Six Great Themes Of Western Metaphysics And The End Of The Middle Ages:

The Six Great Themes of Western Metaphysics and the End of the Middle Ages Heinz Heimsoeth, 1994 Heimsoeth enters boldly into the historical drama of Western philosophical thought at its deepest level and tells a story focused not so much on actors as on the plot itself the great metaphysical questions about philosophy and life *A History of the Middle Ages, 300-1500* John M. Riddle, 2016-02-25 This clear and comprehensive text covers the Middle Ages from the classical era to the late medieval period Distinguished historian John Riddle provides a cogent analysis of the rulers wars and events both natural and human that defined the medieval era Taking a broad geographical perspective Riddle includes northern and eastern Europe Byzantine civilization and the Islamic states Each he convincingly shows offered values and institutions religious devotion toleration and intolerance laws ways of thinking and changing roles of women that presaged modernity In addition to traditional topics of pen sword and word the author explores other driving forces such as science religion and technology in ways that previous textbooks have not He also examines such often overlooked issues as medieval gender roles and medicine and seminal events such as the crusades from the vantage point of both Muslims and eastern and western Christians In addition to a thorough chronological narrative the text offers humanizing features to engage students Each chapter opens with a theme setting vignette about the lives of ordinary and extraordinary people The book also introduces students to key controversies and themes in historiography by featuring in each chapter a prominent medieval historian and how his or her ideas have shaped contemporary thinking about the Middle Ages Richly illustrated with color plates this lively engaging book will immerse readers in the medieval world an era that shaped the foundation for the modern world

Historicism and Its Problems Ernst Troeltsch, 2024-10-01 This is a translation of Ernst Troeltsch's last 1923 major work It is an exhaustive study of the methods of historiography and of German French English and Italian philosophies of history during the nineteenth century It is motivated by the purpose of developing the proper concept of historical development for overcoming bad historicism i.e. unlimited relativism with good historicism with relativity not relativism and determining how values drawn from history can be used to shape the future It concludes with a sketch of the unwritten second volume on the material philosophy of history Seeing and Being Seen in the Later Medieval World Dallas G. Denery II, 2005-04-28 During the later Middle Ages people became increasingly obsessed with vision visual analogies and the possibility of visual error In this book Dallas Denery addresses the question of what medieval men and women thought it meant to see themselves and others in relation to the world and to God Exploring the writings of Roger Bacon Duns Scotus Peter Aureol and Nicholas of Autrecourt in light of an assortment of popular religious guides for preachers confessors and penitents including Peter of Limoges Treatise on the Moral Eye he illustrates how the question preoccupied medieval men and women on both an intellectual and practical level This book offers a unique interdisciplinary examination of the interplay between religious life perspectivist optics and theology Denery presents significant new insights into the medieval psyche

and conception of the self ensuring that this book will appeal to historians of medieval science and those of medieval religious life and theology

Paradox at Play Clint Johnson, 2022-08-26 Fresh translations of Meister Eckhart's sermons are made available in this volume three for the first time in English and sixteen others for the first time since C de B Evans translated them in 1924 and 1931 long before the critical editions of the manuscripts were published in 2003 Other important sermons are included in the translations as well They improve upon previous translations which were not as sensitive to Eckhart's metaphorical repertoire and his subtle word choice and phrasing The extended introductory essay describes Eckhart's metaphors and how they work together to form a cohesive whole By looking at what his metaphors tell us about what an individual person is and how the view of the individual changed in the late medieval world his ostensibly shocking rhetoric in places where it is actually novel is shown to be indicative of a larger cultural tide that culminated in the modern worldview Finally all of his homiletic choices are shown to be in service of the greater goal catalyzing transformative change in his audience by stubbornly insisting on his paradoxes and jarring people out of their customary way of relating to God and themselves

Teacher Beliefs and Classroom Performance James Rath, Amy C. McAninch, 2003-12-01 This volume of *Advances in Teacher Education* is about beliefs held by teachers and addresses the important topic of teacher beliefs from a variety of disciplinary perspectives Most of the authors who have contributed to this collection of essays assume that beliefs are propositions that are felt to be true by the person embracing them but that do not necessarily rest on the kind of evidence that justifies the use of the term knowledge Teacher beliefs are an important topic because it is hypothesized that teachers and teacher candidates use them to shape the information they receive from formal teacher preparation and to direct subsequent decision making in the classroom

Julian of Norwich Sandra J. McEntire, 2013-09-13 These essays written specifically for this book provide a rich evaluation of this late 14th and early 15th century mystical writer's book of revelations and considers the construction of her narrative its theological complexity and its literary and intellectual context This casebook features discussions by both established scholars and newer voices ranging from genre to eschatology and gynecology to diabolology reflecting both current and comparative theory Providing translations of all Middle English quotations the volume includes a selective bibliography that provides a guide for further reading

Nicholas of Cusa and His Age: Intellect and Spirituality Thomas M. Izbicki, Christopher M. Bellitto, 2021-10-25 This volume commemorates the 6th centennial of the birth of Nicholas of Cusa 1401-1464 a Renaissance polymath whose interests included law politics metaphysics epistemology theology mysticism and relations between Christians and non-Christian peoples The contributors to this volume reflect Cusanus' multiple interests and by doing so they commemorate three deceased luminaries of the American Cusanus Society: F.
