## **Social Interest And Categorical Structure:**

Social Interest and Categorical Structure Jeffers Ward Chertok,1990 This volume explores diverse sociological conceptions of history and social change The diversity of views is explained in terms of the relationship between social interest and the categorical structure of social thought and is illustrated by examples from the works of Robert A Nisbet and Harry Braverman Socially structured variations of the general relationship are identified and explored **Right, Power, and Faquanism** Zhiwei Tong,2018-08-13 In Right Power and Faquanism Tong Zhiwei proposes that right and power are ultimately a unified entity which can be named faquan and that the purpose of law should be to establish a balanced faquan structure and to promote its preservation and proliferation Faquan is thus a jurisprudential category reflecting the understanding of the unity of right and power It has interest protected by the law and property with defined ownership as its content and manifests itself as the external forms of jural right freedom liberty jural power public function authority competence privilege and immunity etc Faquanism relies mainly on six basic concepts faquan right power quan residual quan and duty to analyze the content of interests and property in all legal phenomena Theory of Social Choice on Networks Wynn C. Stirling,2016-09-22 This highly original book challenges social choice theory by arguing for the importance of dynamic preferences and context in understanding important social phenomena *Gender and Power* Raewyn Connell,2014-05-15 This book is an important introductory textbook on sexual politics and an original contribution to the reformulation of social and political theory In a discussion of among other issues psychoanalysis Marxism and feminist theories the structure of gender relations and working class feminism Connell has produced a major work of synthesis and scholarship which will be of unique value to students and professionals in sociology politics women s studies and to anyone interested in the field of sexual politics Visit [www.raewynconnell.net](http://www.raewynconnell.net) **Film Cultures** Janet Harbord,2002-09-20 Film Cultures is thought provoking and challenging By opening film theory up to the many simultaneous networks of relation that is the cultures of film it asks both viewer and student to take film more seriously Communication Research Trends Film Cultures weaves together insights from cultural theory and film studies to provide a complex and absorbing theoretical account of contemporary film culture Harbord writes with authority imagination and wit and her delicate deployment of modernist and postmodernist cultural accounts makes rewarding reading Christine Geraghty Professor of Film and Television University of Glasgow Film Cultures argues that our tastes for film connect us to social spatial and temporal networks of exchange and meaning Whether we view film in the multiplex arthouse or the gallery as cinema premiere video hire or from a cable channel whether we approach film as a singular object or a hypertext linked to ancillary products our relationship to film is inhabiting a culture Shifting the focus of film analysis from the text to paths of circulation Film Cultures questions how film connects us to social status and national and global affiliations **A Theory of Legal Sentences** Manuel Atienza,J. Ruiz Manero,2012-12-06 Legal statements are according to the authors the most basic elements of the law Nevertheless they

must be considered not only as the pieces of a puzzle but also as the components of a dynamic and highly complex reality the law of contemporary society The book presents an analysis of the different types of legal statements mandatory rules principles power conferring rules definitions permissions values and the rule of recognition from a threefold perspective that is considering their logical structure their function in legal reasoning as reasons for action and their connections with the interests and power relationships among the individuals and the social groups The result is conceived as a first step in the building of a general theory of law designed not as an isolated discourse but as a decisive element for the dynamization of the legal culture

**Science and the Sociology of Knowledge (RLE Social Theory)** Michael Mulkay, 2014-08-07 How far is scientific knowledge a product of social life In addressing this question the major contributors to the sociology of knowledge have agreed that the conclusions of science are dependent on social action only in a very special and limited sense In Science and the Sociology of Knowledge Michael Mulkay's first aim is to identify the philosophical assumptions which have led to this view of science as special and to present a systematic critique of the standard philosophical account of science showing that there are no valid epistemological grounds for excluding scientific knowledge from the scope of sociological analysis The rest of the book is devoted to developing a preliminary interpretation of the social creation of scientific knowledge The processes of knowledge creation are delineated through a close examination of recent case studies of scientific developments Dr Mulkay argues that knowledge is produced by means of negotiation the outcome of which depends on the participants use of social as well as technical resources The analysis also shows how cultural resources are taken over from the broader social milieu and incorporated into the body of certified knowledge and how in the political context of society at large scientists technical as well as social claims are conditioned and affected by their social position

