necessary as the death toll rose The game was regularised and exported all over the world An in depth look at all aspects of the Simplest Game International Sport Richard William Cox,2004 There has been an explosion in the quantity of sports history literature published in recent years making it increasingly difficult to keep abreast of developments The annual number of publications has increased from around 250 to 1 000 a year over the last decade This is due in part to the fact that during the late 1980s and 90s many clubs leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements It is also the result of the growing popularity and realisation of the importance of sport history research within academe This international bibliography of books articles conference proceedings and essays in the English language is a one stop for the sports historian to know what is new
