Applying Ibn Khaldūn Syed Farid Alatas, 2014-06-05 The writings of Ibn Khald n particularly the Muqaddimah Prolegomenon have rightly been regarded as being sociological in nature For this reason Ibn Khald n has been widely

regarded as the founder of sociology or at least a precursor of modern sociology While he was given this recognition however few works went beyond proclaiming him as a founder or precursor to the systematic application of his theoretical perspective to specific historical and contemporary aspects of Muslim societies in North Africa and the Middle East The continuing presence of Eurocentrism in the social sciences has not helped in this regard it often stands in the way of the consideration of non Western sources of theories and concepts This book provides an overview of Ibn Khald n and his sociology discusses reasons for his marginality and suggests ways to bring Ibn Khald n into the mainstream through the systematic application of his theory It moves beyond works that simply state that Ibn Khald n was a founder of sociology or provide descriptive accounts of his works Instead it systematically applies Khald n s theoretical perspective to specific historical aspects of Muslim societies in North Africa and the Middle East successfully integrating concepts and frameworks from Khald nian sociology into modern social science theories Applying Ibn Khald n will be of interest to students and scholars of sociology and social theory

The Art of Jihad Malik Mufti, 2019-10-01 Identifies and traces the evolution of a forgotten realist tradition in medieval Islamic political thought and considers the prospects for its revival in the context of the contemporary Middle East Now all but forgotten there exists within medieval Islamic political thought a coherent realist tradition analogous to its Western counterpart In *The Art of Jihad* Malik Mufti begins by analyzing contemporary debates on jihad designed to highlight the lacuna occupied by realism in other cultures He explicates the features of medieval Islamic realism those it shares with realism everywhere a focus on power for example or the ubiquity of human conflict but also those features that are distinctive its insistence on the political centrality of religion its rejection of scientific certainty its valorization of hierarchy and its adherence to empire as the optimal ethico political framework These features are fleshed out through the writings of medieval political thinkers such as Ibn al Muqaffa al Jahiz and the anonymous author of a seminal military manual as well as political philosophers such as Ibn Rushd and Ibn Khaldun Finally Mufti explores the prospects for a revival of Islamic realism in the context of the political and intellectual upheavals currently besetting the Middle East There are few more important themes in Islamic political thought than the problem and status of jihad Despite the great richness of the Islamic tradition it is widely recognized that less progress has been made than one might hope in contending in a fruitful way with this phenomenon This book is one of those rare works that offers a new way of looking at the matter Joshua Parens author of *An Islamic Philosophy of Virtuous Religions* Introducing Alfarabi

Black-Arab Encounters in Literature and Film Touria Khannous, 2021-08-27 This book investigates how representations of Black Africans have been negotiated over time in Arabic literature and film The book offers direct readings of a representative selection of primary texts shedding light on the divergent ways these authors understood race across different genres including pre Islamic classical poetry polemical essays travel narratives novels and films Starting with the first recognized Black Arab poet Antara Ibn Shaddad 580 C E and extending right up to the present day the works examined illuminate the changes in consciousness that attended Black

Africans as they negotiated their position in Arab society In a twist to Edward Said's Orientalism the book argues that scholars in the Middle East and North Africa generated a hierarchical representational discourse themselves one equally predicated on the Self/Other binary However it also demonstrates that Arab racial discourse is not a linear rhetoric but changes according to history political circumstances and ideologies such as tribal politics the Shu'ubiyya movement nationalism and imperialism Blacks and Arabs have had tangled relationships that are based not only on race but also on kinship and solidarity due to trade and other types of connections Challenging fundamental assumptions of Black Diaspora studies and postcolonial studies this book will be of interest to scholars of the African diaspora Arabic literature Middle East studies and critical race studies

The Hadrami Diaspora Leif O. Manger, 2010 The Hadramis of South Yemen and the emergence of their diasporic communities throughout the Indian Ocean region are an intriguing facet of the history of this region's migratory patterns In the early centuries of migration the Yemeni or Hadrami traveler was both a trader and a religious missionary making the migrant community both a trade diaspora and a religious diaspora This tradition has continued as Hadramis around the world have been linked to networks of extremist Islamic inspired movements Osama bin Laden leader of Al Qaeda and descendant of a prominent Hadrami family as the most infamous example However communities of Hadramis living outside Yemen are not homogenous The author expertly elucidates the complexity of the diasporic process showing how it contrasts with the conventional understanding of the Hadrami diaspora as an unchanging society with predefined cultural characteristics originating in the homeland Exploring ethnic social and religious aspects the author offers a deepened understanding of links between Yemen and Indian Ocean regions including India Southeast Asia and the Horn of Africa and the emerging international community of Muslims
