Sociocultural Theory in Anthropology Merwyn S. Garbarino,1983-06-01 This useful resource is designed to serve as a statement in brief compass of the major developments in anthropological theory rendered in a historical perspective Intended as an organizing framework this book presents all theoretical viewpoints fairly concisely and simply *Readings for A History of Anthropological Theory* Paul A. Erickson,Liam Donat Murphy,2010-01-01 This comprehensive anthology presents 40 readings that are critical to an understanding of anthropological theory and the development of anthropology as an academic discipline The readings have broad anthropological appeal emphasizing social and cultural anthropology The third edition has been completely revised throughout and organized to work more closely alongside the companion overview text *A History of Anthropological Theory* It includes six new readings as well as two original essays written by contemporary anthropologists on Why Theory Matters These new essays help ground the more abstract readings in the collection The glossary has been significantly expanded and the discussion questions have been revised The result is a volume that offers not only a strong foundation in the history of the discipline but also a good overview of developments in twentieth and twenty first century anthropological theory including feminist anthropology postmodernity medical anthropology globalization postcolonialism and public anthropology **Cultural Anthropology** Stephen A. Grunlan,Marvin K. Mayers,2016-11-22 This volume on cultural anthropology presents a Christian perspective for Bible school students of conservative evangelical backgrounds The hope is that a sympathetic approach to the problems of cultural diversity throughout the world will help young people overcome typical North American cultural biases and bring understanding and appreciation for the diversities of behavior and thought that exist in a culturally heterogeneous world Grunlan and Mayers take the position of functional creationism and though they discuss some of the problems implied in traditional interpretations of the age of the world and especially of the creation of the human race they do not attempt to deal with either physical anthropology or the origins of man They do however attempt to deal meaningfully with the problems posed by biblical absolutism and cultural relativism and their practice Concluding chapters with a series of thought provoking questions should prove to be of real help to both the professional and nonprofessional teacher of anthropology *A History of Anthropological Theory, Fifth Edition* Paul A. Erickson,Liam D. Murphy,2017-01-01 An accessible and engaging overview of anthropological theory that provides a comprehensive history from antiquity through to the twenty first century The fifth edition has been revised throughout with substantial updates to the Feminism and Anthropology section including more on Gender and Sexuality and with a new section on Anthropologies of the Digital Age Once again *A History of Anthropological Theory* will be published simultaneously with the accompanying reader mirroring these changes in the selection of readings so they can easily be used together in the classroom Additional biographical information about some of theorists has been added to help students *A History of Anthropological Theory, Fourth Edition* Paul A. Erickson,Liam D. Murphy,2013-04-26 In the latest edition of their popular

overview text Erickson and Murphy continue to provide a comprehensive affordable and accessible introduction to anthropological theory from antiquity to the present A new section on twenty first century anthropological theory has been added with more coverage given to postcolonialism non Western anthropology and public anthropology The book has also been redesigned to be more visually and pedagogically engaging Used on its own or paired with the companion volume *Readings for a History of Anthropological Theory* Fourth Edition this reader offers a flexible and highly useful resource for the undergraduate anthropology classroom For additional resources visit the Teaching Theory page at www.utpteachingculture.com **Readings for a History of Anthropological Theory, Fifth Edition** Liam D.

Murphy,2016-10-19 The fifth edition of this bestselling reader builds a strong foundation in both classical and contemporary theory with a sharpened focus on gender and anthropology and the anthropology of new media and technology Short introductions and key terms accompany every reading and light annotations have been added to aid students in reading original articles Used on its own or together with *A History of Anthropological Theory* Fifth Edition this anthology offers a flexible and unrivalled introduction to anthropological theory that reflects not only the history but also the changing nature of the discipline today **Readings for a History of Anthropological Theory, Fourth Edition** Paul A. Carmack,2013-10-11 *Anthropology and Global History* explains the origin and development of human societies and cultures from their earliest beginnings to the present utilizing an anthropological lens but also drawing from sociology economics political science history and ecological and religious studies Carmack reconceptualizes world history from a global

perspective by employing the expansive concepts of world systems and civilizations and by paying deeper attention to the role of tribal and native peoples within this history Rather than concentrating on the minute details of specific great events in global history he shifts our focus to the broad social and cultural contexts in which they occurred Carmack traces the emergence of ancient kingdoms and the characteristics of pre modern empires as well as the processes by which the modern world has become integrated and transformed The book addresses Western civilization as well as comparative processes which have unfolded in Asia the Middle East Latin America and sub Saharan Africa Vignettes opening each chapter and case studies integrated throughout the text illustrate the numerous and often extremely complex historical processes which have operated through time and across local regional and global settings

