Social Work In Health And Mental Health Issues Developments And Actions:

Social Work in Health and Mental Health Tuula Heinonen, Anna Metteri, 2005 Social Work in Health and Mental Health Issues Developments and Actions was created for final year undergraduate and master's level students in the health and mental health fields. It is primarily a book on social work practice discussing how one might approach a specific health or mental health related problem or issue as a social worker. Health and mental health are conceptualized broadly in this volume. The health and well-being of body and mind are seen as integrally connected, shaped by biological, physical, psychological, material, social, and structural features and determinants. Clients are viewed as active, engaged agents with strengths and resources from which to draw in meeting everyday challenges and major life crises. Contributions from around the world allow the social work student to learn about current practice in places as diverse as Australia, Finland, China, South Africa, Wales, Canada, and the United States. Each chapter is accompanied by both reflection questions and a case study derived from practice and written to stimulate discussion that develops assessment and treatment planning skills. Structural Social Work in Action Steven F. Hick, Heather I. Peters, Tammy Corner, Tracy London, 2009-09-25 Using concrete examples, this optimistic book illustrates the ways in which structural social work theory is being successfully implemented in social work practice. By providing examples of what does work in structural social work practice, it offers hope to others that this work is not only possible but that it is happening; it is effective, and the rest of us can do it too.
