Poverty and Devotion in Mendicant Cultures 1200-1450 Constant J Mews,Anna Welch,2016-07-15 Ever since the time of Francis of Assisi a commitment to voluntary poverty has been a controversial aspect of religious life This volume explores the interaction between poverty and religious devotion in the mendicant orders between the thirteenth and fifteenth centuries While poverty has often been perceived more as a Franciscan than as a Dominican emphasis this volume considers its role within a broader movement of evangelical renewal associated with the mendicant transformation of religious life At a time of increased economic prosperity reformers within the Church sought new ways of encouraging identification with the person of Christ This volume considers the paradoxical tension between voluntary poverty as a way of emulating Christ and involuntary poverty as situation demanding a response from those with the means to help the poor Drawing on history literature and visual arts it explores how the mendicant orders continued to transform religious life into the time of the renaissance The papers in this volume are organised under three headings prefaced with an introductory essay by the editors Poverty and the Rule of Francis exploring the interpretation of poverty in the Franciscan Order Devotional Cultures considering aspects of devotional life fostered by mendicant religious communities Franciscan Augustinian and Dominican Preaching Poverty on the way poverty was promoted and practiced within the Dominican Order in the later Middle Ages and Renaissance

The Poverty of Riches Kenneth Baxter Wolf,2005 Saint Francis of Assisi is arguably the most attractive saint ever produced by the Catholic Church Based on a reconsideration of the earliest biographies of the saint and Francis s own writings this title sheds light on the inherent ironies of poverty as a spiritual discipline and its relationship to poverty as a socio economic affliction

War and Masculinity in Roman and Medieval Culture Jaakkojuhani Peltonen,Elina Pyy,Jussi Rantala,2025-08-07 The chapters in this volume highlight the complexity and diversity of approaches to how ancient and medieval cultures understood martial masculinity and the significance warfare had on masculine values during the premodern era They also point to how these ideals were manifested in numerous environments covering topics from multiple points of view and using a variety of sources and methods In the ancient and medieval periods manliness was often understood as the ability to demonstrate bravery in war and eagerness to use violence in different situations While certain marginal groups such as philosophers and Christians promoted more peaceful ideals of masculinity war and masculinity were tightly connected to the cultures and societies of antiquity and the Middle Ages Indeed in Roman and later medieval culture warfare played an essential role in constructing ideals of proper manliness and masculinity This constructed masculinity manifested itself not only in written culture but also in everyday life both visually and bodily War and Masculinity in Roman and Medieval Culture is intended for those interested in ancient Roman and medieval culture particularly researchers and students of gender and masculinity in Classical Antiquity and the Middle Ages

Rethinking the Work Ethic in

Premodern Europe Gábor Almási, Giorgio Lizzul, 2023-11-14 This book investigates how work ethics in Europe were conceptualised from the Middle Ages to the nineteenth century Through analysis of a range of discourses it focuses on the roles played by intellectuals in formulating communicating and contesting ideas about work and its ethical value The book moves away from the idea of a singular Weberian work ethic as fundamental to modern notions of work and instead emphasises how different languages of work were harnessed for a variety of social intellectual religious economic political and ideological objectives Rather than a singular work ethic that left a decisive mark on the development of Western culture and economy the volume stresses plurality The essays draw on approaches from intellectual social and cultural history They explore how why and in what contexts labour became an important and openly promoted value who promoted or opposed hard work and for what reasons and whether there was an early modern break with ancient and medieval discourses on work These historicized visions of work ethics help enrich our understanding of present day changing attitudes to work

Forschungen zur Theologie und Philosophie des Mittelalters , 2008 **Journal of the British Archaeological Association** , 1999 *Encountering Others, Understanding Ourselves in Medieval and Early Modern Thought* Nicolas Faucher, Virpi Mäkinen, 2022-12-05 Recent research has challenged our view of the Abrahamic religious traditions as unilaterally intolerant and incapable of recognizing otherness in all its diversity and richness but a diachronic and

comparative study of how these traditions deal with otherness is yet to appear This volume aims to contribute to such a study by presenting different treatments of otherness in medieval and early modern thought Part I Altruism deals with attitudes and behaviors that benefit others regardless of its motives We deal with the social rights and emotions as well as the moral obligations that the very existence of other human beings whatever their characteristics creates for a community Part II Religious recognition and toleration considers identity toleration and mutual recognition created by the existence of religious or ethnic otherness in a given social religious or political community Part III Evil deals with religious otherness that is considered evil and rejected such as heretics and malevolent demonic entities The volume will ultimately inform the reader on the nature of religious toleration including beliefs and doctrines even emotions as well as of the self definition of religious communities when encountering and defining otherness in different ways

Constructing the Medieval Sermon Roger Andersson, 2007 In considering the construction of medieval sermons the term construction has many meanings Those studied here range from questions about sermon composition with the help of artes praedicandi or model collections to a more abstract investigation of the mental construction of the concepts of sermon and preacher Sermons from a range of European countries written both in Latin and vernaculars are subjected to a broad variety of analyses The approach demonstrates the vitality of this sub discipline Most of the essays are more occupied with literary and philological problems than with the religious content of the sermons While many focus on vernacular sermons the Latin cultural and literary background is always considered and shows how vernacular preaching was in part based on a more learned Latin culture The collection testifies both to the increasing esteem of the study of vernacular sermons and to a revival in the study of all those things contained in a preacher's workshop ranging from rhetorical invention medieval library holdings and study aids through to factors that are crucial for the successful delivery of the sermon such as the choice of language mnemonic devices and addressing the audience The interdisciplinary approach remains ever present not only in the diversity of the academic disciplines represented but also within individual essays The volume is based on a conference held in Stockholm 7-9 October 2004

study based on original and in most cases unedited sources but it can also be read as a general introduction It crosses boundaries between different fields of learning and traditionally accepted time periods of history Even if it is essentially a book on medieval man it stretches far beyond the middle ages as conventionally understood The final chapter traces the slow disappearance of the medieval mentality until the early nineteenth century Fragments of a World Lesley Smith,2023-05-30 The first modern biography of medieval French scholar and bishop William of Auvergne Today William of Auvergne 1180 1249 is remembered for his scholarship about the afterlife as well as the so called Trial of the Talmud But the medieval bishop of Paris also left behind nearly 600 sermons delivered to all manner of people from the royal court to the poorest in his care In Fragments of a World Lesley Smith uses these sermons to paint a vivid picture of this extraordinary cleric his parishioners and their bustling world The first modern biography of the influential teacher bishop and theologian Fragments of a World casts a new image of William of Auvergne for our times deeply attuned to both the spiritual and material needs of an ever changing populace in the medieval city
