MATHEMATICAL REALITY Linfan MAO, A thing is complex and hybrid with other things sometimes Then what is the reality of a thing The reality of a thing is its state of existed exists or will exist in the world independent on the understanding of human beings which implies that the reality holds on by human beings maybe local or gradual not the reality of a thing Hence to hold on the reality of things is the main objective of science in the history of human development   Unfolding the Labyrinth: Open Problems in Physics, Mathematics, Astrophysics, and other areas of science Florentin Smarandache,V. Christianto,2006-01-01 Throughout this book we discuss some open problems in various branches of science including mathematics theoretical physics astrophysics geophysics etc It is of our hope that some of the problems discussed in this book will find their place either in theoretical exploration or further experiments while some parts of these problems may be found useful for scholarly stimulation The present book is also intended for young physics and mathematics fellows who will perhaps find the unsolved problems described here are at least worth pondering If this book provides only a few highlights of plausible solutions it is merely to keep the fun of readers in discovering the answers by themselves Bon voyage
