Social Work Administrative Practice In Health Care Settings:

Social Work Practice in Health Care Settings Michael J. Holosko, Patricia A. Taylor, 1992 Social Work Practice in Health Care Settings is written by social work practitioners for colleagues in health care settings. It is aimed at teaching social workers how to survive in a rapidly changing health care system. The text emphasizes the role of the social worker in a variety of health care settings with a variety of unique patient disease groups. From community health centres to hospitals and from cancer patients to Alzheimer's victims, this book brings together for the first time the special expertise of social work in responding to various health care needs. One unique feature of this text is the emphasis on the potential for social work role development in each of the particular areas covered. With each article written in a standardized format, it is appropriate for both undergraduate and graduate courses in schools of social work as well as for social work practitioners in the field and allied health professionals.

Social Work Administrative Practice in Health Care Settings Patricia A. Taylor, Janet Devereux, 1991 Advancing Social Work Practice in the Health Care Field Gary Rosenberg, Helen Rehr, 2012-12-06 Commemorating the 75th anniversary of the Department of Social Work at the Mount Sinai Medical Center in New York City, this innovative and exciting book traces the growth of the social work mission and the development of vanguard social work programs at Mount Sinai. Leading social work educators and practitioners look at where the profession is today and speculate on where it might be going. Each article is new and original to this book, and each contributor is a distinguished representative from his specialty in the field. Advancing Social Work Practice in the Health Care Field with its wealth of historical practical and theoretical information reflects today's state of the art in selected areas and should serve as an information source not only for practitioners and administrators but also for educators who are committed to enhancing the social work services and the quality of social health care.

Behavioral Social Work in Health Care Settings Gary Rosenberg, Andrew Weissman, 2016-04-29 An essential resource for social work professionals. As the focus of the health care industry shifts from predominantly hospital-based care to out-patient managed care, social workers must adapt to a new environment. Owing to changes driven by major advances in medical care, knowledge, technology, and skill, new issues in ethics, practice, and policy have arisen. Behavioral Social Work in Health Care Settings addresses the impact that changing patterns in health care delivery have had and will continue to have on social work professionals, presenting a thoughtful collection of articles that combine research with practical experience. Behavioral Social Work in Health Care Settings looks at a range of critical issues facing health care social work professionals, including building a social support system for the patient, adopting a biopsychosocial approach to medical education, evaluating social work interventions in health care, addressing economic quality of life and ethical concerns of organ recipients, maintaining a client-based focus on health care, and also includes a study of the psychosocial needs of patients in a large urban medical center. Required reading for social work administrators, practitioners, teachers, and students. Behavioral Social Work in Health Care Settings represents presentations from the

Seventh Doris Siegel Memorial Colloquium which called for the critical examination of changes in health care delivery brought about by financial pressures from government levels and private insurers

Social Work Practice in Healthcare Karen M. Allen, William J. Spitzer, 2015-04-10. Social Work Practice in Health Care by Karen M. Allen and William J. Spitzer is a pragmatic and comprehensive book that helps readers develop the knowledge, skills, and values necessary for effective health care social work practice, as well as an understanding of the technological, social, political, ethical, and financial factors affecting contemporary patient care. Packed with case studies and exercises, the book emphasizes the importance of being attentive to both patient and organizational needs, covers emerging trends in health care policy and delivery, provides extensive discussion of the Patient Protection and Affordable Care Act, and addresses social work practice across the continuum of care.

The Oxford Handbook of Social Work in Health and Aging Daniel B. Kaplan, Barbara Berkman, 2016. This Second Edition of the Handbook addresses the evolving interdisciplinary health care context and the broader social work practice environment, as well as advances in the knowledge base which guides social work service delivery in health and aging. This includes recent enhancements in the theories of gerontology, innovations in clinical interventions, and major developments in the social policies that structure and finance health care and senior services. In addition, the policy reforms of the 2010 Patient Protection and Affordable Care Act set in motion a host of changes in the United States healthcare system with potentially profound implications for the programs and services which provide care to older adults and their families. In this volume, the most experienced and prominent gerontological health care scholars address a variety of populations that social workers serve and the arenas in which they practice, followed by detailed recommendations of best practices for an array of physical and mental health conditions. The volume's unprecedented attention to diversity, health care trends, and implications for practice, research, and policy make the publication a major event in the field of gerontological social work. This is a Must Read for all social work educators, practitioners, and students interested in older adults and their families.

Best Practices for Social Work with Refugees and Immigrants Miriam Potocky, Mitra Naseh, 2019-10-29. Social work practice with refugees and immigrants requires specialized knowledge of these populations and specialized adaptations and applications of mainstream services and interventions. Because they are often confronted with cultural, linguistic, political, and socioeconomic barriers, these groups are especially vulnerable to psychological problems such as anxiety, depression, alienation, grief, and post-traumatic stress disorder, as well as concerns

arising from inadequate health care Institutionalized discrimination and anti immigrant policies and attitudes only exacerbate these challenges The second edition of Best Practices for Social Work with Refugees and Immigrants offers an update to this comprehensive guide to social work with foreign born clients and an evaluation of various helping strategies and their methodological strengths and weaknesses Part 1 sets forth the context for evidence based service approaches for such clients by describing the nature of these populations relevant policies designed to assist them service delivery systems and culturally competent practice Part 2 addresses specific problem areas common to refugees and immigrants and evaluates a variety of assessment and intervention techniques in each area Using a rigorous evidence based and pancultural approach Miriam Potocky and Mitra Naseh identify best practices at the macro meso and micro levels to meet the pressing needs of uprooted peoples The new edition incorporates the latest research on contemporary social work practice with refugees and immigrants to provide a practical up to date resource for the multitude of issues and interventions for these populations
