Structures and Transformations Christopher J. Pountain, 1983-01-01 Structural linguists have focused on the morphological patternings of the Romance verb system both from the point of view of systematizing variation and of mapping meaning on the form Transformationalists however have tended to focus on the English auxiliaries This book fills a gap in previous accounts by investigating the syntax of Romance verb form usage concerning both the verb itself and a simple sentence and such phenomena as sequence of tense in complex sentences Adopting both a synchronic and diachronic perspective and combining the approaches of structuralists and transformationalists the author argues that there are still valid ideas to be drawn from the pre Chomskyan concern with paradigmatic structure The Cambridge History of the Romance Languages: Volume 1, Structures Martin Maiden, John Charles Smith, Adam Ledgeway, 2011 This Cambridge history is the definitive guide to the comparative history of the Romance languages Volume I is organized around the two key recurrent themes of persistence structural inheritance and continuity from Latin and innovation structural change and loss in Romance **Diachronic and Typological Perspectives on Verbs** Folke Josephson, Ingmar Söhrman, 2013-07-10 This volume applies a diachronic perspective to the verb and mainly deals with typological change affecting tense aspect mood and modality in a variety of Indo European languages Latin Romance Celtic Germanic Slavic Indo Iranian Hittite and Semitic and the non Indo European Turkic Amerindian and some Australian languages The analyses of the structural changes and the interchange between the different grammatical categories that cause them which are presented in the chapters of this volume yield astonishing results The diachronic perspective combined with a comparative approach provides profound knowledge of the typology of the verb and other typological issues and will serve researchers as well as advanced and beginning of linguistics students in a way that has rarely been encountered before **Tener + Past Participle** Catherine E.
