Social Indicators The Eu And Social Inclusion:

Social Indicators, 1980 *Social Indicators* Tony Atkinson, Bea Cantillon, Eric Marlier, Brian Nolan, 2002-03-07 Social indicators are an important tool for evaluating a country's level of social development and for assessing the impact of policy. Such indicators are already in use in investigating poverty and social exclusion in several European countries and have begun to play a significant role in advancing the social dimension of the European Union as a whole. The purpose of this book is to make a scientific contribution to the development of social indicators for the purposes of European policy making. It considers the principles underlying the construction of policy relevant indicators, the definition of indicators and the issues that arise in their implementation, including that of the statistical data required. It seeks to bring together theoretical and methodological methods in the measurement of poverty, social exclusion with the empirical practice of social policy. The experience of Member States is reviewed, including an assessment of the National Action Plans on Social Inclusion submitted for the first time in June 2001 by the fifteen EU governments. The key areas covered by the book are poverty, including its intensity and persistence, income inequality, non-monetary deprivation, low educational attainment, unemployment, joblessness, poor health, poor housing and homelessness, functional illiteracy and innumeracy, and restricted social participation. In each case, the book assesses the strengths and weaknesses of different indicators relevant to social inclusion in the European Union and makes recommendations for the indicators to be employed. Indicators for Social Inclusion in the European Union is being published at a critical stage in the evolution of the social agenda of the European Union. It is hoped that the report will play a role in widening public debate about the social dimension of Europe and that it will be of value to the social partners, to non-governmental and grass roots organizations and to those living in poverty and social exclusion. It seeks to provide both a constructive background document at a crucial juncture in the evolution of the social dimension of the European Union and a reference work of continuing value. Social Indicators Anthony B. Atkinson, 2002 **The EU and Social Inclusion** Eric Marlier, Tony Atkinson, Bea Cantillon, Brian Nolan, 2009-04-21 This book provides an in-depth analysis of the EU Social Inclusion Process and explores the challenges ahead at local, regional, national and EU levels. Social Indicators Anthony Barnes Atkinson, 2002 This book describes the Action Plans on Social Inclusion submitted to the European Union by national governments in June 2001 and investigates the indicators that can be used to assess social progress. Law and Governance in an Enlarged European Union George A. Bermann, Katharina Pistor, 2004-11 This book's principal aim is to critically address the institutional and substantive legal issues resulting from European enlargement, chiefly those relating to the legal foundations on which the enlarged Union is being built. The accession of new Member States creates the potential for a stronger and more powerful Europe. Realising this potential, however, will depend on the ability of the EU to develop functional and effective governance structures both at the European level and at the level of the individual Member States. While the *acquis communautaire* will ensure that formal laws in the new Member States will be aligned with those of existing

members the question remains as to how effective institutions will be in implementing changes and what effects the imposed changes will have on the legitimacy of the new legal framework This book containing the work of leading scholars in law and social sciences examines the current and future legal framework for EU governance and the role that new members will or will not play in the creation of that framework paying particular attention to the specific challenges membership in the EU poses to the acceding states of Central and Eastern Europe It is a book which will contribute to and influence debates over constitutionalism and legal harmonisation in the EU

Poverty and Exclusion in the Western Balkans Caterina Ruggeri Laderchi, Sara Savastano, 2013-02-12 This book maps the latest developments in the policy relevant analysis on poverty inclusion and the social agenda in the Western Balkans It does so by presenting a selection of recent papers which explore from a methodological and analytical point of view how the inclusion agenda can be monitored and adapted to understand the challenges in the region The volume includes an overview and four sections covering respectively 1 innovations in terms of measurement of poverty and inclusion in the region the concept of inclusion as elaborated at the EU level innovations in survey design to suit the measurement of inclusion methodological insights from qualitative work 2 innovative country level analysis updating poverty mapping in intercensal years the analysis of material deprivation the analysis of determinants of social inclusion subjective wellbeing of public work programs participants 3 examples of country level analysis of drivers of exclusion barriers to formalization in the labour market gender disparities in the labour market disruption in social networks following urbanizations attitudes towards multi ethnic states 4 building inclusive safety nets an assessment of safety nets in the region the political economy of welfare reform micro simulations of social assistance reform the adoption of better tools to improve targeting performance The chapters combine sophisticated techniques which are at the frontiers of poverty analysis small area estimation efficiency analysis applied to household welfare micro simulations with less ground breaking papers which take advantage of innovative datasets or perspectives deeply grounded in the policy dialogue in the countries of the region By providing a wide spectrum of innovative and policy relevant analytical contributions this book will be of broader interest than for observers of the region

