STRUGGLETOWN JANET. MCCALMAN, 2022 **Struggletown** Janet McCalman, 2021-02-02 The old Struggletowners if they could see it now would not believe their eyes In Struggletown Janet McCalman takes us into the inner city industrial working class suburb of Richmond in Melbourne before the gentrification of the 1970s This is a narrative richly informed by the voices and memories of those who lived there during this time the Struggletowners themselves as well as by McCalman's familiarity with the objects buildings and topography of their physical environment and her impressive awareness of larger social forces structures and patterns As urban life continues to develop in new directions and complex human and political relations suggest new futures the difficulty and necessity of remembering now also lends this classic work a palpable new relevance

Political Corruption in Australia Peter John Perry, 2017-10-05 This title was first published in 2001 Despite considerable expansion the scholarly literature on political corruption has remained fragmentary often polarized consisting either of sweeping systematic statements or case specific examples Perry bridges this gap and proves the need for further such study in this most worthwhile examination of the place of political corruption in Australia The Australian experience is paid thorough yet concise attention and then it is related to the concept of political corruption in its various and changing forms and interpretations Assuming no familiarity with the central intellectual issues Perry lucidly explores them in terms of their method practice and definition with particular reference to Australia Primarily suitable for academics interested in politics geography development studies history and sociology this book's accessible style also makes it of interest to a general audience

Connected Worlds Ann Curthoys, Marilyn Lake, 2006-03-01 This volume brings together historians of imperialism and race travel and modernity Islam and India the Pacific and the Atlantic to show how a transnational approach to history offers fresh insights into the past Transnational history is a form of scholarship that has been revolutionising our understanding of history in the last decade With a focus on interconnectedness across national borders of ideas events technologies and individual lives it moves beyond the national frames of analysis that so often blinker and restrict our understanding of the past Many of the essays also show how expertise in Australian history can contribute to and benefit from new transnational approaches to history Through an examination of such diverse subjects as film modernity immigration politics and romance Connected Worlds weaves an historical matrix which transports the reader beyond the local into a realm which re defines the meaning of humanity in all its complexity Contributors include Tony Ballantyne Desley Deacon John Fitzgerald Patrick Wolfe and Angela Woollacott

The Riddle of Father Hackett Brenda Niall, 2009 In 1922 at the height of Ireland's tragic civil war Irish Jesuit William Hackett was transferred to Australia by his order Assigned to a minor teaching post this seemingly unremarkable newcomer caused no stir Yet Father Hackett had been close to the centre of the provisional Irish Republic's struggle for independence from Britain part of the network of Irish nationalists who carried intelligence ministered to republican troops spoke on republican platforms and helped to publicise British injustices and

atrocities in Ireland Now he was effectively an exile A major figure in the biography Archbishop Daniel Mannix is seen for the first time in close up through Hackett s privileged insight into the private self of the famously aloof and powerful prelate

Troubled Waters Patrick Troy,2008-06-01 Australian cities have traditionally relied for their water on a predict and provide philosophy that gives primacy to big engineering solutions In more recent years privatised water authorities seeking to maximise consumption and profits have reinforced the emphasis on increasing supply Now the cities must cope with the stresses these policies have imposed on the eco systems from which they harvest water into which they discharge wastes and on which they are located Residents are having to pay more for their water while the cities themselves are becoming less sustainable Must we build more dams and desalination plants or should we be managing the demand for urban water more prudently This book explores the demand for urban water and how it has changed in response to shifting social mores over the past century It explains how demand for centralised provision of water might be reshaped to enable the cities to better cope with expected changes in supply as our climate changes And it discusses the implications of property rights in water for proposals to privatise water services

Labor's Conflict Tom Bramble,Rick Kuhn,2010-11-22 Once widely regarded as the workers greatest hope for a better world the ALP today would rather project itself as a responsible manager of Australian capitalism Labor s Conflict provides an insightful account of the transformations in the Party s policies performance and structures since its formation Seasoned political analysts Tom Bramble and Rick Kuhn offer an incisive appraisal of the Party s successes and failures betrayals and electoral triumphs in terms of its competing ties with bosses and workers The early chapters outline diverse approaches to understanding the nature of the Party and then assess the ALP s evolution in response to major social upheavals and events from the strikes of the 1890s through two World Wars the Great Depression and the post war boom The records of the Whitlam Hawke Keating Rudd and Gillard governments are then dissected in detail The compelling conclusion offers alternatives to the Australian Labor Party for those interested in progressive change

Transnationalism, Nationalism and Australian History Anna Clark,Anne Rees,Alecia Simmonds,2017-07-04 Using Australian history as a case study this collection explores the ways national identities still resonate in historical scholarship and reexamines key moments in Australian history through a transnational lens raising important questions about the unique context of Australia s national narrative The book examines the tension between national and transnational perspectives attempting to internationalize the often parochial nation based narratives that characterize national history Moving from the local and personal to the global encompassing comparative and international research and drawing on the experiences of researchers working across nations and communities this collection brings together diverging national and transnational approaches and asks several critical research questions What is transnational history How do new transnational readings of the past challenge conventional national narratives and approaches What are implications of transnational and international approaches on Australian history What possibilities do they bring to the discipline What are their limitations And finally how

do we understand the nation in this transnational moment *A Decent Provision* John Murphy, 2016-03-16 *A Decent Provision* is a narrative history of how and why Australia built a distinctive welfare regime in the period from the 1870s to 1949. At the beginning of this period the Australian colonies were belligerently insisting they must not have a Poor Law yet had reproduced many of the systems of charitable provision in Britain. By the start of the twentieth century a combination of extended suffrage, basic wage regulation and the aged pension had led to a reputation as a social laboratory. And yet half a century later Australia was a welfare laggard and the Labor Party's welfare state of the mid 1940s was a relatively modest and parsimonious construction. Models of welfare based on social insurance had been vigorously rejected and the Australian system continued on a path of highly residual targeted welfare payments. The book explains this curious and halting trajectory showing how choices made in earlier decades constrained what could be done and what could be imagined. Based on extensive new research from a variety of primary sources it makes a significant contribution to general historical debates as well as to the field of comparative social policy.

The Women of Little Lon Barbara Minchinton, 2021-08-16 A vivid account of a remarkable but little known chapter in Melbourne's history. Sex workers in nineteenth century Melbourne were judged morally corrupt by the respectable world around them. But theirs was a thriving trade with links to the police and political leaders of the day and the leading brothels were usually managed by women. While today a city lane is famously named after Madame Brussels the identities of the other flash madams, the dressed girls who worked for them and the hundreds of women who solicited on the streets of the Little Lon district of Melbourne are not remembered. Who were they? What did their daily lives look like? What became of them? Drawing on the findings of recent archaeological excavations, rare archival material and family records, historian Barbara Minchinton brings the fascinating world of Little Lon to life. Barbara Minchinton is a historian and independent researcher. For several years she collaborated with a team of archaeologists on the interpretation of artefacts from Melbourne's Little Lon district. She is the co-editor of *The Commonwealth Block Melbourne*, a historical archaeology of the city's working class and immigrant communities and the author of *The Women of Little Lon*.
