Socialists Of Rural Andalusia Unacknowledged Revolutionaries Of The Second Republic:

Socialists of Rural Andalusia George Allen Collier, 1987 El Terrible: Life and Labor in Pueblonuevo, 1887-1939

Patricia A. Schechter, 2024-07-12 This book is a biography of Pueblonuevo del Terrible a mining town located in Andalusia Spain Based on previously unexamined sources the study paints a fresh portrait of industrial workers and their families in C rdoba province enriching our understanding of this mostly agricultural region Previous studies of laboring communities in Spain have identified radical workers miners among them as a destabilizing element due to their insurgent protest activity including lethal violence This study by contrast describes both worker activism and cross class organizing as constructive not destructive and aimed at integration into Spanish society Economically the mining zone was dominated by a French company in the Rothschild portfolio But by running their own city waging peaceful labor strikes raising a church building housing and honoring their dead residents turned a quasi colonial outpost into a pueblo worth defending and they rallied in defense of the Republic at the outbreak of the Spanish Civil War In the making of Pueblonuevo del Terrible Spanish men and women contended with the perils of mine work the jolts of industrial capitalism creeping fascism and civil war As such this book tells a village scale story of global events that defined the twentieth century **Landownership & Power Mod Eur** Martin

History and Power in the Study of Law June Starr, Jane F. Collier, 2018-03-15 Building on earlier work in the anthropology of law and taking a critical stance toward it June Starr and Jane F Collier ask Should social anthropologists continue to isolate the legal as a separate field of study To answer this question they confront critics of legal anthropology who suggest that the subfield is dying and advocate a reintegration of legal anthropology into a renewed general anthropology Chapters by anthropologists sociologists and law professors using anthropological rather than legal methodologies provide original analyses of particular legal developments Some contributors adopt an interpretative approach focusing on law as a system of meaning others adopt a materialistic approach analyzing the economic and political forces that historically shaped relations between social groups Contributors include Said Armir Arjomand Anton Blok Bernard Cohn George Collier Carol Greenhouse Sally Falk Moore Laura Nader June Nash Lawrence Rosen June Starr and Joan Vincent *The Dilemmas of Social Democracies* Howard Richards, Joanna Swanger, 2008-01-01 The Dilemmas of Social Democracies seeks to advance the eradication of poverty and the ethical construction of social democracy and sustainable peace Howard Richards and Joanna Swanger argue that the reason that capitalism resists transformation and that social democracy is so hard to achieve is because of the philosophical and institutional underpinnings_ the constitutive rules_ of capitalism the book therefore explores the historical origins of these rules their implications for blocking progress toward social justice and how they can be improved *Inside/Outside* Richard Price, 2022-10-15 Beginning with a high schooler mesmerized by a stay on the Navajo and Hopi reservations and running through the founding of a major university

department and the aftermath of a decision a decade later to forego permanent academic affiliations Richard Price's story is told with honesty humor and insight into the inner workings of academic politics from the 1960s to the present Inside Outside relates his life as an anthropologist historian and Caribbeanist from conducting predawn discussions with Maroon historians deep in the rainforest of Suriname to editing the world's first book series on Atlantic history and culture from weekly meetings with Claude Lévi Strauss in Paris to long term collaboration with Sidney Mintz from adventures at sea with Martiniquan fishermen to negotiating the ivory towers of Harvard Yale and Johns Hopkins from explorations of the art of Romare Bearden to number crunching from the Trans Atlantic Slave Trade Database It is a tale of life experiences and often unconventional life decisions inside and outside the academic world Readers look over Price's shoulders and those of his wife and research partner Sally Price as he developed the ideas for some of the twentieth and twenty first century's most important books in the fields of history anthropology and Caribbean studies

Ethnographic Peace Research Gearoid Millar, 2017-11-24 This volume calls for an empirical extension of the local turn within peace research Building on insights from conflict transformation gender studies critical International Relations and Anthropology the contributions critique existing peace research methods as affirming unequal power marginalizing local communities and stripping the peace kept of substantive agency and voice By incorporating scholars from these various fields the volume pushes for more locally grounded ethnographic and potentially participatory approaches While recognizing that any Ethnographic Peace Research EPR agenda must incorporate a variety of methodologies the volume nonetheless paves a clear path for the much needed empirical turn within the local turn literature