The Making of Anthropology Jacob Pandian, Susan Parman, 2004 This book offers an interpretation of anthropology as a discourse that contrasts the western self and the non western other and shows that the organizing principle of this discourse was the Judeo Christian episteme of the Other in Us that the Christian Church Fathers developed to define why the pagan others were endowed with negative ungodly attributes of humanity It is pointed out that the anthropological application of this episteme to represent and explain the colonized non western others resulted in the emergence of eurocentric hierarchical models of humanity and that although these models of humanity were largely replaced by pluralistic models in the late 20 century anthropology has continued to be linked with the episteme of the other in us Dust jacket

Rodríguez-Plata,2005-11-16 Lydia Cabrera 1900 1991 an upper class white Cuban intellectual spent many years traveling through Cuba collecting oral histories stories and music from Cubans of African descent Her work is commonly viewed as an extension of the work of her famous brother in law Cuban anthropologist Fernando Ortiz who initiated the study of Afro Cubans and the concept of transculturation Here Edna Rodríguez Manguel challenges this perspective proposing that Cabrera s work offers an alternative to the hegemonizing national myth of Cuba articulated by Ortiz and others Rodríguez Manguel examines Cabrera s ethnographic essays and short stories in context By blurring fact and fiction anthropology and literature Cabrera defied the scientific discourse used by other anthropologists She wrote of Afro Cubans not as objects but as subjects and in her writings whiteness instead of blackness is gazed upon as the other As Rodríguez Manguel demonstrates Cabrera rewrote the history of Cuba and its culture through imaginative means calling into question the empirical basis of anthropology and placing Afro Cuban contributions at the center of the literature that describes the Cuban nation and its national identity The Dialectical Path of Law Charles Lincoln,2021-10-13 This book aims to contribute a

single idea a new way to interpret legal decisions in any field of law and in any capacity of interpreting law through a theory called legal dialects This theory of the dialectical path of law uses the Hegelian dialectic which compares and contrasts two ideas showing how they are concurrently the same but separate without the original ideas losing their inherent and distinctive properties what in Hegelian terms is referred to as the sublation To demonstrate this theory Lincoln takes different aspects of international tax law and corporate law two fields that seem entirely contradictory and shows how they are similar without disregarding their key theoretical properties Primarily focusing on the technical rules of the Organisation for Economic Co operation and Development OECD approach to international tax law and the United States approach to tax law Lincoln shows that both engage in the Hegelian dialectical approach to law **The Matthean Community and the**

Between the 1870s and 1930s American social reformers working closely with the US government transformed sexual vice into an international political and humanitarian concern. As these activists worked to eradicate prostitution and trafficking, they promoted sexual self control for both men and women as a cornerstone of civilization and a basis of American exceptionalism. *Empire of Purity* traces the history of these efforts, showing how the policing and penalization of sexuality was used to justify American interventions around the world. Eva Payne describes how American reformers successfully pushed for international anti trafficking agreements that mirrored US laws calling for states to criminalize prostitution and restrict migration, and harming the very women they claimed to protect. She argues that Americans' ambitions to reshape global sexual morality and law advanced an ideology of racial hierarchy that viewed women of color, immigrants, and sexual minorities as dangerous vectors of disease. Payne tells the stories of the sex workers themselves, revealing how these women's experiences defy the dichotomies that have shaped American cultural and legal conceptions of prostitution and trafficking, such as choice and coercion, free and unfree labor, and white sexual innocence and the assumed depravity of nonwhites. Drawing on archives in Europe, the United States, and Latin America, *Empire of Purity* ties the war on sexual vice to American imperial ambitions and a politicization of sexuality that continues to govern both domestic and international policy today.

Public Relations Research Annual Larissa A. Grunig, James E. Grunig, 2020-07-24 The purpose of this second volume is to challenge and extend the field of research in public relations. Taking a proactive approach to creating a stable yet not stagnant annual, the editors directly solicited chapters on exciting and intriguing subjects. Assuming some prior knowledge, interests, and commitment of their readers, the editors hope that each chapter's report on original research provides enough context for understanding, even if the area of inquiry is new to the readers. *Public Relations Research Annual Volume 2* continues to advance within the discipline, beyond anecdotes, to practical theories and research. Educators, practitioners, and researchers will find this annual's presentations and critiques useful in creating a systematic framework for their own endeavors.
