Stubborn Hope Religion Politics And Revolution In Central America

Jeffrey Klaiber

Stubborn Hope Religion Politics And Revolution In Central America:

Stubborn Hope Phillip Berryman, 1994 Chronicling more than a decade of war revolution and social change this book offers an analysis of the interplay between religion and politics in Central America Berryman shows how Central America has become the setting for a drama of faith and oppression revolution and retrenchment [Stubborn Hope](#) Phillip Berryman,

The Catholic Church and Power Politics in Latin America Emelio Betances, 2007 Click here to see a video interview with Emelio Betances Click here to access the tables referenced in the book Since the 1960s the Catholic Church has acted as a mediator during social and political change in many Latin American countries especially the Dominican Republic Bolivia Guatemala Nicaragua and El Salvador Although the Catholic clergy was called in during political crises in all five countries the situation in the Dominican Republic was especially notable because the Church's role as mediator was eventually institutionalized Because the Dominican state was persistently weak the Church was able to secure the support of the Balaguer regime 1966 1978 and ensure social and political cohesion and stability Emelio Betances analyzes the particular circumstances that allowed the Church in the Dominican Republic to accommodate the political and social establishment the Church offered non partisan political mediation rebuilt its ties with the lower echelons of society and responded to the challenges of the evangelical movement The author's historical examination of church state relations in the Dominican Republic leads to important regional comparisons that broaden our understanding of the Catholic Church in the whole of Latin America [The Histories of the Latin American Church](#) Joel Morales Cruz, 2014 Part one provides an overview of

Christianity the Bible and theology in Latin America Part two provides information for each country including demographics timeline church and state autonomous churches major religious festivals popular devotions saints and blessed and biographies *Ancient Religions, Modern Politics* Michael A. Cook, 2016-12-06 Why Islam is more political and fundamentalist than other religions Why does Islam play a larger role in contemporary politics than other religions Is there something about the Islamic heritage that makes Muslims more likely than adherents of other faiths to invoke it in their political life If so what is it *Ancient Religions, Modern Politics* seeks to answer these questions by examining the roles of Islam Hinduism and Christianity in modern political life placing special emphasis on the relevance or irrelevance of their heritages to today's social and political concerns Michael Cook takes an in depth comparative look at political identity social values attitudes to warfare views about the role of religion in various cultural domains and conceptions of the polity In all these fields he finds that the Islamic heritage offers richer resources for those engaged in current politics than either the Hindu or the Christian heritages He uses this finding to explain the fact that despite the existence of Hindu and Christian counterparts to some aspects of Islamism the phenomenon as a whole is unique in the world today The book also shows that fundamentalism in the sense of a determination to return to the original sources of the religion is politically more adaptive for Muslims than it is for Hindus or Christians A sweeping comparative analysis by one of the world's leading scholars of

premodern Islam Ancient Religions Modern Politics sheds important light on the relationship between the foundational texts of these three great religious traditions and the politics of their followers today **The Politics of the Spirit** Timothy J. Steigenga, 2002-05-24 The Politics of the Spirit is a masterful study of the political effects of evangelical Protestantism in Central America Timothy Steigenga's thoughtfully crafted work questions whether the spread of Protestantism in Latin America has reinforced authoritarian elements in political culture or deepened nascent democracy Steigenga provides a thorough review of the literature on religion and politics in Latin America putting many of the hypotheses generated in this literature to the test through an analysis of comparative survey data and qualitative interviews Steigenga investigates the impact religious affiliation has on political activity and belief and the influence of cross denominational religious beliefs and practices on Latin American life His comparative work explores how different political systems the established democracy of Costa Rica and the transitional system of Guatemala impact the politics of religion This enlightening interdisciplinary book will appeal to scholars seeking to understand the relationships between religious and political change in Latin America

The Church, Dictatorships, and Democracy in Latin America Jeffrey Klaiber, 2009-09-01 No book in any language equals The Church Dictatorships and Democracy in Latin America for its comparative breadth Historians social scientists and general readers will cull from it the conditions needed for the church to play a positive and creative role in furthering human rights and democracy John A Coleman SJ Loyola Marymount University Jeffrey Klaiber's book offers a wonderfully informative history of the Church's role in Latin American struggles to defend human rights and achieve democracy Anyone who has followed with concern and interest these recent struggles from military dictatorships in Brazil and Chile through the violent conflicts in Central America to the most recent struggles in Chiapas Mexico will find this remarkably comprehensive study of eleven different nations an invaluable text Arthur F McGovern SJ University of Detroit This volume provides readers with the first comprehensive view of the church during a defining period of Latin American history This is an invaluable study by a longtime and astute observer Edward L Cleary OP Providence College A compelling account of the role of the church during the dictatorships and internal wars in eleven countries of Latin America by an eminent historian Gerald H Anderson Director of Overseas Ministries Study Center *Social Movements and Leftist Governments in Latin America* Gary Prevost, Carlos Oliva Campos, Professor Harry E Vanden, 2013-04-04 In recent years the simultaneous development of prominent social movements and the election of left and centre left governments has radically altered the political landscape in Latin America These social movements have ranged from the community based piqueteros of Argentina that brought down three governments in the space of a month in 2001 to the indigenous movements in Ecuador and Bolivia that were instrumental in toppling five governments in the last decade And in the cases of Venezuela and Brazil social movements helped to provide the political base from which leftist leaders like Hugo Chavez and Lula were swept into power by election This wide ranging volume moves beyond simple discussion of these social movements to address an issue that is crucial for

politics in the region today but has yet to be properly analysed specifically what is the position of the social movements after progressive governments take power Are they co opted in support of government policies or do they remain at arm s length as continuing opponents How many of the movement s demands are actually met and what happens when the government almost inevitably disappoints its supporters in such movements This unique and important work explores these questions shedding new light on how these social movements continue to operate in Latin America Revolution, Revival, and Religious Conflict in Sandinista Nicaragua Calvin L. Smith, 2007-03-31 This interdisciplinary study breaks new ground by exploring relations between Protestants mainly Pentecostals and the Sandinistas in revolutionary Nicaragua which to date have received scant attention It challenges the view that most Protestants supported the Sandinistas in fact the majority vigorously opposed them and establishes why many believed Nicaragua was heading towards communism or totalitarianism Meanwhile the Sandinistas expressed irritation with Pentecostalism s otherworldliness and support for Israel Pentecostals were harassed even brutally repressed in the northern highlands leading many to join the Contras That a minority of Protestants supported the Sandinistas caused further problems Pentecostals and Sandinistas were ideological rivals offering an alternative vision to the poor revolution or revival As Pentecostalism exploded a collision between the two was inevitable

Protestant Pentecostalism in Latin America Karl-Wilhelm Westmeier, 1999 This book is a theological missiological study on the intercultural communication of Faith drawing heavily from anthropological sociological and historical sources The book is helpful to church workers in Latin America to colleagues who teach both on college and seminary levels to scholars who research the phenomenon of Latin American Protestantism to students to Latin American studies and in religion and culture in general
