Application of ethical reasoning to social problems – Gender bias and issues – Gender violence – Social discrimination – Constitutional protection and policies – Inclusive practices.

4.1 Application of ethical reasoning to social problems

Applying ethical reasoning to social problems involves using principles and frameworks of ethics to analyze, understand, and propose solutions to societal issues. This process typically includes the following steps:

1. Identifying the Problem

Understanding the nature, scope, and context of the social problem is the first step. This involves gathering facts, identifying the stakeholders, and understanding the historical and cultural background.

2. Considering Ethical Theories

Different ethical theories provide various perspectives on how to address social problems:

- **Utilitarianism:** Focuses on the greatest good for the greatest number. This theory evaluates actions based on their consequences.
- **Deontology:** Emphasizes duties and rules. According to this view, certain actions are inherently right or wrong, regardless of their outcomes.

Thomson,2017-05-15 This book presents the theological work of Stanley Hauerwas as a distinctive kind of liberation theology John Thomson offers an original construal of this diffuse controversial yet highly significant modern theologian and ethicist Organising Hauerwas corpus in terms of the focal concept of liberation Thomson shows that it possesses a greater degree of coherence than its usual expression in ad hoc essays or sermons John Thomson locates Hauerwas in relation to a wide range of figures including the obvious choices Rauschenbusch Niebuhr Barth Yoder Lindbeck MacIntyre Milbank and O Donovan as well as less expected figures such as Gadamer Habermas Ricoeur Pannenberg Moltmann and Hardy Providing a structured and rigorous outline of Hauerwas

intellectual roots this book presents an account of his theological project that demonstrates an underlying consistency in his attempt to create a political understanding of Christian freedom reaching beyond the limitations of the liberal post enlightenment tradition Hauerwas is passionate about the importance of moral discourse within the Christian community and its implications for the Church's politics When the Church is often perceived to be in decline and an irrelevance Hauerwas proffers a way of recovering identity confidence and mission particularly for ordinary Christians and ordinary churches Thomson evaluates the comparative strengths and weaknesses of Hauerwas argument and indicates a number of vulnerabilities in his project

Lonergan, Social Transformation, and Sustainable Human Development Joseph Ogbonnaya, 2013-01-29 Secular contemporary development discourse deals with the problems of societal development and transformation by prioritizing the human good in terms of vital and social values with the aim of providing the basic necessities of life through social institutions that work While such an approach is profitable by promoting economic growth it does not take note of other dynamics of social progress and development Also it fails to notice the consequences of development strategies on human flourishing well being and happiness Ogbonnayu argues for an integral approach to development by engaging in a fruitful dialogue between Bernard Lonergan's philosophical anthropology with contemporary development discourse as represented in select theories of development and in select principles of Catholic social teaching It makes a case for social progress and transformation as emanating from human understanding Also it highlights the parts of Lonergan's theory that contribute to an understanding specifically of his treatment of bias and of the shorter and longer cycles of societal decline In view of the reality of moral impotence and limitations it considers the reversal of societal decline as possible through the supernatural solution of God's grace

Kolb, 2008. This encyclopedia spans the relationships among business ethics and society with an emphasis on business ethics and the role of business in society. **Social ethics : issues in ethics and society** Gibson Winter, 1968. *Moral Integrity & Igbo Cultural Value* Joseph Ogbonnaya, 2011-11-16. Most people of Igbo extraction are worried at the alarming rate of social ills bedeviling the Igbo nation. These social evils which debauch authentic Igbo socio-cultural communal ethos include violent crimes like kidnapping of fellow Igbo brothers and sisters for ransom, hired assassinations, armed robbery, political thuggery, etc. These socio-cultural eddies not only pose security risks to people but also paralyze socio-political, religious, and economic activities in Igbo land. These crimes are dialectically opposed to the authentic cultural values of Ndigbo who traditionally are known for their rich cultural values and high morality with regard to the sanctity of life and the primacy of the common good arising from Igbo republican spirit. One is left wondering why and what has changed to bring about these various cycles of moral decay which have battered our social system and our noble cultural values. This book, written from the backdrop of the increasing crime rate in Igboland, examines the agents of social transformation that has impacted Ndigbo, beginning from inter-tribal trading colonialism including the Nigeria Biafra Civil War up to the forces of globalization. It argues that the agents of social changes have not destroyed Ndigbo's cultural values but have affected Ndigbo's attitude toward life. It proposes Ndigbo's moral integrity based on the concept of *ezindu* (good life) as the foundation of Ndigbo's common meaning or cultural value. This book therefore creates an awareness of the impact of modernity on Igboland and proposes a response based on Ndigbo's cultural value, one that promotes moral integrity as a

panacea to forces of secularization It identifies the social evils which afflict Igboland and traces the problem to the breakdown of authentic cultural values of the people It will establish a theoretical framework for analysis by locating the causes of this breakdown with a cultural dis valuation arising from distortion in the dialectic of Igbo communities as a result of lack of integration with the forces of secularization These unleashed greed and various forms of self interest to the detriment of the common good The way forward I will argue lies in attending to the integrity of cultural values that inform the everyday life of the people This will be the task of those creative minority who by paying attention to the superstructural cultural values responsible for arts science philosophy and the human sciences will re create cultural values responsive to the malaise of modernity in the various forms it is influencing the Igbo nation This in itself will demand moral integrity rooted in authentic cultural value and greater responsibility on the part of the superstructure of culture Christianity as the dominant religion in Igboland must be prepared to impact the life and value of Ndigbo positively and integrate Ndigbo s cultural values in her ministry of evangelization
