The Heartbeat of a Trust R. M. Lala, 1984

The House of Tata Meets the Second Industrial Revolution

Chikayoshi Nomura, 2018-04-12 This monograph aims to analyze the economic and business history of colonial India from a corporate perspective by clarifying the historical role of institutional developments based on archival evidence of a representative enterprise The perspective is distinctively unique in that it highlights the salience of corporate level institutional responses to explain the causes of colonial India's industrial growth in addition to two renowned perspectives focusing on government economic policy or factor endowment One of the driving forces of India's high growth rate since the 1980s is the expansion of modern business corporations whose origins date back to the colonial era in the mid nineteenth century This monograph explores the historical foundation of the growth of such corporations in colonial India guided by a substantial collection of documents of Tata Iron and Steel Company whose rich records have not received the due attention they have long deserved As clarified by numerous economic and business historians of leading industrialized countries since the works of Douglass North and Alfred Chandler this study as well proposes that the development of modern business corporations in colonial India was broadly supported by the reciprocal evolution of economic institutions and corporate organizations Adding a new perspective to the business and economic history of colonial India the analysis also provides an important case study of the development of corporate business in the non Western world to the study of global business history

The Rise and Fall of Philanthropy in East Africa Robert G.

Gregory, 2017-07-05 Robert G Gregory challenges the apparent assumption that non Western peoples lack a significant indigenous philanthropic culture Focusing on the large South Asian community in East Africa he relates how over a century they built a philanthropic culture of great magnitude and how it finally collapsed under the ascendancy of increasing state regulation and policies directed against non African communities Compelled by poverty to seek better opportunities overseas most Asians arrived in East Africa as peasant farmers Denied access to productive land and sensing economic opportunity they turned to business Despite severe forms of racial discrimination in the colonial society they suffered few restrictions on their business enterprises and some became very wealthy Gregory's historical analysis shows philanthropy as an important contribution one that stemmed from deep roots in Hindu Muslim and Buddhist culture The sense of nonracial social responsibility cultivated social medical and educational facilities designed for all This age of philanthropy terminated with the Asian exodus The socialist and racial policies adopted by East African governments over the past few decades have virtually destroyed the foundation necessary for philanthropy as well as the distinct Asian cultural identity Gregory's account of the East Asian's role in philanthropy deserves great attention and sober reflection

Later he was India's second finance minister but resigned due to his differences with Pandit Nehru over the Planning Commission. Matthai served in important positions in the Tatas and was a friend and confidant of J R D Tata. He was chairman of the Taxation Enquiry Commission 1953 which provided a framework for the future tax policies of the government. Matthai was the first chairman of the State Bank of India, of the court of governors of the Administrative Staff College of India, Hyderabad and of the National Book Trust. He was also the founder president of the National Council of Applied Economic Research, New Delhi. Drawing from numerous primary and secondary sources, this comprehensive biography introduces Matthai to a new generation even as it rekindles the memory of a man who has become the victim of collective amnesia. These chapters are designed for cross-religious comparison with the history, practices, values, and worldviews of each belief system explained. The final chapter helps students relate what they have learnt to religious theory, preparing the way for future study. This thoroughly revised second edition combines solid scholarship with clear and lively writing to provide students with an accessible and comprehensive introduction to religion in India.
