performance Throughout the twentieth century Japanese noh was a major creative catalyst for American and European writers dancers and composers The noh theater's stylized choreography poetic chant spectacular costumes and masks and engagement with history inspired Western artists as they reimagined new approaches to tradition and form In *Learning to Kneel* Preston locates noh's important influence on such canonical figures as Pound Yeats Brecht Britten and Beckett These writers learned about noh from an international cast of collaborators and Preston traces the ways in which Japanese and Western artists influenced one another Preston's critical work was profoundly shaped by her own training in noh performance technique under a professional actor in Tokyo who taught her to kneel bow chant and submit to the teachings of a conservative tradition This encounter challenged Preston's assumptions about effective teaching particularly her inclinations to emphasize Western ideas of innovation and subversion and to overlook the complex ranges of agency experienced by teachers and students It also inspired new perspectives regarding the generative relationship between Western writers and Japanese performers Pound Yeats Brecht and others are often criticized for their orientalist tendencies and misappropriation of noh but Preston's analysis and her journey reflect a more nuanced understanding of cultural exchange

Pentatonicism from the Eighteenth Century to Debussy Jeremy Day-O'Connell, 2007 A generously illustrated examination of pentatonic black key scale techniques in the context of eighteenth and nineteenth century Western art music *Pentatonicism from the Eighteenth Century to Debussy* offers the first comprehensive account of a widely recognized aspect of music history the increasing use of pentatonic black key scale techniques in nineteenth century Western art music *Pentatonicism in nineteenth century music* encompasses hundreds of instances many of which predate by decades the more famous examples of Debussy and Dvorak

This book weaves together historical commentary with music theory and analysis in order to explain the sources and significance of an important but hitherto only casually understood phenomenon. The book introduces several distinct categories of pentatonic practice: pastoral, primitive, exotic, religious, and coloristic, and examines pentatonicism in relationship to changes in the melodic and harmonic sensibility of the time. The text concludes with an additional appendix of over 400 examples, an unprecedented resource demonstrating the individual artistry with which virtually every major nineteenth-century composer from Schubert, Chopin, and Berlioz to Liszt, Wagner, and Mahler handled these seemingly simple materials of pentatonicism. Jeremy Day O'Connell is assistant professor of music at Knox College.

The Artistry of Aeschylus and Zeami
Mae J. Smethurst, 2014-07-14

By means of a cross-cultural analysis of selected examples of early Japanese and early Greek drama, Mae Smethurst enhances our appreciation of each form. While using the methods of a classicist to increase our understanding of *no* as literary texts, she also demonstrates that the fifteenth-century treatises of Zeami, an important playwright, actor, critic, and teacher of *no*, offer fresh insight into Aeschylus' use of actors' language and various elements of stage presentation. Relatively little documentation apart from the texts of the plays is available for the Greek theater of the fifth century B.C., but Smethurst uses documentation on *no* and evidence from *no* performances today to suggest how presentations of the Persians could have been so successful despite the play's lack of dramatic confrontation. Aeschylean theater resembles that of Zeami in creating its powerful emotional and aesthetic effect through a coherent organization of structural elements. Both playwrights used such methods as the gradual intensification of rhythmic and musical effects, an increase in the number and complexity of the actors' movements, and a progressive focusing of attention on the main actors and on costumes, masks, and props during the course of the play.
