The Nazi Party A Social Profile Of Members And Leaders 1919 1945:

The Nazi Party Michael H. Kater, 1985 Who filled the ranks of the most infamous political party in history This book is an in depth study of the various groups that made up the membership and the leadership of the Nazi party in Germany from its beginnings to its destruction

The Nazi Party: a Social Profile of Members and Leaders 1919-1945 Michael Kater, 2016-10-16 Who filled the ranks of the most infamous political party in history This book is an in depth study of the various groups that made up the membership and the leadership of the Nazi party in Germany from its beginnings to its destruction First published in 1983 it was the first full scale description of who the Nazis were their history and their categories of age social class occupation sex and locality Using data from the party s membership cards alongside local and regional party member lists Kater has developed an image of the people behind the infamous name Kater also examines the leadership cadres and depicts the mentality that characterized their actions linking it ultimately with the outcome of the Third Reich Kater reveals a good deal about the general structure of German society in the first half of the twentieth century and the relationship that society bears to the phenomenon of Nazism Its sophisticated methodology a model of its kind will interest those who champion the integration of quantification and literary archival scholarship Praise for Michael H Kater This thoughtful work which combines statistical with traditional methodology on a subject of the greatest importance and difficulty is likely to be the standard book on the composition and leadership of the Nazi party for years to come It is filled with new information and new insights Gerhard L Weinberg University of North Carolina This is the first really complete and accurate picture of the composition of the Nazi movement In scope method and basis Kater s work is unique It will be the definitive study superseding all others and a major contribution to scholarship William Sheridan Allen State University of New York Michael H Kater b 1937 is Professor of History York University Toronto He is one of the world s most respected researchers of the Nazis Born in Germany Kater was raised in Canada He studied at universities in both countries

Hitler's Voice: Organisation & development of the Nazi Party Detlef Mühlberger, 2004 Detlef Mühlberger s work *Hitler s Voice The Volkischer Beobachter 1920 1933* is an important addition to the study of National Socialism In today s scholarship it is difficult to locate a detailed work on National Socialism that does not rely in some way on the *Volkischer Beobachter* it was truly the bullhorn of the party from the time when the National Socialists were no more than a small group of unknowns gathering at the Munich Bürgerbräukeller until they gained power in 1933 Considering the vast amount of literature on National Socialism however it is surprising that until now there have only been shorter articles and two dissertations and not a single comprehensive analysis of the newspaper 1 Mühlberger s translation of articles from the *Volkischer Beobachter* addresses this lacuna He has sifted through eleven years of the paper condensing them into two volumes His first volume gives a chronological account of the development and organization of the party until 1933 while the shorter second volume entitled *Nazi Ideology and Propaganda* examines topical issues such as attacks against the Weimar Republic

racism and attempts by the party to garner support from workers farmers and the German Mittelstand The Social Basis of European Fascist Movements Detlef Mühlberger,2015-10-16 Between 1919 and 1945 most countries in Europe spawned some form of fascism Some have become considerably more notorious than others this book first published in 1987 sets out to analyse the social forces that went into the making of the fascist parties of the major European countries and to show the similarities and differences in their constitution as well as to suggest reasons for their different degrees of penetration and success Few books have surveyed the whole field the team of contributors engaged in the present enterprise offer a systematic and thorough survey of the social characteristics of European fascist movements a subject of central importance to social and political history *The Rise of National Socialism and the Working Classes in Weimar Germany* Conan Fischer,1996 Before seizing power the Nazi movement assembled an exceptionally broad social coalition of activists and supporters Many were working class but there remains considerable disagreement over the precise size and structure of this constituency and still more over its ideology and politics An indispensable work for scholars of interwar Germany and Nazism in general **From Craftsmen to Capitalists** Frederick L. McKittrick,2016-09-01 Politically adrift alienated from Weimar society and fearful of competition from industrial elites and the working class alike the independent artisans of interwar Germany were a particularly receptive audience for National Socialist ideology As Hitler consolidated power they emerged as an important Nazi constituency drawn by the party's rejection of both capitalism and Bolshevism Yet in the years after 1945 the artisan class became one of the pillars of postwar stability thoroughly integrated into German society *From Craftsmen to Capitalists* gives the first account of this astonishing transformation exploring how skilled tradesmen recast their historical traditions and forged alliances with former antagonists to help realize German democratization and recovery **The German Bourgeoisie (Routledge Revivals)** David Blackbourn,Richard J Evans,2014-06-17 First published in 1991 this collection of original studies by British German and American historians examines the whole range of modern German bourgeoisie groups including professional mercantile industrial and financial bourgeoisie and the bourgeois family Drawing on original research the book focuses on the historical evidence as counterpoint to the well known literary accounts of the German bourgeoisie It also discusses bourgeois values as manifested in the cult of local roots and in the widespread practice of duelling Edited by two of the most respected scholars in the field this important reissue will be of value to any students of modern German and European history *Youth in the Fatherless Land* Andrew Donson,2010-04 The first comprehensive history of German youth in the First World War this book investigates the dawn of the great era of mobilizing teenagers and schoolchildren for experiments in state building and extreme political movements like fascism and communism It investigates how German teachers could be legendary for their sarcasm and harsh methods but support the world's most vigorous school reform movement and most extensive network of youth clubs As a result of the war mobilization teachers club leaders and authors of youth literature instilled militarism and nationalism more deeply into young people than before 1914 but in a way

that paradoxically relaxed discipline In *Youth in the Fatherless Land* Andrew Donson details how Germany had far more military youth companies than other nations as well as the world's largest Socialist youth organization which illegally agitated for peace and a proletarian revolution Mass conscription also empowered female youth particularly in Germany's middle class youth movement the only one anywhere that fundamentally pitted itself against adults Donson addresses discourses as well as practices and covers a breadth of topics including crime work sexuality gender family politics recreation novels and magazines social class and everyday life [The Anatomy of Fascism](#) Robert O. Paxton, 2007-12-18

What is fascism By focusing on the concrete what the fascists did rather than what they said the esteemed historian Robert O. Paxton answers this question From the first violent uniformed bands beating up enemies of the state through Mussolini's rise to power to Germany's fascist radicalization in World War II Paxton shows clearly why fascists came to power in some countries and not others and explores whether fascism could exist outside the early twentieth century European setting in which it emerged A deeply intelligent and very readable book Historical analysis at its best *The Economist* *The Anatomy of Fascism* will have a lasting impact on our understanding of modern European history just as Paxton's classic *Vichy France* redefined our vision of World War II Based on a lifetime of research this compelling and important book transforms our knowledge of fascism the major political innovation of the twentieth century and the source of much of its pain **Hitler, Stalin, and Mussolini** Bruce F. Pauley, 2014-09-15 The fourth edition of *Hitler Stalin and Mussolini Totalitarianism in the Twentieth Century* presents an innovative comparison of the origins development and demise of the three forms of totalitarianism that emerged in twentieth century Europe Represents the only book that systematically compares all three infamous dictators of the twentieth century Provides the latest scholarship on the wartime goals of Hitler and Stalin as well as new information on the disintegration of the Soviet empire Compares the early lives of Hitler Stalin and Mussolini their ideologies rise to and consolidation of power and the organization and workings of their dictatorships Features topics organized by themes rather than strictly chronologically Includes a wealth of visual material to support the text as well as a thorough Bibliographical Essay compiled by the author

Recognizing the habit ways to get this book **The Nazi Party A Social Profile Of Members And Leaders 1919 1945** is additionally useful. You have remained in right site to start getting this info. acquire the The Nazi Party A Social Profile Of Members And Leaders 1919 1945 associate that we find the money for here and check out the link.
