from all over the world gathered to honor Gordon Tullock, one of the most prolific, original and versatile scholars of his generation. Tullock is best known for his pioneering work in Public Choice, the study of how self-interested individuals interact with governments. Tullock's research in public choice has contributed to the understanding of the decisions made by elected officials and bureaucrats as well as knowledge of how individuals and pressure groups both inside and outside the government seek to shape it. *Public Choice Essays in Honor of a Maverick Scholar* Gordon Tullock includes contributions that were strongly influenced by Tullock's work. His influence on studies of governance is well illustrated by the nine papers in this volume. critically examines the changing nature of African politics and the factors that underpin such changes We argue in the volume that many of the problems that plague contemporary politics ethnicity governance conflict bad economic policies the absence of dialogue and other social issues have their roots in the fifteen years after the Second World War just prior to independence 1945 1960 Because these issues had been grossly mismanaged by the colonial enterprise those fifteen years could arguably be characterized as the incubation period for the dysfunction that has stymied African politics since independence For it was during these transitional years that African leaders learned how not to speak to each other How to introduce meaningful dialogue to address issues between and among Africans is where the transition in African politics stands today The approach used here is interdisciplinary giving the book a wider appeal to those interested in history political science peace and conflict studies international relations and many disciplines Additionally the topics covered are so important and intellectual and have been penned by an A team of African scholars that other scholars students and professionals can use the volume as a reference text Therefore college students both undergraduate and graduate college instructors researchers policy makers and the development community working to stabilize Africa will find the book to be of immense importance Furthermore this volume will serve as a guide for advocates for the development community on how to address the numerous problems affecting the continent as well as the correct approach to boosting public awareness about contemporary African issues
