Divine Presence amid Violence Walter Brueggemann,2009-02-11 To pursue the matter of revelation in context I will address an exceedingly difficult text in the Old Testament Joshua 11 The reason for taking up this text is to deal with the often asked and troublesome question What shall we do with all the violence and bloody war that is done in the Old Testament in the name of Yahweh The question reflects a sense that these texts of violence are at least an embarrassment are morally repulsive and are theologically problematic in the Bible not because they are violent but because this is violence either in the name of or at the hand of Yahweh from chapter 2

The Changing World Religion Map

Stanley D. Brunn, 2015-02-03 This extensive work explores the changing world of religions, faiths, and practices. It discusses a broad range of issues and phenomena that are related to religion, including nature, ethics, secularization, gender, and identity. Broadening the context, it studies the interrelation between religion and other fields, including education, business, economics, and law. The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions. Beginning with an introduction of the concept of the changing world religion map, the book first focuses on nature, ethics, and the environment. It examines humankind's eternal search for the sacred and discusses the emergence of green religion as a theme that cuts across many faiths. Next, the book turns to the theme of the pilgrimage, illustrated by many examples from all parts of the world. In its discussion of the interrelation between religion and education, it looks at the role of missionary movements. It explains the relationship between religion, business, economics, and law by means of a discussion of legal and moral frameworks and the financial and business issues of religious organizations. The next part of the book explores the many new faces that are part of the religious landscape and culture of the Global North: Europe, Russia, Australia, and New Zealand; the U.S. and Canada; and the Global South: Latin America, Africa, and Asia. It does so by looking at specific population movements, diasporas, and the impact of globalization. The volume next turns to secularization as both a phenomenon occurring in the Global religious North and as an emerging and distinguishing feature in the metropolitan, cosmopolitan, and gateway cities and regions in the Global South. The final part of the book explores the changing world of religion in regards to gender and identity issues, the political religious nexus, and the new worlds associated with the virtual technologies and visual media.

God in the Fray Walter Brueggemann, Tod Linfelt, Timothy Kandler Beal, This volume engages the work of Walter Brueggemann, most of which has been published by Fortress Press. The volume centers on the character of God in the text of the Old Testament as a site of theological tension and even ambivalence. Biblical faith never experiences God as entirely above the fray but rather as entangled in history, astonishingly transformative and impinged upon by the voices of the suffering. Brueggemann's monumental *Theology of the Old Testament* addresses this fact with great theological insight and rigor, and the internationally renowned biblical scholars writing here engage and extend his insights into the unsettled Character at the center of the text.
