The Myth/truth of God Incarnate Durstan R. McDonald, 1979 **John Hick's Pluralist Philosophy of World Religions**

Paul Rhodes Eddy, 2020-08-26 This title was first published in 2002 One of the most fascinating and controversial interpretations of religious diversity is religious pluralism According to John Hick's model of religious pluralism all the world's great religions are equally valid ways of understanding and responding to the ultimate spiritual reality This book offers an exposition of and critical response to John Hick's model Introducing the various interpretations of religious diversity being discussed today this book presents constructive suggestions as to how things could be further developed to offer a more accurate less confusing presentation of the various options in theology of religions The standard threefold typology of responses to religious diversity exclusivism inclusivism and pluralism are explained and defended Hick's pluralist interpretation of religious diversity is traced culminating in a critical assessment of Hick's pluralistic model and an up to date summary of a variety of critiques directed toward Hick's proposal Paul Rhodes Eddy concludes that Hick's present model is ultimately unsuccessful in retaining both of his long cherished goals a robust religious realism and a consistent religious pluralism whilst overcoming the most difficult problem for the pluralist the fact that the world's religions understand the divine in often contradictory ways *Making Sense of Religion* Richard L. Corliss, 2014-11-05 We live in a world with many religious traditions People in these traditions believe that their religious view of life embodies what is important true and real Their religious views of life however differ significantly They can't all capture equally what is important true and real This book seeks to unravel this dilemma It rejects two approaches to address the problem First the view that one religious view of life is the absolute unique product of revelation and second the view that the foundation of all religious views of life is the same that they are all the product of religious experiences of the same religious ultimate This ultimate is sometimes called Being Itself sometimes the One Under the second view the differences between them are considered cultural *Making Sense of Religion* shows us that religious views of life are often radically different and these differences are not just cultural but substantive This book explores the hidden logic beneath the surface of religious views of life that holds them together and helps explain their differences What follows is a way presenting comparing defending and criticizing religious views of life This is a type of theology *Behold the Man!* Marion Lars Hendrickson, 1998 John Macquarrie explicates an anthropological Christology Wolfhart Pannenberg holds to a Christological anthropology Paradoxically the two together provide a fuller understanding of both Christology and anthropology The anthropological field upon which this book compares the two theologians thought is essential to explicate a fully human Jesus to human beings and what this fully human Jesus reveals about God With the anthropological setting in common Macquarrie and Pannenberg pursue their Christology in such very different ways that they provide a compelling invitation for comparison *The Divine Trinity* David Brown, 2012-01-09 This

book the first serious analysis of the doctrine of the Trinity for many years presents a defense against the conservative treatment of the Trinity as an impenetrable mystery and against the radical position that the doctrine is incoherent and therefore unacceptable Brown favors the founding of a new discipline of philosophical theology or the widening of the horizons of the philosophy of religion to apply more widely the type of penetration of theology by philosophy that he exemplifies in his treatment of the Trinity He argues for belief in an interventionist God theism rather than deism and contends that biblical criticism and historical research do not imply the abandonment of Christian belief since the historical original should not be equated with theological truth Although historical difficulties must prevent any literal acceptance of the Gospel accounts in toto the true Christ can be disentangled from the historical Jesus by philosophical method Wide ranging in scope rigorous and candid in argument Brown s work will prove of interest to educated Christian laypersons and others beyond the boundaries of professional theology and philosophy of religion Perhaps most provocative is Brown s assertion that the Resurrection must be accepted as a literally true visionary experience and that anyone who accepts it must be prepared to take seriously other visionary experiences for example visions of the Virgin Mary even if he rejects them in the end It is certainly an astonishing truth that God should be so interested in a being of such vastly inferior powers as man says the author But that clearly must be the implication of the doctrine of the Trinity To have reached this conclusion by means of philosophical argument is to have taken a major step toward the complete penetration of theology by philosophy that Brown calls for

The Living Church ,1977-07 **The Study of Anglicanism** John E. Booty,Stephen Sykes,Jonathan Knight,1998-01-01 In this authoritative volume thirty one of the world s leading Anglican scholars present the first sustained and thorough account of the history and ethos of the Churches of the Anglican Communion from the Anglican reform of the sixteenth century to its global witness today Thoroughly revised augmented and updated this new edition of The Study of Anglicanism offers a comprehensive interpretation of the character of Anglicanism including its history theology worship standards and practices and its future prospects worldwide A fascinating and unique work it remains the one indispensable key to this rich and pluriform heritage for both the general reader and the student

An Anthropological Approach to Theology Heather Meacock,2000-10-11 Heather Meacock in An Anthropological Approach to Theology has compiled an argument based upon the pluralist beliefs of Professor John Hick for the revision of traditional Christianity Hick s pluralist understanding of the theology of religions is influenced by the philosophy of Kant and his theories about society s moral awareness Meacock methodically explicates Hick s views while refuting his critics She claims that some Christian doctrines such as the Incarnation lose meaning when interpreted literally and that Christianity itself must begin to change its self perception to that of one among many world religions This book will interest students of religion philosophy as well as anthropologists interested in religion

Spiritual Titanism Nicholas F. Gier,2012-03-27 This work in comparative philosophy uses the concept of Titanism to critique certain trends in both Eastern and Western philosophy Titanism is an extreme form

of humanism in which human beings take on divine attributes and prerogatives The author finds the most explicit forms of spiritual Titanism in the Jaina Samkhya and Yoga traditions where yogis claim powers and knowledge that in the West are only attributed to God These philosophies are also radically dualistic and liberation involves a complete transcendence of the body society and nature Five types of spiritual Titanism are identified and in addition to this typology a heuristic based on Nietzsche's three metamorphoses of camel lion and child is offered The book determines that answers to spiritual Titanism begin not only with the Hindu Goddess religion but also are found in Buddhism Confucianism and Daoism especially Zen Buddhism and Confucianism
