Modern Hungarian Political Thought Zoltán Balázs, Csaba Molnár, 2024-10-31 This book introduces the reader into the discursive political pluralism of modern Hungary roughly from the mid 19th century with a particular emphasis on the spectrum of contemporary political thought The book relies on Michael Freeden's method of ideology analysis focusing on concepts principles values as well as interrelations but it puts a greater emphasis on nonverbal traditions as bearers of political thought to explain how political pluralism can subsist in periods of dictatorship Through this analysis the authors demonstrate how and why contemporary Hungarian political pluralism is a reflection both on the current trends in Western political thought and on its own past

Liberty and Socialism János M. Bak, András Bozóki, Miklós Sükösd, 1991 The writings in this volume reveal to English readers a powerful current of thought in Hungary through World War I illustrating both the diversity of thought in Central Europe and the kinship between eastern and western concern The contributions discuss the values of socialist transformation in a quickly industrializing but still heavily agrarian conservative society The contributors apply the ideas of western anarchism of syndicalism of

unorthodox Marxism Tolstoyan socialism and different non Marxist socialist theories to the realities of Hungary In addition to their contemporary impact these thinkers influenced such important later figures of international theory and practice as George Lukacs Karl Mannheim Oscar Jaszi and a great number of Bolshevik politicians influential in the shaping of Communist governments in the 1920s Nationalism and the Crowd in Liberal Hungary, 1848-1914 Alice Freifeld,2000-07-17 Audiences at theaters fairs statue raisings and commemorations of national figures political rallies ethnic mobs May Day celebrations monarchical festivities and finally war rallies all take up places in this history Not only insurgent crowds but festive ones as well have political and material goals Freifeld finds And hope for liberal nationalism which Hungarian crowds carried from their experience of 1848 thus continued to confront the monarchy its bureaucracy and the gentry **Staging the Past** Maria Bucur,Nancy Meriwether Wingfield,2001 This volume contains three sections of essays which examine the role of commemoration and public celebrations in the creation of a national identity in Habsburg lands It also seeks to engage historians of culture and of nationalism in other geographic fields as well as colleagues who work on Habsburg Central Europe but write about nationalism from different vantage points There is hope that this work will help generate a dialogue especially with colleagues who live in the regions that were analyzed Many of the authors consider the commemorations discussed in this volume from very different points of view as they themselves are strongly rooted in a historical context that remains much closer to the nationalism we critique **Constructivism in Central Europe** Esther Levinger,2022-01-31 The book is a comparative study of the constructivist avant garde artists in Central Europe the Hungarian MA group in exile in Vienna the Blok group in Warsaw and the Czech Dev tsil association of artists in Prague The author examines the similarities and significant differences among them Contrary to often repeated theses the study reveals that the artists unremittingly sought new formulations for an initial set of formal and theoretical issues It also demonstrates that they persistently believed that their works of art prefigured a future socialist society The long awaited socialist states that came into being after World War II betrayed the artists The Political Mobilization of the European Left, 1860-1980 Stefano Bartolini,2000-08-28 In an in depth comparative analysis Stefano Bartolini studies the history of socialism and working class politics in Western Europe While examining the social contexts organizational structures and political developments of thirteen socialist experiences from the 1860s to the 1980s he reconstructs the steps through which social conflict was translated and structured into an opposition as well as how it developed its different organizational and ideological forms and how it managed more or less successfully to mobilize its reference groups politically Intellectuals, Social Science, and Politics in Turn-of-the-century Budapest Eiko Kuwana,2002 **Historical Dictionary of Socialism** James C.
