Socialist Reasoning:

Socialist Reasoning Andrew Collier, 1990 **People's History and Socialist Theory (Routledge Revivals)** Raphael Samuel, 2016-05-12 First published in 1981 this book brings together different types of work by numerous fragmented groups in the field of Marxist history and puts them in dialogue with each other It takes stock of then recent work explores the main new lines and looks at the political and ideological circumstances shaping the direction of historical work past and present The scope of the book is international with contributions on African history fascism and anti fascism French labour history and the transition from feudalism to capitalism It also incorporates feminist history and gives attention to some of the leading questions raised for social history by the women s movement *The Intercollegiate Socialist* ,1913 **The Socialist Review** ,1913 **Gramsci, Political Economy, and International Relations Theory** A. Ayers, 2008-11-10 This book seeks to provide the most comprehensive and sustained engagement and critique of neo Gramscian analyses available in the literature In examining neo Gramscian analyses in IR IPE the book engages with two fundamental concerns in international relations i The question of historicity and ii The analysis of radical transformation Structure, Agency and Theory Ib Gram-Jensen, 2021-04-20 Structure Agency and Theory challenges common readings of Marx and Engels historical materialism and argues the necessity of abandoning their conception of the dialectic of forces and relations of production as the motive power of historical development and transformations because of its doubtful validity and deterministic implications Instead another fundamental conception in historical materialism the interaction between social circumstances and agency as the motive power of history is accentuated with an emphasis on agents experiences as a causal factor arguing its potential in terms of historical explanation and attempting to spell out some of its strategic implications for revolutionary socialism Socialists and Socialism Thomas Edward Watson, 1910 **The Absent Jews** Cordelia Hess, 2017-05-01 For nearly a century it has been a commonplace of Central European history that there were no Jews in medieval Prussia the result supposedly of the ruling Teutonic Order s attempts to create a purely Christian crusader s state In this groundbreaking historical investigation however medievalist Cordelia Hess demonstrates the very weak foundations upon which that assumption rests In exacting detail she traces this narrative to the work of a single minor Nazi era historian revealing it to be ideologically compromised work that badly mishandles its evidence By combining new medieval scholarship with a biographical and historiographical exploration grounded in the 20th century *The Absent Jews* spans remote eras while offering a fascinating account of the construction of historical knowledge **The History of Italian Marxism** Paolo Favilli, 2016-08-15 In *The History of Italian Marxism* Paolo Favilli offers an articulated analysis of the different levels at which Marx s ideas and Marxism as a doctrinal system were received in Italy from the time of the First International up till the eve of the First World War Rejecting any linear understanding of the relation between Marx s texts and the assumption of Marxism as the ideology of the burgeoning workers movement Favilli explores the growth of different forms of Marxist

culture through the period of the Paris Commune the late nineteenth century debate on revisionism and the rise of revolutionary syndicalism Asking in each case whether Marxism meant a science an ideology a way of doing politics a utopia a myth or a religion Favilli goes on to assess which of these Marxisms died with and which have survived the crisis at the end of the twentieth century With a new preface to the English edition First published in Italian as *Storia del marxismo italiano dalle origini alla grande guerra* FrancoAngeli s r l Milan 1996 **The Outlook** ,1911 **Being and Worth** Andrew Collier,2005-08-03 Being and Worth argues that beings both in the natural and human worlds have worth in themselves by extending recent depth realist philosophy to the question of values **London Municipal Notes** ,1909 *The Conceptual Change of Conscience* Ville Erkkilä,2019-03-05 How did the drastic experiences of the turbulent twentieth century affect the works of a legal historian What kind of an impact did they have on the ideas of justice and rule of law prominent in legal historiography Ville Erkkilä analyses the way in which the concepts of Rechtsgewissen and Rechtsbewusstsein evolved over time in the works of the prestigious legal historian Franz Wieacker With the help of previously unavailable sources such as private correspondence the author reveals how Franz Wieacker s personal experiences intertwined in his legal historiography with the tradition of legal science as well as the social and political destinies of twentieth century Germany

