Social Struggles And The City:

Social Justice and the City Nik Heynen, 2020-06-09 This special collection aims to offer insight into the state of geography on questions of social justice and urban life While using social justice and the city as our starting point may signal inspiration from Harvey's 1973 book of the same name the task of examining the emergence of this concept has revealed the deep influence of grassroots urban uprisings of the late 1960s earlier and contemporary meditations on our urban worlds Jacobs 1961 1969 Lefebvre 1974 Massey and Catalano 1978 as well as its enduring significance built upon by many others for years to come Laws 1994 noted how geographers came to locate social justice struggles in the city through research that examined the ways in which material conditions contributed to poverty and racial and gender inequity as well as how emergent social movements organized to reshape urban spaces across diverse engagements including the U S Civil Rights Movement anti war protests feminist and LGBTQ activism the American Indian Movement and disability access This book originally published as a special issue of *Annals of the American Association of Geographers* **Social Struggles and the City** Lucio Kavarick, 1994 **Cities and Social Movements** Walter J. Nicholls, Justus Uitermark, 2016-12-21 Through historical and comparative research on the immigrant rights movements of the United States France and the Netherlands *Cities and Social Movements* examines how small resistances against restrictive immigration policies do or don't develop into large and sustained mobilizations Presents a comprehensive comparative analysis of immigrant rights politics in three countries over a period of five decades providing vivid accounts of the processes through which immigrants activists challenged or confirmed the status quo Theorizes movements from the bottom up presenting an urban grassroots account in order to identify how movement networks emerge or fall apart Provides a unique contribution by examining how geography is implicated in the evolution of social movements discovering how and why the networks constituting movements grow by tracing where they develop Demonstrates how efforts to enforce national borders trigger countless resistances and shows how some environments provide the relational opportunities to nurture these small resistances into sustained mobilizations Written to appeal to a broad audience of students scholars policy makers and activists without sacrificing theoretical rigor **Social Media and Social Movements** Baris Çoban, 2015-12-17 This book examines the increased utilization of social media in daily life and its impact on social movements The contributors analyze social media revolutions such as the Arab Spring the 15 M movement in Spain the Occupy Nigeria movement and the Occupy Gezi movement in Turkey The contributors to this collection academics researchers and activists implement diverse methodological approaches both descriptive and quantitative to cut across various disciplines including communication and media studies cultural studies politics sociology and education *Social Reproduction and the City* Simon Black, 2020 The transformation of child care after welfare reform in New York City and the struggle against that transformation is a largely untold story In the decade following welfare reform despite increases in child care funding there was little growth in New York's unionized center based child care system and no

attempt to make this system more responsive to the needs of working mothers As the city delivered child care services on the cheap relying on non union home child care providers welfare rights organizations community legal clinics child care advocates low income community groups activist mothers and labor unions organized to demand fair solutions to the child care crisis that addressed poor single mothers need for quality affordable child care as well as child care providers need for decent work and pay Social Reproduction and the City tells this story linking welfare reform to feminist research and activism around the crisis of care social reproduction and the neoliberal city At a theoretical level Simon Black s history of this era presents a feminist political economy of the urban welfare regime applying a social reproduction lens to processes of urban neoliberalization and an urban lens to feminist analyses of welfare state restructuring and resistance Feminist political economy and feminist welfare state scholarship have not focused on the urban as a scale of analysis and critical approaches to urban neoliberalism often fail to address questions of social reproduction To address these unexplored areas Black unpacks the urban as a contested site of welfare state restructuring and examines the escalating crisis in social reproduction He lays bare the aftermath of the welfare to work agenda of the Giuliani administration in New York City on child care and the resistance to policies that deepened race class and gender inequities

Space, the City and Social Theory Fran Tonkiss, 2005 Taking a thematic approach this book covers the main aspects of modern urban life taught on undergraduate courses The key approaches to the city within contemporary social theory are assessed Tonkiss adopts an international perspective with examples drawn from places such as New York Paris and Sydney
