Be You Senka Holzer,2021-10-05 For decades psychologists and researchers have studied core values what Dr Senka Holzer s calls psychological DNA These core values are the things that light people up gives them pure joy they are what matters most When one s life is aligned with their core values they are at their best Yet despite what popular psychology says understanding one s core values isn t enough to guarantee fulfillment Senka s research reveals something new that people operate with not one but two different sets of values In addition to core values everyone absorbs values from outside sources family friends the media their generation and their culture Senka calls these acquired values and most people aren t even aware of them Here s why acquired values are important it s our awareness of our acquired values that determines our ultimate fulfillment Without this knowledge people may spend precious time and energy attempting to align themselves with values that are not even their own In *Be You* Senka draws on her award winning research as a real life scientist with a day job in molecular medicine and heart physiology at a major international research hospital Throughout *Be You* readers can be confident that science evidence facts research and logic are the foundation of her work But it is also inspired by Senka s life long fascination with human psychology and mind body connection She has years of certified personal and professional coaching experience and she is committed to turning hard science into a deeply intuitive and empathetic model for self transformation and fulfillment Senka writes from the heart in every sense of the word