**The Cumulative Book Index**, 1990 A world list of books in the English language **The Archaeology of Contextual Meanings** Ian Hodder, 1987-08-06 This companion volume to Archaeology as Long term History focuses on the symbolism of artefacts It seeks at once to refine the theory and method relating to interpretation and show with examples how to conduct this sort of archaeological work Some contributors work with the material culture of modern times or the historic period areas in which the symbolism of mute artefacts has traditionally been thought most accessible However the book also contains a good number of applications in prehistory to demonstrate the feasibility of symbolic interpretation where good contextual data survive from the distant past In relation to wider debates within the social sciences the volume is characterised by a concern to place abstract symbolic codes within their historical context and within the contexts of social actions In this respect it develops further some of the ideas presented in Dr Hodder's Symbolic and Structural Archaeology an earlier volume in this series

**The New Institutionalism in Organizational Analysis** Walter W. Powell, Paul J. DiMaggio, 2012-09-21 Long a fruitful area of scrutiny for students of organizations the study of institutions is undergoing a renaissance in contemporary social science This volume offers for the first time both often cited foundation works and the

to this country in fragments Bourdieu Critical Perspectives provides a unified and balanced appraisal of Bourdieu's varied works by both proponents and skeptics The essays are written from the varied viewpoints of cultural anthropology ethnomethodology and other varieties of sociology existential and Wittgensteinian philosophies linguistics media studies and feminism They work around three main themes Bourdieu's effort to transcend gaps between practical knowledge and universal structures his central concept of reflexivity and the relations between social structure systems of classification and language Ultimately the contributors raise a variety of crucial theoretical questions and address problems that are important not only to understanding Bourdieu but to advancing empirical work of the kind he has pioneered In an essay written especially for this volume Bourdieu describes his own mode of intellectual production and the reasons he sees for its common misunderstanding The contributors are Hubert Dreyfus Paul Rabinow Charles Taylor Aaron Cicourel James Collins William Hanks Beate Kraus Nicholas Garnham Scott Lash Roger Brubaker and Loic Wacquant and the editors Terry Eagleton James Smith, 2013-04-25 Terry Eagleton is one of the most influential contemporary literary theorists and critics His diverse body of work has been crucial to developments in cultural theory and literary critical practice in modern times and for a generation of humanities students his writing has been a source of both provocation and enjoyment This book undertakes a lucid and detailed analysis of Eagleton's oeuvre It gives close attention to the full range of Eagleton's major publications examining their arguments and implications as well as how they have intervened in wider debates in cultural theory It also investigates his less familiar works such as his early writing on the Catholic left as well as other as yet unpublished material showing how these works can be understood alongside the more prominent areas of his thought Through this this book offers a cohesive overview of Eagleton's career to date tracing the development of his theoretical positions and an assessment of Eagleton's wider contributions to fields such as Marxist literary criticism and cultural theory It will be essential reading for students of literary criticism cultural theory and intellectual history **Spirituality and Dialectics** Anthony Mansueto, Maggie Mansueto, 2005-06-28 Spirituality and Dialectics is a passionate and rigorous argument against nihilism and a manifesto for the party of meaning and hope It demonstrates how we can ground principles of meaning and value against the aesthetic and intellectual hegemony of the enlightenment culminating most currently through postmodernity as a basis for the critique of all present injustice What emerges is a vision of a new social order that permits the full development of human social capacities **Handbook on Human Service Administration** Jack Rabin, 1988-05-27 Introducing theories and concepts essential for human services administration this book covers organization theory and management budgeting and financial management personnel administration and labor relations laws and regulations innovation and change and data administration and information systems The author explores bioethics and managing Babies Doe legal right to refuse treatment nursing home payments and more He applies important general concepts to specific concerns such as organizational structure and service delivery arrangements internal financial planning innovations in drug services delivery

and implementing medical information systems      **Power Plays Power Works** John Fiske, Black Hawk Hancock, 2016-02-05

Now more than 20 years since its initial release John Fiske's classic text *Power Plays Power Works* remains both timely and insightful as a theoretically driven examination of the terrain where the politics of culture and the culture of politics collide. Drawing on a diverse set of cultural sites from alternative talk radio forums museums celebrity fandom to social problems such as homelessness Fiske traverses the topography of the American cultural landscape to highlight the ways that ordinary people creatively construct their social identities and relationships through the use of the resources available to them while constrained by social conditions not of their own choosing. This important analysis provides a set of critical methodological and analytical tools to grapple with the complexities and struggles of contemporary social life. A new introductory essay by former Fiske student Black Hawk Hancock entitled *Learning How to Fiske: Theorizing Power Knowledge and Bodies in the 21st Century* elucidates Fiske's methods for today's students providing them with the ultimate guide to thinking and analyzing like John Fiske: the art of *Learning How to Fiske*.
