The New Frontier For Land Policy Planning And Growth Management In The States:

The New Frontier for Land Policy John Melvin DeGrove, Deborah A. Miness, 1992 **Growth Management in Florida** Timothy S. Chapin, Charles E. Connerly, Harrison T. Higgins, 2017-11-30 Despite its historical significance and its state mandated comprehensive planning approach the Florida growth management experiment has received only piecemeal attention from researchers Drawing together contributions from national experts on land use planning and growth management this volume assesses the outcomes of Florida's approach for managing growth As Florida's approach is the most detailed system for managing growth in the United States this book will be of great value to planners The strengths and weaknesses of the state's approach are identified providing insights into how to manage land use change in a state continuously inundated by growth In evaluating the successes and failures of the Florida approach planners and policy makers will gain insights into how to successfully implement growth management policies at both the state and local level

Profession of City Planning, the Lloyd Rodwin, 2000-01-01 In thirty four provocative and insightful chapters the nation's leading planners present a definitive assessment of fifty years of city planning and establish a benchmark for the profession for the next fifty years The book appraises what planners do and how well they do it how and why their current activities differ from past practices and how much and in what ways planners have or have not enhanced the quality of urban life and contributed to the intellectual capital of the field How have the goals values and practices of planners changed What do planners say about their roles and the problems they confront What is the relevance of their skills from design capabilities and environmental savvy to intermediate and long term perspectives and the pragmatics of implementation The contributors seeking to answer these questions include Anthony Downs Nathan Glazer Philip B Herr Judith E Innes Terry S Szold Lawrence J Vale and Sam Bass Warner Jr The Profession of City Planning contrasts with the main changes in the US over the second half of the twentieth century in city planning Sector images of the practice and effects of planning on housing transportation and the environment as well as the development of economic tools are also discussed **The Profession of**
