Smeller Martin:

Smeller Martin, 1950 Smeller Martin's keen sense of smell lands him in a series of adventures *Taste and Smell*
Thomas Hummel, Antje Welge-Lüssen, 2006-01-01 Chemosensory dysfunction is a quite frequently occurring problem which significantly affects the patient's quality of life. It can result from infectious agents, environmental factors, toxins, traumatic brain injuries, as well as neurodegenerative diseases. This publication provides up-to-date articles on the chemical senses, including the olfactory, trigeminal, and gustatory systems. The vomeronasal system and its potential significance in humans is also discussed. Based on recent functional imaging data, the book provides an overview on how the lower senses function, how they work together for example to produce flavor, how they can be damaged and repaired, and how the function of human chemical senses can be assessed. The publication focuses on chemosensory dysfunction and pays particular attention to taste and its disorders. Renowned experts in their fields of research have contributed their findings to this topical update on chemosensory disorders and made this volume indispensable reading for otorhinolaryngologists and neurologists. *Benny the Blue Whale*
Andy Stanton, 2024-10-17 AI is changing the world at frightening speed. A bestselling author decides to find out more. Something profound and utterly brilliant is going on. Hilarious. THE TIMES Is ChatGPT the end of creative industries as we know them? An ethical quagmire from which there is no return. A threat to all our jobs as we keep hearing on the news. Bestselling children's author Andy Stanton has made a career out of writing differently from the unconventional hero of his bestselling Mr Gum series to his penchant for absurdist plots; his children's books are anything but formulaic. When a friend introduces him to ChatGPT, the new large language chatbot, Andy is as sceptical as he is curious. Can this jumble of algorithms really mimic the spontaneity of human thought? Could it one day replace human authors like him for good? And are we soon to be ruled over by despotic robot overlords? He decides there's only one thing for it: he must test this bot's capabilities. Eventually, he settles on a prompt that will push the algorithm to its creative limits: tell me a story about a blue whale with a tiny penis. Chaos ensues. What follows is a surprising and illuminating battle between Andy and ChatGPT that maybe just maybe might help us all understand AI a little bit better. Join Andy and his beleaguered AI lackey on a rollicking metafictional journey through the art of storytelling. Presenting his prompts and the AI-generated narrative alongside extensive commentary, Stanton provides a startling paean to the art of a good story and boundless human creativity. Hopeful and hilarious, *Benny the Blue Whale* provides a joyfully anarchic meditation on AI, literature, and why we write. A WATERSTONES AND NEW SCIENTIST BEST BOOK OF 2023. There's no book like it. Scholarly, childish, fascinating, and hilarious, one of our funniest writers dissects what it takes to build a story and what that tells us about being human. It'll really make you think if you can stop laughing. Chris Addison, co-creator of *BREEDERS*. Entertaining and alarmingly relevant, provocative and philosophically satisfying, it's ultimately a profoundly human text. *OBSERVER* A magnificent experiment by a perfect fool, deep and shallow, and stupid and clever, the perfect use of AI. Andy Intelligence. Robin Ince, author of *THE IMPORTANCE OF BEING*

Dynasty of Death Taylor Caldwell, 2016-11-15 Two families grow a small munitions factory into a global empire in this saga by a New York Times bestselling author spanning from 1837 to the eve of World War I In 1837 Joseph Barbour an upper servant in an English village immigrates with his family to America so he can make his fortune in the nascent artillery business A man of vision Joseph foresees a time when wars will not be won with courage and brave hearts but rather by the nations with superior firearms Joseph and his family settle in a rural Pennsylvania village but his wife Hilda is unhappy and longs to return to England Their shy and sensitive younger son Martin is also homesick but what troubles him most is the cruelty and violence he sees in his older brother Ernest Martin's fears come to fruition when Joseph forms a gunpowder firm with Armand Bouchard who lives with his wife and three sons down the road from the Barbours As the years pass Ernest proves himself invaluable to Barbour Bouchard Ruthless and ambitious he takes what he wants But beautiful Amy Drumhill continues to elude him and becomes the catalyst in a war that will estrange the two brothers and leave Ernest haunted by the blood that will be forever on his hands **Dynasty of Death** is a moving saga of two families the epic struggle between two brothers and the legacy their guns will leave the world as mighty enemy nations gear up for battle **The Sweet Smell of Psychosis** Will Self, 2012-10-16 A brief and brilliant satire of magazine hacks and fashionistas **The Sweet Smell of Psychosis** shows Will Self a writer hailed by Time as brilliant iconoclastic one of Britain's most original young writers at the top of his form It looks like it's going to be quite a Christmas for Richard Hermes powdered with cocaine and whining with the white noise of urban derangement Not so much enfolded as trapped in the bosom of the most venal media clique in London Richard is losing it on all fronts he's losing his heart to Ursula Bentley a nubile and vacuous magazine columnist he's in danger of losing his job at the pretentious listings magazine *Rendezvous* he's losing his mind courtesy of Colombia's chief illegal export and worst of all he's losing his soul to the king of all media and sinister purveyor of opportunities sexual chemical and professional known only as Bell Murky paranoid and hilarious **The Sweet Smell of Psychosis** is Will Self at his best *The Smell of Rain on Dust* Martín Prechtel, 2015-04-14 Beautifully written and wise Martín Prechtel offers stories that are precious and life sustaining Read carefully and listen deeply Mary Oliver National Book Award and Pulitzer Prize winner Inspiring hope solace and courage in living through our losses author Martín Prechtel trained in the Tzutujil Maya shamanic tradition shares profound insights on the relationship between grief and praise in our culture how the inability that many of us have to grieve and weep properly for the dead is deeply linked with the inability to give praise for living In modern society grief is something that we usually experience in private alone and without the support of a community Yet as Prechtel says Grief expressed out loud for someone we have lost or a country or home we have lost is in itself the greatest praise we could

ever give them Grief is praise because it is the natural way love honors what it misses Prechtel explains that the unexpressed grief prevalent in our society today is the reason for many of the social cultural and individual maladies that we are currently experiencing According to Prechtel When you have two centuries of people who have not properly grieved the things that they have lost the grief shows up as ghosts that inhabit their grandchildren These ghosts he says can also manifest as disease in the form of tumors which the Maya refer to as solidified tears or in the form of behavioral issues and depression He goes on to show how this collective unexpressed energy is the long held grief of our ancestors manifesting itself and the work that can be done to liberate this energy so we can heal from the trauma of loss war and suffering At base this little book as the author calls it can be seen as a companion of encouragement a little extra light for those deep and noble parts in all of us

Smell the Gunpowder William R. Graser,2022-10-25 Smell the Gunpowder The Land of the Morning Calm is inspired by true events and veterans firsthand accounts of Americans who served in Korea Because of these veterans the Republic of Korea remains a free sovereign nation and one of the strongest and wealthiest countries in Asia Today North Korea continues to have a nuclear arsenal and is one of the most militarized countries in the world creating a critical security challenge Concerns about North Korea and its intentions remain at the highest level since the end of the 1950s and 1960s Korean Conflicts South Korea has urged the United States and North Korea to formally reach a peace agreement ending the decades long conflict The outcome of a peace agreement is uncertain and Smell the Gunpowder makes no pretense of providing the complete account of the undeclared unconventional struggles that have gripped Korea since 1945 although it may serve to refocus attention on a most intriguing chapter in the annals of American and Korean history Sweet Smell of Success
