Spiritual Awakening and Enlightenment Guy Berchik, 2023-11-14 Enlightenment or Spiritual awakening is a psychological phenomenon where something of the mind develops awakens and unifies and something else of the mind drops off or surrenders Some desire spiritual awakening very directly and indeed very intensely but it is very difficult to achieve because spiritual enlightenment is something that happens rather than something that we do And on the other hand spiritual awakening does not really happen by itself There is always some preparation for some time in whatever form Some develop intensity through the development of deep understanding that later leads to more intense curiosity that ultimately leads to seeing through the

obstacles of the mind and then a profound surrender occurs as a permanent state of being Others develop intensity through desire and developing powerful emotions that may lead to the higher awakened state where the heart blissfully awakens and unites with consciousness And still others develop intensity through the proper use of suffering where suddenly they find themselves transformed into awakened conscious beings This short book describes what happens in the actual experience of spiritual awakening and how to prepare and thus speed up the process The book also discusses the profound benefits of enlightenment powers associated with mind development healing oneself accomplishing in life and how to prepare for life after death

*Consciousness from Zombies to Angels* Christian de Quincey, 2008-12-15 A user friendly step by step guide to understanding the mind. Presents a practical journey into understanding consciousness, philosophy's hardest problem, science's final frontier and spirituality's deepest mystery. Offers 7 steps to transform your life using the shadow and the light of consciousness. *Consciousness from Zombies to Angels* presents a practical step by step owner's guide for the mind that sorts out philosophy's hardest problem, science's final frontier and spirituality's deepest mystery: what consciousness is, how it works and why it's important. Christian de Quincey presents seven simple steps for understanding consciousness and how it can lead to spiritual awareness: observe your language, identify the problem, learn how to look, recognize your patterns, know yourself, embrace your shadow and practice transformation. All of us exhibit both shadow and light aspects of ourselves; we fear and deny our inner 'Zombies' as well as qualities we admire and want to radiate: our inner 'Angels'. The key to a creative and fulfilled life is to integrate both. De Quincey reveals that the way to transformation is to accept ourselves exactly as we are, a work in progress. Readers will learn the difference between energy talk and consciousness talk, how the body affects the mind and vice versa, and where to go for help to develop consciousness, heal emotions or grow spiritually. De Quincey shows how to recognize and break habits and patterns that run your life, how to find out who you really are and why facing up to your darkest fears will liberate your brightest light as you learn to embrace all of your humanity and experience the power of transformation.

But the world interprets the human scene as a human one so that what is appearing to the world as a human as you or as me is now receiving from within the depth of its own being the revelation of its true nature. And truth that is true is universal.
