Sociology And The Demystification Of The Modern World:

Sociology and the Demystification of the Modern World (RLE Social Theory) John Rex, 2014-08-21 Professor Rex's controversial book concerns not only those who are professional sociologists but all thinking people who live in the modern world. One of the objects of sociology is to give power to the people to make a contribution to the understanding of political problems. Rex writes from a deep conviction that sociology is a subject whose insights should be made available to the great mass of the people so that they may liberate themselves from the mystification of social reality that is continually and routinely presented to them through the media by those who exercise power and by those who have influence. The book is dedicated to St Augustine and Franz Fanon both of whom Rex points out were conscious of living in an age which was embarking on a new barbarism but had the courage to use their intellects to help understand the possibility of a better future. Rex continues in this tradition and his main preoccupations are reflected in the present book. It includes a discussion of the problem of social knowledge, an analysis of the basic problems of theory building and with the aid of concepts derived from Max Weber an attempt to understand the major problems of the first, second and third worlds. The author also looks at social structures and moral perspectives and discusses the vocation of a sociologist in a collapsing civilisation. The book is certain to stimulate debate both in sociological and political fields and more generally and is also a serious contribution to the discussion of the methodology and purposes of sociology.

Justice as Sanctuary
Herman Bianchi, 2010-10-01 While many in the criminal justice system would agree that the present punitive system of crime control is ineffective, unjust and malevolent, there is little enthusiasm for talk about reforming the system or for a

reexamination of its fundamental premises In Justice as Sanctuary noted Dutch criminologist Herman Bianchi details a new approach to crime control one that promises to reanimate debate and initiate real change He explores the cultural and religious roots of the current punitive system in search of new perspectives that can help create a more just and effective one In the ancient Hebrew notion of tzedeka justice or righteousness Bianchi finds the inspiration for a new model of crime control based on conflict resolution rather than punishment Because so many feel alienated from the criminal justice system he argues for new procedures that will enable people to experience law as supportive of their lives and their social interactions To complement the current punitive system Bianchi proposes a system that provides victims and offenders a chance to resolve their conflicts and offers them the opportunity to reach non punitive systems By incorporating the concept of liability Bianchi s model returns to offenders the responsibility for their acts while providing an active legal role for the victims of crime It adapts structures and models from civil and labor law for conflict resolution of nonviolent crimes and in the case of violent crimes and in the case of violent crimes proposes the creation of special sanctuaries that would protect the public while making it possible to effect true justice Startling in its implications Bianchi s system is not a utopian dream but a carefully considered set of proposals that could be acted upon today *A Research Agenda for Place Branding* Dominic Medway,Gary Warnaby,John Byrom,2021-04-30 This cutting edge Research Agenda for Place Branding explores ideas and debates that inform a refreshing take on the future of place branding and marketing It argues that we are at a juncture where the logical and sensible step is to push the reset button on such activity and fully reconsider its purpose and goals Ecology, Society and the Quality of Social Life William Vincent D'Antonio,Masamichi S. Lawson, 2006 First Published in 2006 Routledge is an imprint of Taylor Francis an informa company *Minorities in the Open Society* Geoff Dench, 2022-11-16 Minorities in the Open Society 1986 challenges optimistic assumptions regarding race relations in western nations namely that social justice will prevail without much effort It examines the interests behind public affirmations of commitment to integration and presents a range of contemporary and historical material which illustrate the double binds created for minorities by the dominant communities who offer equality with one hand while obstructing it with the other Individual members of minorities may be given the opportunity to achieve social prominence but only to carry out special jobs on behalf of the majority **Sociologists on Sociology** Robert Mullan, 2022-02-23 Originally published in 1987 this edition in 1996 Sociologists on Sociology is a unique and sometimes controversial account of the development disputes and the future of sociology as seen through the eyes of eleven of the world's leading sociologists at the time Consisting of interviews with Anthony Giddens Robert K Merton Howard Becker Peter Townsend Ralf Dahrendorf Peter Worsley Stuart Hall John Rex Michael Mann Laurie Taylor and Ann Oakley the book explores such crucial issues as the nature of deviance the scientific status of sociology the relationship of Marxism and sociology the contours of race and class feminism relevance of ethnomethodology and the procedures of participant observation The contributions of such figures as Goffman Mills Parsons Weber and Foucault are assessed and in clear and concise language the contributors discuss their own theoretical interests and empirical work in the field Students and practitioners of the social sciences will find the book a fascinating and a uniquely direct insight into the thoughts of sociology's leading figures and a remarkable cumulative assessment of the state of the discipline itself *The Privatised World* Arthur Brittan, 2024-10-31 Unemployment and the economic crisis are the brutal facts of life in the everyday world around us For many the only retreat from this is to the privatized world of the suburbs middle class housing estates and high rise developments a separate world in which the individual often feels entrapped and politically impotent In The Privatised World first published in 1978 Arthur Brittan argues that the experience of privatisation in contemporary society is reflected in sociology by the proliferation of social theories which appear to be obsessed with the self and consciousness Carefully

avoiding the pitfalls of a merely autobiographical response he analyses the phenomenon and concludes that it is precisely because the privatised world does dominate the consciousness of so many people in Western societies that it is difficult to dismiss the partial and pessimistic theories which so many social theorists have employed to explain their predicament This book will be of interest to students and researchers of sociology and social psychology *The Ideology of Max Weber* E. B. F. Midgley, 1983 This book offers a critical evaluation of Weber's ideology of value choice The author establishes Weber's ideology and then considers it in light of his sociological methodology He also weighs the critical assessments of Weber made by Vogelin Strauss Aron Gouldner Rex and Mommsen and examines Weber's misperceptions concerning natural law and moral and political philosophy **Ecology, World Resources and the Quality of Social Life** William V. D'Antonio, Masamichi Sasaki, Yoshio Yonebayashi, 2022-10-31 The twelve contributors to this volume from ten different nations are world renowned sociologists who examine problems of ecology and world resources as they affect the quality of social life Three different perspectives are employed high technology industrialization and the problems of development restructuring and alternatives of development **Critical Criminology (Routledge Revivals)** Ian Taylor, Paul Walton, Jock Young, 2013-01-11 First published in 1975 this collection of essays expands upon the themes and ideas developed in the editors previous work the visionary and groundbreaking text *The New Criminology* Directed at orthodox criminology this is a partisan work written by a group of criminologists committed to a social transformation a transformation to a society that does not criminalize deviance Included are American contributions particularly from the School of Criminology at Berkeley represented by Hermann and Julia Schwendinger and Tony Platt together with essays by Richard Quinney and William Chambliss From Britain Geoff Pearson considers deviancy theory as misfit sociology and Paul Hirst attacks deviancy theory from an Althusserian Marxist position The editors contribute a detailed introductory essay extending the position developed in *The New Criminology* and two other pieces which attempt to continue the task of translating criminology from its traditional correctionalist stance to a commitment to socialist diversity and a crime free set of social arrangements Essays on the History of British Sociological Research Martin Bulmer, 1985-02-07 Traces the history of British sociology and empirical social research over the past hundred years Concludes with a discussion of the applications of the research including the use of social surveys for policymaking and the success of social science in predicting the future
