Social Focus On Children:

Society and Social Changes through the Prism of Childhood Hanne Warming, 2023-09-19 This book presents a new childhood studies research program namely Childhood Prism Research and offers unique childhood research contributions to the wider scholarly field Bringing together cutting edge childhood studies scholars from various disciplines including philosophy psychology feminism anthropology sociology and literature the book demonstrates the rich potential of this program and offers an introduction to the childhood prism theoretical framework as well as examples of childhood prism research Childhood prism research is underpinned by a distinct childhood studies approach that involves re thinking the generational order perspective and combining this with a relational ontology and a flat non adultist epistemology The key assumption is that the study of children s lives can offer not only insights into adults lives and vice versa but in some cases may even offer a privileged lens onto broader societal issues The program embraces a number of seemingly oppositional positions in an ongoing debate within childhood studies and children s geographies about how to reinvigorate theoretical thinking within these fields Featuring leading childhood studies scholars from various disciplines including philosophy psychology feminism anthropology sociology and literature this book demonstrates the rich potential of the program and shows how researching children s and young people s lives using this approach holds great promise for significant theoretical development beyond the field of children s geographies and childhood studies as well as for empirical exploration of broader societal issues *Society and Social Changes Through the Prism of Childhood* will be a key resource for academics researchers and advanced students of Childhood Studies Sociology Human Geography Social Sciences and Psychology The chapters included in this book were originally published as a special issue of *Children s Geographies* *The Routledge Handbook of Child and Family Social Work Research* Elizabeth Fernandez, Penelope Welbourne, Bethany Lee, Joyce L. C. Ma, 2024-09-30 This Handbook provides an accessible resource for all social work students educators practitioners and policymakers to increase their knowledge and understanding of how research into the diversity and impact of child and family social work interventions might underpin and drive policy and practice Divided into six sections The Context of Child and Family Social Work Research Preventive and Reparative Responses to Children and Families Child Maltreatment Causes Consequences and Responses Alternate Care as an Approach to Safeguarding Children and Young People Intervention Therapeutic Responses to Vulnerable Children Youth and Families Child and Family Social Work in the Global Context and comprising 52 newly written chapters by experts in the field it provides a foundational overview of the field of child and family social work including defining concepts sentinel historical milestones and the scope of practice It also identifies developments in auxiliary fields such as neuroscience psychology education health poverty and media By illustrating diverse research endeavours in parenting maltreatment prevention child protection and substitutive interventions including foster care residential care adoption and juvenile corrections and elaborating child welfare research methods measures and impacts on practice it

analyses evidence based interventions and policies in early intervention child protection child placement adoption and advocacy It will be required reading for anyone working in social work and child protection Indicators of Children's Well-Being Asher Ben-Arieh, Robert M. Goerge, 2006-03-08 ROBERT C GRANGER William T Grant Foundation During the past 10 years or so a number of researchers policymakers and practitioners have made important progress on the identification and use of indicators of children's well being The United States federal government via the Department of Health and Human Services and the National Institutes of Health as well as such private funders as the Annie E Casey Foundation have supported many of these efforts During this time the William T Grant Foundation who was not a primary funder of such activities was nevertheless one of the many institutions benefiting from the work Fortunately Asher Ben Arieh Larry Aber and Bob Goerge persuaded us to support a working conference on how to assess the effects of indicator usage on policies and programs This volume is the result of their talents and the clear thinking of many of their colleagues It is my pleasure to introduce the volume with a few thoughts about its contributions and the questions that remain Handbook of Child Maltreatment Richard D. Krugman, Jill E. Korbin, 2022-02-22 The second edition of this successful handbook edited by well known experts in this field includes core questions in the field of child abuse and neglect It addresses major challenges in child maltreatment work starting with What is child abuse and neglect and then examines why maltreatment occurs and what are its consequences The handbook also addresses prevention intervention investigation treatment as well as civil and criminal legal perspectives It comprehensively studies the issue from the perspective of a broader international and cross cultural human experience Apart from a thorough revision of existing chapters this edition includes many new chapters covering recent developments in this area and other issues not covered in the first edition There is more focus on substance abuse psychological abuse and on social and community involvement and public health provisions in the prevention of child maltreatment The handbook examines what is known now and more importantly what remains to be researched in the coming decades to help abused and neglected children their families and their communities thereby taking the field forward

Autism and the Social World of Childhood Carmel Conn, 2014-03-05 A key issue for researchers and practitioners is how to support the social engagement of children with autism in ordinary everyday social processes that are transactional in nature and involve mixed groups of children with and without autism in rich and varied relationships Autism and the Social World of Childhood brings together current understandings about the social engagement of children with autism gained from psychology based research into autism with well established ideas about children's everyday social worlds gained from sociocultural theories of childhood It describes the experiences of interaction friendship and play from children's own point of view as a way of giving insight into children's lives as they are lived and understood by them Such an understanding serves to inform educational practice and aids the provision of more effective learning environments Autism and the Social World of Childhood includes sections on the nature of play social interaction and friendship in autism the nature of children's

ordinary social worlds including children's cultures of communication and variation in children's play research approaches to investigating the social engagement of children with and without autism in natural contexts educational approaches to supporting the integration of children with autism within a school setting the importance of assessment in autism education Autism and the Social World of Childhood includes real life descriptions of children's social experiences taken from ethnographic research into the play and interaction of children with and without autism Practical guidance is provided on educational approaches to supporting the inclusion of children with autism within the ordinary social worlds of childhood

