Proceedings of the 2nd International Student Conference on Linguistics (ISCL 2022) Mirsa Umiyati, I Nyoman Kardana, Aron Meko Mbete, I Gusti Made Sutjaja, Dewa Komang Tantra, Nyoman Sujaya, Ni Wayan Kasni, I Wayan Budiarta, Rika Purnama Sari, 2023-03-02 This is an open access book Linguistics as a field of study discussing languages plays a fundamental role in the life of humans It affects the human way of thinking in various aspects In turn there is a pervasive influence of language on our daily lives The impact is that the work of linguists is no longer only managing language in one discipline but relating and interconnecting the linguistics with other fields at a further level Linguistic studies have now been carried out in various fields including psychology anthropology neuroscience law philosophy computer science communications and education Linguistics enthusiasts find practical solutions for their linguistic training in the computer law and forensic industries teaching foreign languages and English as a second language translation and interpretation speech pathology lexicography and policymaking in government and education Nowadays these jobs are however no longer operational but encounter many challenges especially in the global era The digital revolution has created new avenues for language use and new communication modalities The existence of technology mediates our linguistic and social interactions

The pervasive influence of technology on human development has the potential to influence language acquisition and change social behavior. In this global era many challenges in human life arise. Our brave new digital world has caused some discord for language activists and if harsh text speakers do not feel good, woe ensues. Our new diet of round shaped emojis. Our language and our relationship to language have developed to keep pace with cultural changes. Furthermore, since the spread of the COVID 19 pandemic, society has been carrying out communication online through the internet and social media. Society has been accustomed to doing it that way. One of the challenges linguistics studies are facing is the implementation of appropriate language capacity. There are conditions for the use of inaccurate languages according to standardized rules in communication through online media. To solve this, reciprocal interactions are also important for creating a pool of different perspectives among the smart human community. In total, digital technologies are also changing the ways we learn and teach, as well as the ways we compose and research. These changes are occurring throughout the academy, including the humanities, a set of disciplines less associated with technology. In an effort to vanquish the challenges trending in the linguistic study, in order to depict the future perspectives on it established in the description above, fresh ideas from the younger generations are needed. For that purpose, the Graduate School of Linguistics, the Postgraduate Program, University of Warmadewa, in collaboration with other institutes, presents an international academic discussion forum in the form of a conference. This event is themed "The 2nd Student Conference on Linguistics Trends and Future Perspectives in Language study and Language Teaching". Through the forum, students from various parts of the world are expected to share bright and innovative ideas to discover solutions to the problems and challenges faced by linguistics today and in the coming future.
