Stuck In The Middle:

Stuck in the Middle Janel Dunkel, 2022-11-03 And in fairness she said she wanted to run away from home She had packed up this little miniature brick red suitcase with what she thought were her prized possessions and she stood in front of the glass storm door for the longest time I watched impatiently from around the corner What is she waiting for I wondered Did she think some magical bus was going to pull up and take her off to some land where she was an only child A place where such things as hand me downs and bunk beds didn't exist It's been so long now I can't remember if there was any prediscussion or if I just walked up and pushed her suitcase and all out the door Problem is the door didn't open It shattered and she fell out You know how you sometimes see a look on someone's face that just makes you cringe With Fear It was that look I half expected her head to start spinning around and for that briefest of moments I was frozen in fear I suppose that fact that she said she was going to run away and my delight in the prospect of having a room all to my own clouded my judgment and well the rest as they say is history Sibling rivalry is a struggle many of us have encountered Trying to find your place in a family is hard I was the maladjusted middle child in a family of seven children Struggling to be noticed or once in a while to just win at something This is my story about growing up in a close family where laughter is all we needed to survive Of course their versions could be different but they didn't write a book now did they **FINALLY WINNING**

Stuck in the Middle Linda Heard, 2005-03-28 Fridays were washday in my house It normally took eight five gallon buckets of water just to fill the washing machine with enough water for one load of clothes With eleven children to wash for this process took several hours We owned an old wringer washing machine that would squeeze water out of the clothes when placed between the two rolling pins which were located at the top of the washing machine The washing machine was very dangerous to operate and therefore no one was allowed near it except for my mother One day while Mom was in the process of doing her weekly washing my younger brothers Roosevelt and Jeffery were fighting in the backyard Mom heard the noise and went to break up the fight While she was gone I decided to help her out with the clothes I had been warned by Mom to never go near the washing machine But being the hardheaded child that I was do you think I listened I think not I took out a blouse that was washing in the water and placed it in between the two rolling pins Lo and behold my arm got caught in the wringers You would think that I would have had enough common sense to let go of the blouse but no not me All I could think of was that my arm was gonna fall off I was too scared to yell for help because I knew I

would be in big trouble once Mom caught me meddling with the washing machine Luckily Mom came back into the house just in time to unplug the electric plug from the outlet before my arm was completely under the wringer Of course after I was freed I started to cry I had to think of something quick in order to save my behind so I told Mom I was trying to help her out with the laundry so that she didn't have to work so hard It worked She felt sorry for me and I was spared a whipping that day When it was time to take our baths we had to fill the aluminum five foot tub my dad had purchased from the hardware store with ten five gallon buckets of water We then had to get the help of another person to lift the tub onto the top of the wood stove so that that water could be heated We normally took our baths right there in the kitchen There was no door separating the kitchen from the living room so when we bathed we had to hang a bed sheet in front of the opening All eleven of the children had to share the same bath water The oldest child was usually the first one allowed to bathe and then the rest followed by age