The People's Army in the Spanish Civil War Alexander Clifford, 2020-03-20 The author of *Fighting for Spain* delivers a military history focused on three major battles Brunete Belchite and Teruel meticulously researched Historical Novel Society Why did the Spanish Republic lose the Spanish Civil War and could the Republic have won These are the key questions Alexander Clifford addresses in this in depth study of the People's Army and the critical battles of Brunete Belchite and Teruel These battles represented the Republic's best chance of military success but after bitter fighting its forces were beaten back From then on the Republic facing the superior army of Franco and the Nationalists aided by Germany and Italy faced inevitable defeat This tightly focused and perceptive account of the military history of the Republic and its army is fascinating reading As well as providing a broad overview of the strategy and tactics of the People's Army and its Nationalist opponents Alexander Clifford quotes vivid eyewitness testimony to give the reader a direct insight into the experience of the frontline soldiers on both sides during these three critical battles Their recollections reveal to the reader what it was like to fight in the scorching heat of the plains around Brunete in the shattered streets of Belchite still ruined to this day and in the frozen hills of Teruel

The Oxford Handbook of European History, 1914-1945 Nicholas Doumanis, 2016 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history Despite such undeniably progressive developments as the radical expansion of women's

suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today Rural Communism in France, 1920-1939 Laird Boswell, 1998 Drawing on extensive interviews with thirty four surviving Communist militants and an analysis of voter behavior this book focuses on the Party's persistent strength during the interwar period in such rural strongholds as Limousin and Dordogne **After the Civil War** Michael Richards, 2013-08 The Spanish civil war was fought out not only on streets and battlefields from 1936 to 1939 but also in terms of memory and trauma in the decades that followed This fascinating book explores how the memory of Spain's bloody civil war has been contested from 1939 to the present The Francoist Military Trials Peter Anderson, 2009-09-10 In Spain between 1936-1945 the Franco regime carried out one Europe's more brutal but less remembered programs of mass repression Many were murdered by the regime's death squads and in some areas Francoists also subjected up to 15% of the population to summary military trials Here many suffered the death sentence or jail terms up to thirty years Although historians have recognised the staggering scale of the trials they have tended to overlook the mass participation that underpinned them In contrast to the discussion in other European countries little attention has been paid to the wide scale collusion in the killings and incarcerations in Spain Exploring mass complicity in the trials of hundreds of thousands of defeated Republicans following the end of the Spanish Civil War The Francoist Military Trials probes local Francoists' accusations whereby victims were selected for prosecution in military courts It also shows how insubstantial and hostile testimony formed the bedrock of investigations secured convictions and shaped the harsh sentencing practices of Franco's military judges Using civil court records it also documents how grassroots Francoists continued harassing Republicans for many years after they emerged from prison Challenging the popularly prevalent view that the Franco regime imposed a police state upon a passive Spanish society the evidence Anderson uncovers here illustrates that local state officials and members of the regime's support base together forged a powerful repressive system that allowed them to wage war on elements of their own society to a greater extent than perhaps even the Nazis managed against their own population **Communities of Grain** Victor V. Magagna, 1991 As an extended

essay on an important theme of comparative history this is an impressive book By highlighting the irreducible particularities of rural communities in the past Magagna has written a book deeply informed by historical consciousness as well as contemporary social theory *Journal of Social History* **The European Studies Journal** ,1989 **Between Two Armies in the Ixil Towns of Guatemala** David Stoll,1993 How will patterns of human interaction with the earth s eco system impact on biodiversity loss over the long term not in the next ten or even fifty years but on the vast temporal scale be dealt with by earth scientists This volume brings together data from population biology community ecology comparative biology and paleontology to answer this question Democracy, Trade Unions and Political Violence in Spain Richard Purkiss,2011 Drawing on a range of previously underused primary sources this title shows that not only was Valencia a hugely important source of anarchist support but that the local movement was far more radical than has previously been thought **The Politics and Ethics of the Just Price** Peter Luetchford,Giovanni Orlando,2019-06-19 Comprising eight case studies from around the world this volume investigates the social political and ethical implications of markets through the specific lens of prices Drawing on the most recent scholarship in economic anthropology it represents the first systematic attempt to address ethnographically the ancient debate on the just price **The Future of Revolutions** John Foran,2003 The 20th Century was pre eminently an age of revolutions in Russia China Cuba and elsewhere that fundamentally transformed the nature of politics and social arrangements As we enter a new century has it got harder for revolutions to occur in the new unipolar globalized world Here John Foran asks is the era of revolution over if so why and if not what might the revolutions of the future **Carnival and Culture** David D. Gilmore,1998-01-01 An exploration of the meanings of the Andalusian carnival focusing in particular on the songs or coplas The author offers translations of many of these carnival productions and contends that they are less about revolution or politics than about the ambivalence of all human feeling **Coming of the Spanish Civil War** Paul Preston,2003-09-02 This classic text is made newly available in a substantially revised and updated second edition