Science, Technology, and National Socialism Monika Renneberg,Mark Walker,2003-09-25 This 1993 book provides a survey of the development of scientific disciplines and technical projects under National Socialism in Germany Each contribution addresses a different aspect which is important for judging the interaction between science technology and National Socialism In particular the personal conduct of individual scientists and engineers as well as the functionality of certain theories and projects are examined All essays share a common theme continuity and discontinuity All authors cover a period from the Weimar Republic to the post war period This unanimity of approach provides answers to major questions about the nature of Hitler s regime and about possible lines of continuity in science and technology which may transcend political upheaval The book is also the most comprehensive to date on this subject and includes essays on engineering geography biology psychology physics mathematics and science policy Nation-States Neil Davidson,2016-05-30 In his latest collection of essays Neil Davidson brings his formidable analytical powers to bear on the concept of the capitalist nation state Through probing inquiry Davidson draws out how nationalist ideology and consciousness is used to bind the subordinate classes to the nation while simultaneously using the state as a means of conducting geopolitical competition for capital Public Theology and Civil Society: Constructive Formation Paul S. Chung,2022-03-28 In *Public Theology and Civil Society* author Paul S Chung charts the political history of modern democracy and social contract to define the role of Christian public theology in the post colonial era Capturing the thought of Rousseau Kant and Rawls in reference to the dialectical theory of Hegel and Marx Chung forges a new model of public theology for today s society Engaging in an expansive conversation with the thought of major figures in philosophy political economy and theology Paul Chung

articulates a compelling argument for a public theology that takes seriously our postcolonial context Chung's prophetic perspective critiques the hierarchical structures and social stratification that threaten civil society upholding the values of justice democracy and peace among the religions This book constructs a public theology that engages diverse public spheres toward the creation of a more equitable and diverse society Craig L Nesson Professor of Contextual Theology and Ethics Wartburg Theological Seminary Dubuque Iowa How does political and emancipatory public theology look and function in post colonial reality Dr Chung makes a resounding case for Christian public theology as explicitly ethical theology Dr Chung's excavation of some of the root causes and frameworks of oppression invites deep and theologically informed engagement in the affairs of the world Kirsi Stjerna Los Angeles Southwest California Synod Professor of Lutheran History and Theology Pacific Lutheran Theological Seminary of California Lutheran University

A Catechism of Individualism Henry Wilson (M.A.),1902 The Socialist Spirit ,1901 Explaining Global Poverty Branwen Gruffydd Jones,2007-01-24 The twenty first century is characterized by extremes of poverty and wealth of scarcity and abundance The vast inequalities of wealth distribution between the developed west and the impoverished developing world is a complex problem This book recognises that Africa in particular has manifested this global disgrace and symbolizes the nature of poverty to the western world In order to truly emancipate the poverty stricken around the world we must necessarily understand the reasons for its existence In a departure from traditional critical realist theory Gruffydd Jones argues the benefits of reassessing the relevance of objective inquiry and emphasizes its primacy over normative theory in the battle to truly understand the reasons for the African crisis This approach brings us a book of real relevance for inequality in the modern world and gives us an important platform from which to move forwards in the fight against poverty

The Argumentative Turn in Policy Analysis and Planning Frank Fischer,John Forester,1993 Drawing upon the work of such theorists as Foucault Habermas Toulmin and Wittgenstein this book brings recent work on language and argumentation to bear on the practical concerns of policy analysis and planning The European and US contributors to the book examine the interplay of language action and power in terms of both applied policy and theoretical debates Emphasizing the political nature of the work of planners and policy makers the book stresses the role of persuasive arguments in practical decision contexts Recognizing the rhetorical communicative character of planning and policy deliberations the writers demonstrate that policy arguments are necessarily selective both shaping and being shaped by power relations
