*Paul and Rhetoric* J. Paul Sampley, Peter Lampe, 2013-06-20 Paul and Rhetoric contains essays that have been presented in a seminar called Paul and Rhetoric in the annual meetings of the Studiorum Novi Testamenti Societas the leading international forum for New Testament and Christian Origin scholars Translated into English these essays by leaders in the field and in the topic engage and represent modern scholarship on Paul and rhetorical studies The foundational essays are listed under the heading State of the Discussion attempting to take the major rhetorical categories of the time contemporary with Paul types of rhetoric invention and arrangement and figures and tropes and first lays out where the discussion is now They then note the problems and highlights where continued discussion and deliberation would be helpful The Broad Questions section asks what can be learned about reading Paul's letters to congregations in light of ancient epistolography how theology and rhetoric are related because the two are often treated as if they are alien to one another and how ancient rhetoric and ancient psychology are associated with one another All in all a volume that illustrates examines and assesses where we are now in the study of rhetorical traditions in Pauline scholarship and in some instances suggests the direction of future studies

*Rhetoric, Language, and Reason* Michel Meyer, 2010-11-01 Contemporary or postmodern thought is based on the lack of foundation The impossibility of having a principle for philosophy has become a position of principle As a result rhetoric has taken over Content has given way to the priority of form Michel Meyer's book aims at showing that philosophy as foundational is possible and necessary and that rhetoric can flourish alongside but the conception of reason must be changed Questioning rather than answering must be considered as the guiding principle What the author calls problematology is not only the study of questioning but also the analysis of the reasons why it has been repressed throughout the history of philosophy Since Socrates philosophers and scientists have reasoned by asking questions and by trying to solve them Questioning has been the unthematized foundation of philosophy and thought at large Philosophers however have preferred another norm granting privilege to the answers and thereby repressing the questions into the realm of the preliminary and unessential They have not considered their discursive practice as being based upon some question answer or problem solution complex but exclusively on the results they call propositions Meyer argues that propositions

ensue from corresponding questions and not the other way around Anthropology ontology reasoning and language thus receive a new interpretation in the problematological conception of philosophy a conception in which questions and problems are thematized afresh The theory of language in everyday use in argumentation or in literary analysis receives a full and decisive treatment here making Meyer's question view one of the leading theories in contemporary thought alongside his rhetoric for which he is already well known

*New Testament Rhetoric, Second Edition* Ben Witherington, Jason A. Myers, 2022-09-28 Witherington and Myers provide a much needed introduction to the ancient art of persuasion and its use within the various New Testament documents More than just an exploration of the use of the ancient rhetorical tools and devices this guide introduces the reader to all that went into convincing an audience about some subject Witherington and Myers make the case that rhetorical criticism is a more fruitful approach to the NT epistles than the oft employed approaches of literary and discourse criticism Familiarity with the art of rhetoric also helps the reader explore non epistolary genres In addition to the general introduction to rhetorical criticism the book guides readers through the many and varied uses of rhetoric in most NT documents not only telling readers about rhetoric in the NT but showing them the way it was employed This brief guide book is intended to provide the reader with an entrance into understanding the rhetorical analysis of various parts of the NT the value such studies bring for understanding what is being proclaimed and defended in

the NT and how Christ is presented in ways that would be considered persuasive in antiquity from the introduction
