*The Warrior's Camera* Stephen Prince, 1999-11-14 The Japanese film director Akira Kurosawa who died at the age of 88 has been internationally acclaimed as a giant of world cinema *Rashomon* which won both the Venice Film Festival's grand prize and an Academy Award for best foreign language film helped ignite Western interest in the Japanese cinema *Seven Samurai* and *Yojimbo* remain enormously popular both in Japan and abroad In this newly revised and expanded edition of his study of Kurosawa's films Stephen Prince provides two new chapters that examine Kurosawa's remaining films placing him in the context of cinema history Prince also discusses how Kurosawa furnished a template for some well known Hollywood directors including Martin Scorsese Steven Spielberg and George Lucas Providing a new and comprehensive look at this master filmmaker *The Warrior's Camera* probes the complex visual structure of Kurosawa's work The book shows how Kurosawa attempted to symbolize on film a course of national development for post war Japan and it traces the ways that he tied his social visions to a dynamic system of visual and narrative forms The author analyzes Kurosawa's entire career and places the films in context by drawing on the director's autobiography a fascinating work that presents Kurosawa as a Kurosawa character and the story of his life as the kind of spiritual odyssey witnessed so often in his films After examining the development of Kurosawa's visual style in his early work *The Warrior's Camera* explains how he used this style in subsequent films to forge a politically committed model of filmmaking It then demonstrates how the collapse of Kurosawa's efforts to participate as a filmmaker in the tasks of social reconstruction led to the very different cinematic style evident in his most recent films works of pessimism that view the world as resistant to change **Kurosawa Mitsuhiro**

to be read end to end      **The Empire Triumphant** Kevin J. Wetmore, Jr., 2017-08-10 George Lucas's first Star Wars trilogy shows the influences of its era Cold War tension is evident in its theme of rebellion against totalitarianism Recent entries in the Star Wars saga *The Phantom Menace* 1999 and *Attack of the Clones* 2002 are much more concerned with evil corporations terrorists and the corruption of the political process Each film is influenced by the times in which it was released but also by cultural subtexts and by other films that had direct and indirect effects on Lucas as writer producer and director This work focuses on all six Star Wars films The first topic of this multifaceted examination is how the films use the language of colonialism *The Rebellion The Empire* to emphasize the idea of imperialism Next the author looks at how Asian influences including religious undertones from Taoism and Buddhism and the works of Kurosawa and other Asian filmmakers provide a subtext for much of the action Next the discussion turns to the representation of people of color in the Star Wars universe and how other ethnicities are represented overall particularly through the literalization of the word aliens These topics of discussion provide for penetrating conclusions about Lucas's films and how they represent race religion and rebellion      The Philosophy of Art Theodore Gracyk, 2014-01-07

Samurai Road Lawrence Winkler, 2016-08-03 Most remote islands of the imagination conjure up paradise Japan is an archipelago of puzzlement From the sands that forged their swords and serenity they traveled a Samurai Road of temples and shrines feudal fortresses and flowing mountain streams of wasabi On sashimi and soy sauce and green tea over rice they lived a thousand years of pathos under cherry blossoms and ephemeral moonlight in Zen gardens and futon dreams It was all so perfect      **DĀGAHVOR. Film Michael Wood,2012-01-26 Film is considered by some to be the most dominant art form of the twentieth century It is many things but it has become above all a means of telling stories through images and sounds The stories are often offered to us as quite false frankly and beautifully fantastic and they are sometimes insistently said to be true But they are stories in both cases and there are very few films even in avant garde art that don t imply or quietly slip into narrative This story element is important and is closely connected with the simplest fact about moving pictures they do move Even the older meanings of the word film a membrane a covering a veil an emanation now seem to have something to do with moving pictures Many people believe films are an instrument of illusion an emphatic way of seeing what is not there and this capacity has been both celebrated and condemned Like a movie mostly means like some sort of fairy tale But what about the reverse proposition that more than any other invention film brings us close to the world as it actually is Photography is truth a character says in a film by Jean Luc Godard And cinema is the truth twenty four times per second The same claim is made every day albeit less epigrammatically by newsreels and surveillance cameras In this Very Short Introduction Michael Wood provides a brief history and examination of the nature of the medium of film considering its role and impact on society as well as its future in the digital age

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable
