Slovník české frazeologie a idiomatiky František Čermák, Jiří Hronek, 1994    *Lexical and Semantic Aspects of Proverbs* František Čermák, 2019-09-01 The field of paremiology is traditionally an interdisciplinary one starting with folklore paremiology language literature history and other fields their mutual influence being a peculiar and highly valued feature for all This book is linguistic in nature offering a number of aspects of contemporary languages and their proverbs studied though mostly on lexical semantic and pragmatic aspects based on language corpora findings subsequently leading to proverb minima Apart from selected proverb data excerpted from tens of languages there is an effort to arrive at a system of proverbs having a wider orientation based on the goal set to map proverbs in a language in a systematic and reliable way showing proverbs and their use in large multimillion language corpora Next to its academic goals covering proverb theory of use and system the book may be used by lexicographers monolingual and comparative and language teachers in their textbook compilation    *Dictionary of the Prague School of Linguistics* Josef Vachek, 2003-06-23 This is the first English version of a text out of print for more than 40 years summarising the positions and key concepts of an influential stream of linguistic thought Using quotations as entries J Vachek 1909 1997 a leading advocate of the Prague School employed more than 160 sources papers and monographs by well over 30 representatives of the school Mathesius

Trnka Skali ka Dane Dokulil Muka ovsk Jakobson Trubetzkoy Isachenko and others The dictionary both captures the pioneering efforts and achievements of the school from its foundation in 1926 and provides a framework for assessing the current state of affairs attesting to its originality and serving as a preventive to treading paths already explored The headword concepts are provided with French German and Czech equivalents and Vachek s original preface is supplemented by a foreword which traces the development of the school up to the present date and puts it into perspective

*Metaphors of ANGER across Languages: Universality and Variation*

Zoltan Kövecses,Réka Benczes,Veronika Szeliid,2024-11-04 Anger is one of the basic emotions of human emotional experience informing and guiding many of our choices and actions Although it has received considerable scholarly attention in a number of disciplines including linguistics a basic question has still remained unresolved why do variations in the folk model of anger exist across languages if it is indeed a basic emotion rooted in largely universal bodily experience By drawing on a wide selection of comparable linguistic data from dozens of languages including a number of less researched languages this volume provides the most comprehensive account of what is universal and what is variable in the folk model of anger and why It also investigates the role that metonymies might play in the emergence of anger related metaphors and in what ways context influences or shapes anger metaphors and thereby the resulting folk model of anger No such volume exists in the cognitive linguistic literature on anger or on emotions for that matter The book is thus an essential contribution to the study of anger and will serve as basic reading for any researcher interested in how the conceptualization of anger is constructed via the interplay of bodily experience language and the larger cultural context