Employment Policies and Multilevel Governance Roger Blanpain, Brian Langille, 2009-04-29 In Europe work has long been a symbol of full citizenship and today work is a fundamental goal of European social policy However although every person has the right to work it is becoming clearer all the time that unemployment is not due merely to a lack of encouragement to exercise this right but at least in part to some deeper defects in the implementation of effective employment policies As a contribution to defining the nature of these problems this important collection of essays targets the phenomena of multilevel governance both vertical European national regional local and horizontal administrative institutions trade unions business representatives NGOs showing with detailed analysis and data how coordination or conflict between the various levels advances or fails to advance the goals of employment policy Regarding the EU five EU Member States are examined plus for comparative analysis the parallel Canadian federal model

with the authors addressing such concrete issues as the impact of globalisation and Europeanisation on employment policies distribution of tasks in the Open Method of Coordination OMC involvement of private and economic agents the increasing significance of international political agents flexicurity as an employment strategy the difficulty of integrating the excluded coordination with education and fiscal policies social inclusion from the point of view of international human rights and gender mainstreaming as a weakening of the EU guarantee of gender equality The essays originated in a research meeting held at the Instituto Internacional de Sociología Jurídica at Ovato Spain in June of 2007 Some of the contributors all employment law experts discuss problematic aspects of the European Employment Strategy EES and its influence on the decentralization of employment policies and related elements of social protection Other authors concentrate on built in multilevel problems resulting from existing constitutional and administrative structures while a third group focuses on substantive approaches to employment policies within individual member states The Bulletin contains updated versions of all papers In this book the degree of administrative legal political and cultural intricacy involved in a serious engagement with multilevel governance of employment on the European model is put on full view As a deeply informed analysis of how the idea of multilevel governance has played out within the political and administrative reality of Member States the book will prove of enormous value to labour and employment law professionals anywhere as the problems identified here have a global reach

EU Labor

Market Policy A. Schellinger, 2016-04-08 The EU's social dimension today is a product of the ideology of the 1990s Its employment field is directed to increase the employability of workers and the adaptability of labor market regimes The book argues that this social liberal approach is best explained with a set of ideas strategically advanced by thought communities in the policy process It traces the success of this new approach in the debates among academic experts and policy makers in the mid 1990s the decisions leading to the adoption of the Treaty of Amsterdam and the establishment of the approach in the policy field between 1997 2007 The author explores the processes through which ideas came to matter in the policy process At every stage the claim that ideas played a predominant role is strengthened by addressing the most viable alternative explanations such as institutional constraints set by Economic and Monetary Union and the preferences of political leaders

The European Social Model and an Economy of Well-being Giovanni Bertin, Giuseppe Moro, 2021-02-26 This timely book critically examines the European Social Model as a contested concept and concrete set of European welfare and governance arrangements It offers a theoretical and empirical analysis of new economic models and existing European investment

