Intercultural Language Teaching and Learning Anthony J. Liddicoat, Angela Scarino, 2013-02-05 This wide ranging survey of issues in intercultural language teaching and learning covers everything from core concepts to program evaluation and advocates a fluid responsive approach to teaching language that reflects its central role in fostering intercultural understanding Includes coverage of theoretical issues defining language culture and communication as well as practice driven issues such as classroom interactions technologies programs and language assessment Examines systematically the components of language teaching language itself meaning culture learning communicating and assessments and puts them in social and cultural context Features numerous examples throughout drawn from various languages international contexts and frameworks Incorporates a decade of in depth research and detailed documentation from the authors collaborative work with practicing teachers Provides a much needed addition to the sparse literature on intercultural aspects of language education

Welding Technical Communication Jo Mackiewicz, 2022-06-01 Welding Technical Communication explores the teaching and learning of welding through two narratives The personal narrative relates the author's experience as a woman learning how to weld The academic narrative draws upon scaffolded learning theory to examine how four welding teachers verbal and nonverbal communication their tutoring strategies and their gestures facilitated students embodied knowledge and enculturation into a community of practice This book fills a gap in technical communication research we do not fully understand how teachers pedagogical technical communication scaffolds students learning within the skilled trades Novel in its approach and coverage Welding Technical Communication will interest researchers in technical communication and technical education

Teaching through Peer Interaction Rebecca Adams, Rhonda Oliver, 2019-02-05 Teaching through Peer Interaction prepares teachers to use peer communication in the classroom It presents current research of peer interaction and language learning for teachers including background on the role of peer interaction in classroom language learning guidelines for adopting and adapting

peer interaction opportunities in real classrooms and perspectives on teachers frequently expressed concerns and questions about peer interaction Practical and comprehensive this text brings together information on peer communication across the different skill areas for different learners in different contexts and includes discussion on assessment The text is replete with sample activities tasks and instructional sequences to aid teachers understanding of how to use peer interaction effectively in a range of classroom settings making it the ideal textbook for upper level undergraduate and graduate students in language education programs as well as in service teachers

Improvising the Curriculum Michael Corbett, Ann Vibert, Mary Green, 2016-03-10 Equipped with cultural tools like cell phones computers and video cameras youth are called upon to improvise and construct themselves symbolically in a continuously connected world yet new teachers and students are still expected to learn and deliver standardized placeless forms of scripted curriculum This volume argues for improvisation as an approach to curriculum that recognizes the fundamentally creative aspects of learning that are often marginalized in communities of disadvantage It provides interesting possibilities for schools that are working hard to keep up with technological economic and cultural change and argues for an improvised middle ground between structure and creativity This volume outlines a two year research project performed in a Canadian middle school where school staff used student filmmaking as a way to expand teachers conceptions of literacy It analyzes the response of students and parents as well as the student teachers that brought the program to the school The improvisational techniques used while making the films paved the way for larger benefits of curricular improvisation to be explored

Active Listening Michael Rost, J. J. Wilson, 2013-11-04 Listening is now regarded by researchers and practitioners as a highly active skill involving prediction inference reflection constructive recall and often direct interaction with speakers In this new theoretical and practical guide Michael Rost and JJ Wilson demonstrate how active listening can be developed through guided instruction With so many new technologies and platforms for communication there are more opportunities than ever before for learners to access listening input but this abundance leads to new challenges how to choose the right input how to best use listening and viewing input inside and outside the classroom how to create an appropriate syllabus using available resources Active Listening explores these questions in clear accessible prose basing its findings on a theoretical framework that condenses the most important listening research of the last two decades Showing how to put theory into practice the book includes fifty innovative activities and links each one to relevant research principles Sample audio recordings are also provided for selected activities available online at the series website www.pearsoned.co.uk/rosthwilson As a bridge between theory and practice Active Listening will encourage second language teachers applied linguists language curriculum coordinators researchers and materials designers to become more active practitioners themselves by more fully utilising research in the field of second language listening
