The Naked City

Lauren Gardner

The Naked City:

The Naked City Malvin Wald, Albert Maltz, 1979 This is the first film shot by a Hollywood producer to make the island of Manhattan into a film studio Shot as a semi documentary at 107 locations throughout the city Malvin Wald Albert Maltz and Jules Dassin skillfully used the city as protagonist and intensified the credibility of the story and its human characters Based on unsolved cases he found in New York police files Malvin Wald's suspenseful tale of murder theft and conspiracy was nominated for an Academy Award as Best Story in 1949 The cinematographer William Daniels and the film editor Paul Weatherwax won Oscars for their work Asked to create a role for James Stewart as the detective Wald found that the research he had done and his personal knowledge of the detectives and their methods made that impossible His police lieutenant emerged as a sixty five year old veteran with an Irish brogue and Barry Fitzgerald was given his now classic role The Naked City established a film style that is still used It was the source of the successful television series of the same title which in turn gave birth to a rash of imitations Like the previous books in the Screenplay Library series the script published here is the original shooting script

The Naked City Ralph Willett, 1996 Through a close analysis of films as well as popular fiction Ralph Willett explores the imaginative geography of the modern American city a place of opportunity and desire as well as murder and lawlessness

Naked City Sharon Zukin, 2009-12-18 As cities have gentrified educated urbanites have come to prize what they regard as authentic urban life aging buildings art galleries small boutiques upscale food markets neighborhood old timers funky ethnic restaurants and old family owned shops These signify a place's authenticity in contrast to the bland standardization of the suburbs and exurbs But as Sharon Zukin shows in *Naked City* the rapid and pervasive demand for authenticity evident in escalating real estate prices expensive stores and closely monitored urban streetscapes has helped drive out the very people who first lent a neighborhood its authentic aura immigrants the working class and artists Zukin traces this economic and social evolution in six archetypal New York areas Williamsburg Harlem the East Village Union Square Red Hook and the city's community gardens and travels to both the city's first IKEA store and the World Trade Center site She shows that for followers of Jane Jacobs this transformation is a perversion of what was supposed to happen Indeed *Naked City* is a sobering update of Jacobs' legendary 1961 book *The Death and Life of Great American Cities* Like Jacobs Zukin looks at what gives neighborhoods a sense of place but argues that over time the emphasis on neighborhood distinctiveness has become a tool of economic elites to drive up real estate values and effectively force out the neighborhood characters that Jacobs so evocatively idealized

The Situationist City Simon Sadler, 1999-08-18 Simon Sadler searches for the Situationist City among the detritus of tracts manifestos and works of art that the Situationist International left behind From 1957 to 1972 the artistic and political movement known as the Situationist International SI worked aggressively to subvert the conservative ideology of the Western world The movement's broadside attack on establishment institutions and values left its mark upon the libertarian left the counterculture the revolutionary events of

1968 and more recent phenomena from punk to postmodernism But over time it tended to obscure Situationism's own founding principles In this book Simon Sadler investigates the artistic architectural and cultural theories that were once the foundations of Situationist thought particularly as they applied to the form of the modern city According to the Situationists the benign professionalism of architecture and design had led to a sterilization of the world that threatened to wipe out any sense of spontaneity or playfulness The Situationists hankered after the pioneer spirit of the modernist period when new ideas such as those of Marx Freud and Nietzsche still felt fresh and vital By the late fifties movements such as British and American Pop Art and French Nouveau Réalisme had become intensely interested in everyday life space and mass culture The SI aimed to convert this interest into a revolution at the level of the city itself Their principle for the reorganization of cities was simple and seductive let the citizens themselves decide what spaces and architecture they want to live in and how they wish to live in them This would instantly undermine the powers of state bureaucracy capital and imperialism thereby revolutionizing people's everyday lives Simon Sadler searches for the Situationist City among the detritus of tracts manifestos and works of art that the SI left behind The book is divided into three parts The first *The Naked City* outlines the Situationist critique of the urban environment as it then existed The second *Formulary for a New Urbanism* examines Situationist principles for the city and for city living The third *A New Babylon* describes actual designs proposed for a Situationist City *The Naked City*, 1961 **Guy Debord and the Situationist International** Tom