strategies to address key issues within post Covid 19 Europe Gender and the Open Method of Coordination Samantha Velluti, 2016-04-15 Containing contributions by some of the best known researchers in the field this volume considers the intersection between the Open Method of Coordination OMC a relatively new mode of policy making and gender equality a long standing area of EU policy It draws on a range of disciplinary perspectives to examine the effectiveness of the OMC as a medium for the advancement of gender equality within the EU It also considers gender in the OMC in a variety of contexts and at both a general EU and Member State level Central to the discussion is the concept of gender mainstreaming which proposes that a gender equality perspective should be incorporated at every level and opportunity of EU policy and practice The authors assess how successful this has been in the context of the OMC The book provides a unique and contemporary body of work on the OMC which adds significantly to existing understandings of this form of governance and informs critical debate of EU social governance *Civil Society and Legitimate European Governance* Stijn Smismans, 2006-01-01 Smismans gathers a fine selection of papers The book gains particular authority from its interdisciplinary approach Ulrike Ehling European Law Journal This book explores the concept of civil society which over recent years has been revived and introduced into the institutional debate within the EU Significantly EU institutions themselves have made reference to civil society and on an academic plane it has been argued that the debate on the legitimacy of European governance should value the role of civil society organisations Bringing together lawyers and political scientists the book studies the role of civil society organisations in the multi level context of European governance Civil Society and Legitimate European Governance bridges the distance between normative suggestions legal instruments and empirical analysis Providing original contributions to the research on European governance this book will appeal to all scholars and students with an interest in European integration and European institutions Mainstreaming Ageing Asghar Zaidi, 2017-09-29 The Madrid International Plan of Action on Ageing MIPAA adopted at the Second World Assembly on Ageing is the first international agreement that specifically recognises the potential of older people to contribute to the development of their societies In monitoring its implementation two key approaches are evident a qualitative bottom up participatory approach and an approach that uses quantitative indicators to monitor sustainable progress and policies With the European Centre for Social Welfare Policy and Research playing a pivotal role in the monitoring of the implementation process one of its key tasks has been to develop a list of indicators of achievement This book contains extended and revised versions of policy briefs and background papers that support the implementation monitoring process The analyses included in these chapters make concrete suggestions towards quantitative indicators with the aim of assisting national governments in mainstreaming ageing in their policies The contributors provide an overview of the current situation with respect to population ageing and its consequences and also provide projections for the future The book also includes the final list of quantitative indicators that arose out of consultations with international experts related to the four main topics addressed demography income and

wealth labour market participation and social protection and financial sustainability *Combating Poverty in Europe* Gerhard Bäcker, 2018-01-18 Title first published in 2003 This informative volume addresses the impact of the EU on national policies to combat poverty in European member states The editors bring together leading academics to discuss the issue of and fight against poverty in Germany in particular within the context of ongoing trends and debates across other European states **Immigration and Social Cohesion in the Republic of Ireland** Bryan Fanning, 2013-01-18 In the last decade Ireland's immigrant population grew to more than one in ten Now in the midst of an economic crisis the integration of immigrants has become a topical issue Drawing extensively on demographic data and research on immigrant lives immigrant participation in Irish politics and the experiences of immigrants living in deprived communities this book offers a thorough study of the immigrant experience in Ireland today Well researched chapters and case studies examine the effects of immigration on social cohesion the role of social policy the nature and extent of segregation in education racism and discrimination in the labour market and the barriers faced by immigrants seeking Irish citizenship This book will be essential reading for students and scholars of immigration in Ireland and will appeal more broadly to those studying politics sociology geography and social policy European Social Work – A Compendium Fabian Kessl, Walter Lorenz, Hans-Uwe Otto, Sue White, 2019-11-25 The publication takes account of the fundamental developments transforming social work in Europe at the beginning of the 21st century A European standard of social work has already emerged but models for future European social work are absent Therefore the compendium gives an overview of the current transformation process for the first time discusses the visible and invisible changes and maps out where social work is positioned in the emerging post welfare states Portfolio of EU Social Indicators for the Monitoring of Progress Towards the EU Objectives for Social Protection and Social Inclusion , 2022 **New Frontiers in Microsimulation Modelling** Ann Harding, 2017-10-19 In the past fifteen years microsimulation models have become firmly established as vital tools for analysis of the distributional impact of changes in governmental programmes Across Europe the US Canada and Australia microsimulation models are used extensively to assess who are the winners and losers from proposed policy reforms this is now expanding into new frontiers both geographically and in terms of policy areas With contributions from more than 60 international experts this volume offers a comprehensive introduction to the state of microsimulation internationally illustrating a wide range of new applications and approaches It will be of relevance to government policy makers social policy planners economists and those concerned with predicting the impact of public policy change and to academics in a variety of disciplines especially social and public policy human geography development studies and economics
