Fascinating In essence the number and quality of our friendships may have a bigger influence on our happiness health and mortality risk than anything else in life save for giving up smoking Guardian Book of the Day Friends matter to us and they matter more than we think The single most surprising fact to emerge out of the medical literature over the last decade or so has been that the number and quality of the friendships we have has a bigger influence on our happiness health and even mortality risk than anything else except giving up smoking Robin Dunbar is the world renowned psychologist and author who famously discovered Dunbar's number how our capacity for friendship is limited to around 150 people In *Friends* he looks at friendship in the round at the way different types of friendship and family relationships intersect or at the complex of psychological and behavioural mechanisms that underpin friendships and make them possible and just how complicated the business of making and keeping friends actually is Mixing insights from scientific research with first person experiences and culture *Friends* explores and integrates knowledge from disciplines ranging from psychology and anthropology to neuroscience and genetics in a single magical weave that allows us to peer into the incredible complexity of the social world in which we are all so deeply embedded Working at the coalface of the subject at both research and personal levels Robin Dunbar has written the definitive book on how and why we are friends *Prolepsis in Ancient Greek Narrative*, 2024-12-23

This edited volume offers the first comprehensive study of prolepsis in narratives written in ancient Greek ranging from Homer to the late antique author Colluthus with the inclusion of Second Temple Jewish Literature Structuralist narratology defines prolepsis as the narration in advance of an event that takes place later in the story The papers collected in this volume start from this approach but move beyond it by exploring a wide range of new definitions forms and readerly effects of prolepsis Several contributions draw on postclassical narratological approaches and focus on cognitive aspects of reading narrative virtuality and readerly uncertainty that stems from prolepses *Benedict Cumberbatch - The Biography* Justin Lewis, 2015-04-02 Benedict Cumberbatch has played detective and monster barrister and scientist politician and painter comic and spy Still only in his thirties he has become one of Britain's foremost acting talents excelling in theatre television radio and cinema With a string of starring and supporting roles he has portrayed contemporary icons historical figures and fictional favourites from Stephen Hawking to William Pitt the Younger to Frankenstein He has become a radio comedy staple too as the bungling airline pilot Captain Martin Crieff in Radio 4's *Cabin Pressure* But inevitably he is still best known for his idiosyncratic and boldly 21st century incarnation of Sherlock Holmes in the BBC TV series *Sherlock* In this book Justin Lewis

traces Benedict Cumberbatch's career to date from his early promise in Harrow School plays through his first supporting roles in film theatre and TV to national and international acclaim He examines his considerable contributions not only to Sherlock but also to Sir Tom Stoppard's adaptation of Parade's End on television and to feature films such as Tinker Tailor Soldier Spy Star Trek Into Darkness and War Horse

This Long Pursuit Richard Holmes, 2017-03-07 From the award winning author of The Age of Wonder and Falling Upwards here is a luminous meditation on the art of biography that fuses the author's own experiences with a history of the genre and explores the fascinating and surprising relationship between fact and fiction In a book that ranges widely over art science and poetry Richard Holmes confesses to a lifetime's obsession with his Romantic subjects It has become for him a pursuit or pilgrimage of the heart that has taken him across three centuries through much of Europe and into the lively company of many earlier biographers Central to this quest is a powerful and tender evocation of the lives of women both scientific and literary some well known and some almost lost to history Margaret Cavendish Mary Somerville Germaine de Staël Mary Wollstonecraft and the Dutch intellectual Zilide Holmes also investigates the myths that have overshadowed the lives of some favorite Romantic figures the love stunned John Keats the waterlogged Percy Bysshe Shelley the chocolate box painter Thomas Lawrence the opium soaked genius Samuel Taylor Coleridge and the mad visionary bard William Blake The diversity of Holmes's material is a testimony to his empathy erudition and inquiring spirit and sometimes to his mischievous streak The Long Pursuit gives us a unique insider's account of a biographer at work traveling teaching researching fantasizing forgetting and even ballooning From this great chronicler of the Romantics now comes a chronicle of himself and his intellectual passions it contains his most personal and most seductive writing
