A. A. Kennedy, 2017-03-10

Ours is an age of new things. In no province is this more apparent than in that of New Testament interpretation. And no section of the New Testament continues to stimulate more revolutionary theories than the Pauline Epistles. It is true that discussions of authenticity have lost the importance assigned to them by scholars of the earlier time like Baur, or by later critical investigators like Van Manen. The emphasis has been shifted. The primary question at issue is the essential nature of St. Paul's view of the Christian faith. From Chapter One Death Rites & Ancestor Worship Dr. Reba Lahiri, Death is the ultimate truth of life. All religions consider birth and death in the same package and have given importance to death rites and ancestor worship. With death, the non-existence begins. It is something common in all religions. The central concern of all philosophies is not life but death. Man knows that life is finite and the future beyond life is unknown. So it is natural to ask: is there any life after death? If yes, it is certainly a life without a body. Death is the end of physical existence, but it is not the end of a person. So death rites and ancestor worship arose in all societies. Ancestor worship is the belief that at the death of an individual, his/her social personality is not erased but rather transformed. The basis of ancestor worship lies in this belief, found in all human societies. It also creates a distance between the living and the dead while commemorating the dead and paying respect to them. *Cicero* Raphael Woolf, 2015-02-11

Cicero's philosophical works introduced Latin audiences to the ideas of the Stoics, Epicureans, and other schools and figures of the post-Aristotelian period, thus influencing the transmission of those ideas through later history. While Cicero's value as documentary evidence for the Hellenistic schools is unquestioned, Cicero: The Philosophy of a Roman Sceptic explores his writings as works of philosophy that do more than simply synthesize the thought of others but instead offer a unique viewpoint of their own. In this volume, Raphael Woolf describes and evaluates Cicero's philosophical achievements, paying particular attention to his relation to those philosophers he draws upon in his works: his Romanizing of Greek philosophy and his own sceptical and dialectical outlook. The volume aims, using the best tools of philosophical, philological, and historical

analysis to do Cicero justice as a distinctive philosophical voice Situating Cicero's work in its historical and political context this volume provides a detailed analysis of the thought of one of the finest orators and writers of the Roman period Written in an accessible and engaging style Cicero The Philosophy of a Roman Sceptic is a key resource for those interested in Cicero's role in shaping Classical philosophy

Korean Shamanist Ritual Daniel Kister, 2006 During his years of teaching literature and drama at Sogang University in Seoul the author became attracted to Korean shamanist ritual or kut as a sophisticated form of drama that has power to transform the daily realities of participants lives into events of spiritual significance Korean shamanism centers at least as much on the ritual dramatization of symbolic signs and on the community's belief in these signs as on the person of the shaman or mudang Without intending to undermine the importance of the mudang this study focuses on the public dramatization of these symbols It investigates the dynamics by which kut transform ordinary realities into freeing harmonizing objectifying signs of contract with the gods and spirits who are believed to make their presence known at significant moments of life The author was one of the recipients of the award for excellence in shamanist research presented by the International Society for Shamanistic Research in 2004

State and Nature Peter Adamson, Christof Rapp, 2021-04-19 A much maligned feature of ancient and medieval political thought is its tendency to appeal to nature to establish norms for human communities From Aristotle's claim that humans are political animals to Aquinas invocation of natural law it may seem that pre modern philosophers were all too ready to assume that whatever is natural is good and that just political arrangements must somehow be natural The papers in this collection show that this assumption is at best too crude From very early for instance in the ancient sophists contrast between nomos and physis there was recognition that political arrangements may be precisely artificial not natural and it may be questioned whether even such supposed naturalists as Aristotle in fact adopt the quick inference from natural to good The papers in this volume trace the complex interrelations between nature and such concepts as law legitimacy and justice covering a wide historical range stretching from Plato and the Sophists to Aristotle Hellenistic philosophy Cicero the Neoplatonists Plotinus and Porphyry ancient Christian thinkers and philosophers of both the Islamic and Christian Middle Ages

The Archaeology of Late Antique 'Paganism', 2011-06-22 There is no agreement over how to name the pagan cults of late antiquity Clearly they were more diverse than this Christian label suggests but also exhibited tendencies towards monotheism and internal

changes which makes it difficult to describe them as traditional cults This volume which includes two extensive bibliographic essays considers the decline of urban temples alongside the varying evolution of other foci of cult practice and identity The papers reveal great regional diversity in the development of late antique paganism and suggest that the time has come to abandon a single compelling narrative of the end of the temples based on legal sources and literary accounts Although temple destructions are attested in some regions the end of paganism was both gradual and untraumatic with more co-existence with Christianity than one might have expected Contributors are Javier Arce B atrice Caseau Georgios Deligiannakis Koen Demarsin Jitse H F Dijkstra Demetrios Eliopoulos James Gerrard Penelope J Goodman David Gwynn Luke Lavan Michael Mulryan Helen G Saradi Eberhard W Sauer Gareth Sears Peter Talloen Peter Van Nuffelen and Lies Vercauteren