Contesting Childhood Michael G. Wyness, 2000 Traditional models of childhood need reconstructing especially as children become more active in negotiating the boundaries between themselves and adults Wyness argues for new more effective conceptions of childhood derived from analysis of recent social policy He interprets legislation and reveals that recent children acts and educational reform exhibit a strengthening of the socializing power of adults over children Most importantly this book challenges a prevalent underlying conception of children as lesser or inferior versions of adults a flawed understanding that still influences policy

Handbook of Dynamics in Parent-Child Relations Leon Kuczynski, 2003 This handbook provides an interdisciplinary perspective on theory research and methodology on dynamic processes in parent child relations It focuses on cognitive behavioural and relational processes that govern immediate parent child interactions and long term relationships

Social and Behavioral Foundations of Public Health Jeannine Coreil, 2010 This book is intended as a core textbook for courses in public health that examines current issues in health from a social and behavioral science perspective It is a cross disciplinary course public health medical sociology health psychology medical anthropology and thus there are many ways to teach the course based on a particular instructor's perspective The authors wrote the book because they were dissatisfied with the way other texts apply social science to public health and found that many texts being used were from related fields such as medicine nursing or general health The authors are planning to do a major revision based on reviews they have collected and the reviews we have collected We believe the revised edition will essentially be a new text based on rich feedback They will include new theory new cases new research and a rich ancillary package They will also reduce the frameworks presented to make the book more readable to students

Social Order in Child Communication Jürgen Streeck, 1983-01-01 Context is a concept for linguistic analysis which has rarely been subjected to close empirical scrutiny This volume presents an attempt to investigate in microscopic detail various processes of contextualization by which children organize their interaction frame by frame achieve sustain and embody their working consensus on what it is that they are doing together and thereby situate their linguistic activities Microethnography comprises research methods of context analysis ethnography and conversational analysis and seeks to locate phenomena of social order in both verbal and nonverbal behavior

Solution-Focused Brief Therapy Cynthia Franklin, 2012 Therapy is frequently miscast as requiring an enormous amount of time and financial commitment but helpful goal oriented therapy can

produce positive results after only a few sessions By focusing on solutions instead of problems SFBT asks clients to set concrete goals and to draw upon strengths in their lives that can help bring about the desired change for a preferred future

Social Worlds of Children Anne Haas Dyson,1993 Presents the results of a two year ethnographic study of K 3 children who do not tell stories in the written language format valued by most early literacy educators

Advances in Education Research, 1999

Pedagogical Cases in Physical Education and Youth Sport Kathleen Armour, 2014-01-21 Pedagogical Cases in Physical Education and Youth Sport is a completely new kind of resource for students and practitioners working in physical education or youth sport The book consists of 20 richly described cases of individual young learners each written by a team of authors with diverse expertise from across the sport exercise and movement sciences These cases bring together knowledge from single sub disciplines into new interdisciplinary knowledge to inform best practice in physical education teaching and coaching in youth sport settings At the heart of each case is an individual young person of a specified age and gender with a range of physical social and psychological characteristics Drawing on current research theory and empirical data from their own specialist discipline each chapter author identifies the key factors they feel should be taken into account when attempting to teach or coach the young person described These strands are then drawn together at the end of each chapter and linked to current research from the sport pedagogy literature to highlight the implications for planning and evaluating teaching or coaching sessions No other book offers such a rich vivid and thought provoking set of pedagogical tools for understanding and working with children and young people in sport This is an essential resource for any student on a physical education coaching kinesiology or sport science course and for any teacher coach or instructor working in physical education or youth sport

Becoming a Practitioner in the Early Years Rose Envy, Rebecca Walters, 2013-04-17 An accessible text for students of the early years examining the role of the practitioner in the early years A core text for all practice related modules

The Development of Young Children's Social-Cognitive Skills Michael A. Forrester, 2013-10-23 Understanding how young children begin to make sense out of the social world has become a major concern within developmental psychology Over the last 25 years research in this area has raised a number of questions which mirror the confluence of interests from cognitive developmental and social developmental psychology The aims of this book are to consider critically the major themes and findings within this growing social cognitive developmental research and to present a new theoretical framework for investigating children's social cognitive skills Beyond being the first major review of the literature in this area this synopsis articulates why contemporary theoretical ideas e.g. information

processing Piagetian and social interactionist are unlikely ever to provide the conceptual basis for understanding children's participative skills. Building upon ideas both within and beyond mainstream developmental psychology, the eco-structural approach advocated seeks to draw together the advantages of the ecological approach in perceptual psychology with the considerable insights of the conversational analysts, child language researchers and Goffman's analysis of social interaction. This convergence is centred around the dynamic and participatory realities of engaging in conversational contexts, the locus for acquiring social cognitive skills. The framework provides the building blocks for models of developmental social cognition which can accommodate dynamic aspects of children's conversational skills. This book then is a review of an important area of developmental psychology, a new perspective on how we can study children's participatory social cognitive skills and a summary of supporting research for the framework advocated.

Taking Children and Young People Seriously Mariane Hedegaard, Anne Edwards, 2023-06-22. Connects development, learning and societal conditions with care and motivation for children and young people.
